

22nd Meeting of the European Society of Microcirculation

The Microcirculation and Vascular Biology

University of Exeter, Devon, UK
Wednesday 28th–Friday 30th August 2002

Welcome Invitation

The Cathedral City of Exeter, the county town of Devon in the beautiful West Country of England, is the location for the 22nd Meeting of the European Society for Microcirculation and Vascular Biology in 2002.

The Scientific Programme will combine the traditional strength of the Society – the blend of basic and clinical science – with a greater emphasis on vascular biology and the biophysics of the microcirculation.

Special care will be taken to ensure that the scientific and social opportunities appeal to all age groups particularly to young scientists to create a truly stimulating and memorable conference. Travelling to the South West of England has never been easier. Exeter lies at the centre of an impressive network of communications making the rest of the UK and Europe within easy reach. For further information and to contribute your ideas for the programme please visit the ESM website: www.medizin.fu-berlin.de/esm

For further information on the meeting please return the attached form to the conference organisers. We look forward to seeing you in Exeter in 2002.

Professor J.E. Tooke

Professor A.C. Shore

Local Organising Committee

Professor J.E. Tooke, Exeter, Chairman
Dr J. Whatmore, Exeter, Secretary
Professor L. Poston, London
