Drug Dosage
The authors and the publisher have exerted every effort to ensure that drug selection and dosage set forth in this text are in accord with current recommendations and practice at the time of publication. However, in view of ongoing research, changes in government regulations, and the constant flow of information relating to drug therapy and drug reactions, the reader is urged to check the package insert for each drug for any change in indications and dosage and for added warnings and precautions. This is particularly important when the recommended agent is a new and/or infrequently employed drug.
Contents

Preface 5

Is There a Need for Alternative Approaches in the Therapy of Cerebrovascular Disorders?
Hartmann, A 7

Calcium in Physiological and Pathological Cell Function
Peters, T 27

Calcium and Ischemic Brain Damage
Siesjo, B.K 45

Differentiation of Calcium Entry Blockers into Calcium Channel Blockers and Calcium Overload Blockers
Zwieten, P.A. van 57

Role of Calcium Entry Blockers in Neurological Diseases
Fiessich, C; Lenzü, G.L.; Rasura, M 68

Role of Calcium Entry Blockers in the Prophylaxis of Migraine
Olesen, J 72

Calcium Entry Blockers in the Treatment of Vertebrobasilar Insufficiency
Hofferberth, B 80

Treatment of Vasospasm due to Subarachnoid Hemorrhage with Calcium Entry Blockers
Przuntek, H.; Baumgarten, F. v.; Mertens, H.G 86

Add-On Therapy in Epilepsy with Calcium Entry Blockers
Overweg, J.; Ashton, D.; Beukelaar, F. de; Hinne, C; Wauquier, A; Wieringen, A 93

Possible Role of Calcium Entry Blockers in Brain Protection
Baethmann, A.; Jansen, M 102

Pharmacopsychological Effects of Flunarizine in Geriatric Patients with Light Brainorganic Psychosyndrome. Preliminary Communication
Heinze, B.; Peters, T 115

Effect of Flunarizine on Regional Cerebral Blood Flow in Common and Complicated Migraine. Pilot Study
Lagreze, H.E.; Fiinda, Y.; Hartmann, A.; Haan, P 122
