Announcement

After the successful meetings of the International Society of Skin Pharmacology (ISP) in Hamburg (2005) and Rome (2006), the next meeting will be run as a workshop and held in Washington, D.C., from August 11th to 13th, 2007. It will consist of various sessions (nanotechnology and the skin, predicting unwanted skin effects, evidence-based medicine and skin products, exposure assessment as well as a roundtable discussion), case studies related to regulatory approval of products, training sessions for newcomers to the field and a poster session. The workshop, organized by Michael Roberts and Michael Dellarco, includes invited speakers from US regulatory agencies, industry, academia, the ISP and the Gordon Research Conference 'Barrier Function of Mammalian Skin'. It takes place immediately after the Gordon Research Conference.

Information on the workshop is available on the homepage of the ISP (<http://www.isp-society.org/meetings.html>) and at <http://www.skinfrontier.com>, alternatively please contact Janeth Panta (eohjip@gwumc.edu).

Jürgen Lademann, Editor
Joachim Fluhr, Secretary of ISP
Michael Roberts, Secretary of ISP Workshop
