The International Glossary of Anticonvulsants
The Epilepsy Literature Project, under the sponsorship of the International Bureau and the International League against Epilepsy, has been compiling an International Glossary of Anticonvulsants. Registrants at the World Congress of Neurological Sciences in New York in September, 1969, received a preliminary edition.
Copies of the Glossary are available at no charge and may be obtained by request to: Mrs. ELLEN R. GRASS, President, International Bureau for Epilepsy, 77 Reservoir Road, Quincy, MA 02170 (USA).
It will be much appreciated if the readers will tell us of any omissions or errors in the Glossary so future editions can be revised.
