Intracranial Dermal Sinus and Dermoid

David G. McLone, MD, PhD, Children's Memorial Hospital, 2300 Children's Plaza, Chicago, IL 60614 (USA), Tel. +1 (773) 880 43 73, Fax +1 (773) 880 43 11, E-Mail dmclone@nwu.edu

A, B Bone window CTs demonstrate the penetration of the occipital bone.
C, D Reformatted three-dimensional images also demonstrate the opening of the bone.

E A tuft of hair exists from the cutaneous opening.

F The dermal tract and small dermoids removed at surgery are shown.
