FASEB 67th Annual Meeting  
Chicago, Ill., April 10-15, 1983

A society-wide theme of the 1983 FASEB Meetings is Neuroendocrinology. Symposia, minisymposia, slide and poster sessions will cross society lines. The Neuroendocrinology thematic symposia topics include: Control of CRF-ACTH Secretion; Neuroendocrinology of Behavior; Pituitary Hormone Synthesis, Processing and Secretion, Parts I and II; Neuroendocrine Effects of Nutrients. Minisymposia, slide and poster sessions will cover virtually all areas of interest to the neuroendocrinologist.

8th International Conference on the Physiology of Food and Fluid Intake and 8th International Symposium on Olfaction and Taste  
Melbourne, Australia, August 23-26, 1983

These conferences will be held concurrently on August 23-26, 1983, at La Trobe University, Melbourne, Australia. For further information contact: Dr. M.J. McKinley, Howard Florey Institute of Experimental Physiology and Medicine, University of Melbourne, Parkville, Vic. 3052, Australia.

Satellite Symposium on the Pineal  
Digby, NS, Canada, July 8-10, 1984

This meeting will be held in association with the 7th International Congress of Endocrinology, Quebec City, July 1-7, 1984.
If you are interested, please contact us at this time in order to be put on the mailing list for future information. Contact either Dr. Gregory M. Brown, Department of Neurosciences, McMaster University, 1200 Main Street West, Hamilton, Ont. L8N 3Z5 (Canada), or Dr. Stanley Wainwright, Department of Biochemistry, Dalhousie University, Halifax, NS B3H 4H7 (Canada).
