

Submission

TRANSFUSION MEDICINE AND HEMOTHERAPY is a peer-reviewed journal intended to provide a forum for presentation of all aspects of transfusion medicine, hemostaseology, and immunohematology. The journal publishes articles concerning scientific, technical and administrative aspects of blood banking, blood infusion, infusion therapy, and transplantation.

Manuscripts can now be submitted online: www.karger.com/tmh

Should you have any problems with electronic submission, or feel the need to submit the paper in a non-electronic form, please send your manuscript to:

S. Karger Verlag für Medizin und Naturwissenschaften GmbH
Attn.: Dr. Sven Riestenpatt
P.O. Box
79095 Freiburg (Germany)
Tel. +49 761 4520 722
Fax +49 761 4520 714
E-mail s.riestenpatt@karger.de

Language

All contributions (except for Commentaries and Congress Reports) must be written in English (American or British spelling and grammar).

Types of Papers and Allotted Number of Pages

Please print the manuscript 1 1/2-spaced with 3-cm margins (left and right). Use only one format (normal) for the document.

The text (including the summary) should be limited to the following number of pages:

	Printed pages	Equals approx. manuscript pages*
Review Article, Original Article	10	30
Case Report	3	9
Quality Management, Clinical Information	5	15
Letter to the Editor	2	6
Others	2	6

* including title page, summary, illustrations, tables, and references.

Each additional complete or partial page to print will be charged to the author.

Conditions

Acceptance of a manuscript is based on the evaluation by several reviewers (peer review).

Manuscripts are received with the explicit understanding that they are not under simultaneous consideration by any other publication. Submission of an article for publication implies the transfer of the copyright from the author to the publisher upon acceptance.

Once the manuscript is accepted for publication, all usage rights will be retained by the publisher. The assignment of usage rights applies to all print media as well as electronic offline and online media, including the Internet and data bases/data carriers of any kind. Accepted papers, in whole or in part, may not be translated into other languages, or reproduced by any mechanical or electronic means (including photocopying, recording and microcopying), or stored in a retrieval system without the written consent of the publisher.

It is the authors' responsibility to obtain permission to produce illustrations, tables, etc. from other publications.

All forms of support, including that from drug companies, and any potential source of conflict of interest should be acknowledged in the cover letter to the editor. Should the manuscript be accepted, the editor will discuss the extent of disclosure appropriate for publication with the authors.

The publisher reserves the right to edit the manuscript and decide on the layout.

Ethical and Legal Prerequisites

Manuscripts involving examinations of human subjects must include a statement that the trial protocol has been approved by an ethical committee and thus meets the standards of the Declaration of Helsinki in its revised version of 1975 and its amendments of 1983, 1989, and 1996 [JAMA 1997;277:925–926]. Accordingly, the subject's informed consent has to be mentioned in the manuscript. Information suitable to reveal the subject's identity is to be avoided.

Arrangement

Authors' affiliations and address of correspondence: Each author's full name, followed by their affiliation (hospital, institute etc. where the work was conducted) and the exact postal address of the corresponding author complete with postal code must be given. Please also supply phone and fax numbers, as well as e-mail address.

Title page: The first page of each paper should indicate the title (German and English) and a short title for use as running head.

Key Words: For indexing purposes, a list of 3–5 key words in English and German is essential. Whenever possible, use key words such as found in the Medical Subject Headings List (MeSH) of Index Medicus.

Summary: Summaries must be submitted in German and English. They must not exceed 200 words each. Summaries of Original Articles and Case Reports should be structured as follows: Background, Patients and Methods (or Material and Methods), Results, Conclusion.

Footnotes: Footnotes should be used only for tables.

Registered Trade Names: When first mentioned, registered trade names must be marked with the superscript registration symbol ® or ™. It is the sole responsibility of the author to ensure that this rule is followed properly.

Tables and Illustrations: Tables and illustrations should be prepared on separate sheets. Tables require a heading and figures a legend, also prepared on a separate sheet. The number of figures and tables should be limited and aim to illustrate the text. Figures are listed in the text as (fig. 1), tables as (table 1). Data already mentioned in the text need not be repeated in a table. Accordingly, numbers used in tables need not be repeated in the text.

For the reproduction of illustrations, only good drawings and original photographs can be accepted. On the back of each illustration, indicate its number, the author's name, and 'top' with a soft pencil. Electronically submitted b/w half-tone and color illustrations must have a final resolution of 300 dpi after scaling, line drawings one of 800–1200 dpi.

Color illustrations are reproduced at the author's expense. Each one is charged to the author at EUR 280,- + VAT as contribution to the additional reproduction and color printing costs.

References

The list of references should include only the publications cited in the text. References must be numbered sequentially in the order cited in the text. In the text identify references by Arabic numerals [in square brackets]. In each reference all authors should be named; the abbreviation 'et al.' is to be avoided. It is recommended to quote only articles already published or accepted for publication. Please avoid 'in preparation' or 'personal communication'. Authors are responsible for the accuracy and completeness of their references and for correct citation. Journal titles should be abbreviated according to the Index Medicus system (www.nlm.nih.gov). If a reference manager is used, the style «Pharmacology» or «Nephron» should be chosen.

Page Charges

There are no page charges for papers that do not exceed the allotted size (cf. types of papers). Each additional complete or partial page is charged to the author at 390,- EUR + VAT.

Galley Proofs

Unless indicated otherwise, galley proofs are sent to the corresponding author and should be returned with the least possible delay. Alterations made in galley proofs, other than the correction of printer's errors, are charged to the author. No page proofs are supplied.

Reprints

Order forms and a price list are sent with the galley proofs. Orders submitted after the issue is printed are subject to considerably higher prices.
