Proceedings of the Twelfth Annual Meeting of the Electroshock Research Association

Table of Contents

Neraval: A New Anesthetic for Electroconvulsive Therapy. By Frank J. Ayd, Jr. ................................................................. 22

Effect of Chlorpromazine, Reserpine and Frenquel on Convulsive Threshold. By Kathleen Smith, George A. Ulett, Laverne Johnson and Margaret Johnson .................................................................................... 26

Reactivity of Brain Tissue to Intracranial and External Electrotherapy. By Juan Negrin, Jr. ........................................................................................................................................................................... 31

Low vs. High Dosages of Succinylcholine Chloride in Electroconvulsive Therapy: Advantages and Complications. By Philip Hastings, Dewey Robbiano, Jesse Kaye, Bolivar Herdoiza and William L. Hok .................................................................................... 36

The Use of Succinylcholine in Office Treatment. By John D. Moriarty .................................................................................... 41

Peroneal Nerve Paralysis as a Complication of Electroshock Therapy. By Sidney Etpern and H. Louis Chodosh ......................................................................................................................................................... 46

Fear and Anxiety Concerning Electric Shock Therapy. By Alfred Gallinek ................................................................. 51

Some Effects of Chlorpromazine on Electrically Induced Convulsions in Man. By Esther Bogen-Tielz, Keith D. Powelson, James Weber and Joseph Wildhaber ........................................................................................................................................ 57

The Integration of Electroshock Treatment in the Therapeutic Atmosphere of a Private Hospital Setting. By Martha Brunner-Orne, I. E. Gilbert and S. E. White .................................................................................................................................................. 63
