Influence of Cardiac Extracts on Cultured Ciliary Ganglia
McLennan, I.S. and Hendry, L.A................................................................................................. 1

Acute Modification of Embryonic Spinal Cord Activity Induced by Hypoxia
Gonya-Magee, T. and Stokes, B.T................................................................................................. 11

Prenatal Human Brain Development. II. Studies on Malate Dehydrogenase
Chabas, A.; Briones, P., and Sabater, J........................................................................................ 19

Development of Acetylcholine Sensitivity of Embryonic Chick Atria in Culture
Obata, K. and Oide, M.................................................................................................................. 28

Development and Aging of Cholinergic Synapses, n. Continuous Growth of Acetylcholine and Choline Levels in Autonomic Ganglia and Iris of the Chick
No. 2

Models of Infantile Undernutrition in Rats: Effects on Brain Lipids
Crnic, L.S. and Chase, H.P................................................................. 49
Effects of Perinatal Thyroxine and/or Corticosterone Treatment on the Ontogenesis of Hypothalamic and Mesencephalic Norepinephrine and Dopamine Content
Lengvari, I.; Branch, B.J., and Taylor, A.N........................................ 59
Age-Dependent Differences in Cognin Regeneration on Embryonic Retina Cells. Immunolabeling and SEM Studies
Ben-Shaul, Y.; Hausman, R.E., and Moscona, A.A................................ 66
Glycine Metabolism and Glycine Synthase Activity during the Postnatal Development of Rat Brain
Lahoya, J.L.; Benavides, J., and Ugarte, M........................................... 75
Cerebellar Granule Cell Genesis in the Hydrocortisone-Treated Rat
Bonn, M.C. and Lauder, J.M............................................................... 81
A Morphological Study of Incubated Slices of Rat Cerebellum in Relation to Postnatal Age
Garthwaite, J.; Woodhams, P.L.; Collins, M.J., and Balazs, R.................. 90
Erratum............................................................................................................ 100

No. 3

A Regional Study of the Molecular Forms of Acetylcholinesterase in the Brain of Developing and Adult Rats
Wade, P.D. and Timiras, P.S............................................................... 101
Effects of Early Undernutrition on Dendritic Spines of Cortical Pyramidal Cells in the Rat
Salas, M...................................................................................................... 109
Development of Muscarinic Receptor Binding in Spinal Cord Cell Cultures and Its Reduction by Glutamic and Kainic Acids
Brookes, N. and Burt, D.R........................................................................ 118

Contents

Regeneration in the Cerebellum Following Methylazoxymethanol-Induced Destruction of the External Germinal Layer. Morphological and Biochemical Studies
Lovell, K.L.; Goetting, M.G., and Jones, M.Z........................................... 128
Appearance of Tyrosine Hydroxylase Immunoreactivity in the Human Embryo
Pearson, J.; Brandeis, L., and Goldstein, M............................................... 140

No. 4–6

Neurofilaments in the Chick Embryo during Early Development. I. Immunofluorescent Study with Antisera to Neurofilament Protein
Bignami, A.; Dahl, D., and Seiler, M.W................................................... 151
Effects of Undernutrition on the Visually Evoked Responses in Rats during Development
Puthuraya, K.P.; Nayar, U.; Deo, M.G., and Manchanda, S.K....................... 162
An Ultrastructural Study of the Cardiac Ganglia in the Bulbar Plexus of the Developing Chick Heart
Development and Aging of Cholinergic Synapses. III. Choline Uptake in the Developing Iris of the Chick
Marchi, M.; Hoffmann, D.W.; Mussini, I., and Giacobini, E.......................... 185
Effects of Thyroid State on the Formation and Early Morphological Development of Bergmann Glia in the Developing Rat Cerebellum
Clos, J.; Legrand, G, and Legrand, J.......................................................... 199
Effects of Neonatal Estrogenization on Thymidine Kinase Activity and DNA Content in the Cerebellum of the Rat
Litteria, M.................................................................................................... 209
Glucocorticoids as a Regulatory Factor for Brain Tryptophan Hydroxylase during Development
Sze, P.Y....................................................................................................... 217
