Proceedings of the 1992 Meeting of the Leksell Gamma Knife Society

Buenos Aires, Argentina, March 7-9, 1992

Editors
J.C. Ganz, Bergen
Philip L. Gildenberg, Houston, Tex.
Patricia O. Franklin, Houston, Tex.

74 figures, 42 tables, 5 color plates, 1993
Drug Dosage

The authors and the publisher have exerted every effort to ensure that drug selection and dosage set forth in this text are in accord with current recommendations and practice at the time of publication. However, in view of ongoing research, changes in government regulations, and the constant flow of information relating to drug therapy and drug reactions, the reader is urged to check the package insert for each drug for any change in indications and dosage and for added warnings and precautions. This is particularly important when the recommended agent is a new and/or infrequently employed drug.

Contents

Stereotactic Radiosurgery: Current Status and Future Trends
Leksell,D,G............................................................................................................ 1

Cost Accounting the Gamma Knife
Epstein, M.E.; Lindquist, C................................................................................... 6

Decision Analysis of the Treatment of AVMs with Radiosurgery
Hudgins, W.R ....................................................................................................... 11

Risk of Cerebral Bleeding from Arteriovenous Malformations in Pregnancy: The Sheffield Experience
Forster, D.M.C.; Kunkler, L.H.; Hartland, P .......................................................... 20

The Results of Gamma Knife Surgery of Meningiomas, Related to Size of Tumor and Dose
Ganz, J.C.; Backlund, E.-O.; Thorsen, F.A............................................................ 23

The Effects of Gamma Knife Surgery of Pituitary Adenomas on Tumor Growth and Endocrinopathies
Ganz, J.C.; Backlund, E.-O.; Thorsen, FA .............................................................. 30

Gamma Knife Radiosurgery in the Treatment of Ocular Melanoma
Logani, S.; Helenowski, T.K.; Thakrar, H.; Pothiawala, B...................................... 38

Gamma Knife Surgery for Cerebral Metastases, Implications for Survival Based on 16 Years Experience
Kihlström, L.; Karlsson, B.; Lindquist, C .................................................................. 45

Long-Term Clinical Effects of Radiation Therapy for Primitive Gliomas and Medulloblastomas: A Role for Radiosurgery
Contents

V

Boost Gamma Knife-Radiosurgery in the Treatment of Primary Glial Tumors
Coffey, R.J.................................................................59

Gamma Knife Thalamotomy and Pallidotomy in Patients with Movement Disorders: Preliminary Results

Leksell Gamma Knife Treatment of Tic Douloureux

Role of the Gamma Knife in the Treatment of Large Lesions
Helenowsky, T.K.; Pothiawala, B..............................103

Beta Test Site Report: Gamma Plan

Beam Profile Analysis Using GafChronic Films
Sanders, M.; Sayeg, J.; Coffey, G; Patel, P.; Walsh, J..................124

A Tissue Equivalent Phantom for Stereotactic Radiosurgery Localization and Dose Verification
Coffey, C.W.; Sanders, M.; Cashon, K.; Miller, R; Walsh, J; Patel, P.130

The Dosimetric Consequences of Weighted Fields Using the Same Isocenter in Radiosurgery
Larner, J.M.; Berk, H.W.; Agarwal, S.K.; Steiner, I......................142

Dose Planning with the Leksell Gamma Knife: The Effect on Dose Volume of More Than One Shot at the Same Target Point
Thorsen, F.A.; Ganz, J.C..............................................151

Extracranial Absorbed Doses with Gamma Knife Radiosurgery
Berk, H.W.; Larner, J.M.; Spaulding, C; Agarwal, S.K.; Scott, M.R.; Steiner, L.....................................................164

Consequences to the Patient in the Event of Hydraulic Unit Failure
Smith, V.; Verhey, L.; Jones, E.; Lyman, J..............................173

Recommissioning of the Sheffield Gamma Knife Unit following a Source Change
Walton, L.; Griffiths, L.M.; Hampshire, A.........................178
