Contents

No. 1

CONFORTI, N. and FELDMAN, S.: Effects of Dorsal Fornix Section and Hippocam-
pectomy on Adrenocortical Responses to Sensory Stimulation in the Rat.......................... 1

MENON, K. M. J. and GUNAGA, K.P.: Cytoplasmic and Nuclear Receptor-Estradiol
Complex in the Hypothalamus and Pituitary: Relationship with Pituitary Sen-
sitivity to Gonadotropin Releasing Hormone and Gonadotropin Secretion in the Rat.............................. 8

RUOFF, H.J.; MATHISON, R., and LEDERIS, K.: Cyclic 3’5’-Adenosine Monophos-
phate in the Hypothalamo-Neurohypophysial System of Normal, NaCl-Treated
and Lactating Rats ..................................................................................................................... 18

CÁCERES, A. and TALEISKI, S.: Inhibition of Gonadotropin Secretion Induced
by Stimulation of Thalamic Nuclei .......................................................................................... 30

YASUDA, N. and GREER, M. A.: Rat Hypothalamic Corticotropin-Releasing Factor
(CRF) Content Remains Constant Despite Marked Acute or Chronic Changes
in ACTH Secretion ...................................................................................................................... 48

VALVERDE-R., C; PASTRANA, L.S.; Ruiz, J.A.; Sous, H.; JURADO, J.L.; SORDO,
C. M.; FERNÁNDEZ-GUARDIOLA, A., and MAISTERRENA, J.A.: Neuroendocrine
and Electroencephalographic Sleep Changes Due to Acute Amphetamine
Ingestion in Human beings ........................................................................................................ 57

DAFNY, N. and BURKS, T.F.: Opiate and Endocrine Interaction: Morphine Ef-
fects on Hypothalamus and Pineal Body .................................................................................. 72

NAGLE, C. A. and Rosner, J. M.: Plasma Norepinephrine during the Rat Estrus
Cycle and after Progesterone Treatment to the Ovariectomized Estrogen-
Primed Rat .......................................................................................................................................... 89

No. 2

BERNARDIS, L.L. and BELLINGER, L.L.: Production of Weanling Rat Ventromedial
dorsomedial Hypothalamic Syndromes by Electrolytic Lesions with Plat-

REITER, R.J.; BLASK, D.E.; JOHNSON, L.Y.; Rudeen, P.K.; VAUGHAN, M.K., and
Waring, P. J.: Melatonin Inhibition of Reproduction in the Male Hamster:
Its Dependency on Time of Day of Administration and on an Intact and Sym-
pathetically Innervated Pineal Gland .......................................................................................... 107

PACKMAN, P. M.; BOSHANS, R.L., and BRAGDON, M. J.: Quantitative Histochemical
Studies of the Hypothalamus. Dehydrogenase Enzymes during the Estrous
Cycle ................................................................................................................................................ 117
Contents

VOLCANES, B. DE and WEATHERHEAD, B.: Early Changes in the Ultrastructure of the Pars Intermedia of the Pituitary of Xenopus laevis after Change of Background Color .......................................................... 127

FARRAR, G. M. and CLARKE, J..: Effect of Chemical Sympathectomy and Pinealectomy upon Gonads of Voles (Microtus agrestis) Exposed to Short Photoperiod ................................................................. 134

RAMALEY, J.A.: Effects of Castration on Entrainment of the Peripheral Corticosterone Rhythm in Rats before and after Puberty .................................................. 144

KRIEG, R.J., jr.; TANDON, O.P.; WHITMOYER, D.I., and SAWYER, C.H.: Differential Effects of Intraventricular Luteinizing Hormone Releasing Hormone (LH-RH) and Norepinephrine on Electrical Activity of the Arcuate Nucleus in the Proestrous Rat ........................................................................................................ 152

BOUILLE, C. and BAYLÉ, J.D.: Comparison between Hypothalamic, Hippocampal and Septal Multiple Unit Activity and Basal Corticotropic Function in Unrestrained, Unanesthetized Resting Pigeons ................................................ 164

ITURIZA, F. C.; CELOTTI, F.; ESTIVARIZ, F.E., and MARTINI, L.: Lack of Detectable Secretion of ACTH from Pituitary Homografts of Pars Intermedia . . 175

STITH, R. D.; PERSON, R. J., and DANA, R. C.: Metyrapone Inhibition of 3H-Hydrocortisone Uptake and Binding in Various Brain Regions of the Pig ............... 183

No. 3

KRIEGER, M.S.; MORELL, J.I., and PFaff, D.W.: Autoradiographic Localization of Estradiol-Concentrating Cells in the Female Hamster Brain........................................ 193

GUDELSKY, G.A.; SIMPKINS, J.; MUELLER, G.P.; MEITES, J., and MOORE, K.E.: Selective Actions of Prolactin on Catecholamine Turnover in the Hypothalamus and on Serum LH and FSH .............................................. 206

BELLINGER, L. L.; BERNARDIS, L.L., and MENDEL, V. E.: Effect of Ventromedial and Dorsomedial Hypothalamic Lesions on Circadian Corticosterone Rhythms .......................................................... 216

RUF, K.B.; WILKINSON, M.; ZIEGLER, D. DE, and CASSARD, D.: Ovarian Control of Gonadotropin Secretion during Induced Precocious Sexual Maturation in the Rat ................................................................................. 226

MEYER, D. C. and QUAY, W.B.: Effects of Continuous Light and Darkness, and of Pinealectomy, Adrenalectomy and Gonadectomy on Uptake of 3H-Serotonin by the Suprachiasmatic Nuclear Region of Male Rats ............................... 231

OGER, L. and WOOLLEY, D.: Increase in 3H-Estradiol Binding in Brain and Pituitary with Time after Gonadectomy in Adult Male and Female Rats .... 259

HOROWSKI, R. and GRÄF, K.-J.: Influence of Dopaminergic Agonists and Antagonists on Serum Prolactin Concentrations in the Rat .......................... 273

Announcements ........................................................................................................... 287
