Acute Stroke Therapy: Optimal Care of the Stroke Patient

Plenary Session to the 3rd World Stroke Congress and the 5th European Stroke Conference, Munich, Germany, September 2, 1996

Guest Editors
NG Wahlgren, Stockholm, Sweden
T. Yamaguchi, Osaka, Japan

figures and 13 tables, 1997
Supported by an Educational Grant from Janssen-Cilag
The authors and the publisher have exerted every effort to ensure that drug selection and dosage set forth in this text are in accord with current recommendations and practice at the time of publication. However, in view of ongoing research, changes in government regulations, and the constant flow of information relating to drug therapy and drug reactions, the reader is urged to check the package insert for each drug for any change in indications and dosage and for added warnings and precautions. This is particularly important when the recommended agent is a new and/or infrequently employed drug.
1  Preface
   Wahlgren, N.G. (Stockholm); Yamaguchi, T. (Osaka)

2  Prehospital Management of Stroke Patients
   Brott, T.; Kothari, R. (Cincinnati, Ohio)

5  Early Classification of Stroke
   Castillo, V.; Bogousslavsky J. (Lausanne)

12  General Care in Acute Stroke
    Yamaguchi, T.; Minematsu, K.; Hasegawa, Y. (Osaka)

18  Intensive Care in Acute Stroke
    Hacke, W. (Heidelberg)

24  Pharmacological Treatment of Acute Stroke
    Wahlgren, N.G. (Stockholm)
