Drug Dosage

The authors and the publisher have exerted every effort to ensure that drug selection and dosage set forth in this text are in accord with current recommendations and practice at the time of publication. However, in view of ongoing research, changes in government regulations, and the constant flow of information relating to drug therapy and drug reactions, the reader is urged to check the package insert for each drug for any change in indications and dosage and for added warnings and precautions. This is particularly important when the recommended agent is a new and/or infrequently employed drug.
Original Paper

Intravenous Application of Ovine and Human Corticotropin Releasing Factor (CRF): ACTH, Cortisol and CRF Levels

Stalla, G.K.; Hartwimmer, J.; Schopohl, J.; Werder, K. von; Müller, O.A.

Stimulatory versus Inhibitory Effects of Progesterone on Estrogen-Induced Phasic LH and Prolactin Secretion Correlated with Estrogen Nuclear and Progesterin Cytosol Receptor Concentrations in Brain and Pituitary Gland

Barralough, C.A.; Camp, P.; Weiland, N.; Akabori, A.

Prolactin Cell Activity in Female and Male Syrian Hamsters: An Apparent Sexually Dimorphic Response to Light Deprivation and Pinealectomy

Estrogen Exposure Affects the Post-Ovariectomy Increases in Both LH and FSH Release in Female Rats

Matt, D.W.; LaPolt, P.S.; Ludd, H.L.; Lu, J.K.H.

Action of Hypo- and Hyperthyroidism on the Postmortem Decay of Acetylcholine in the Rat Spinal Cord

Molinengo, L.; Cassone, M.C.; Oggero, L.

Inhibition of Gonadotropin Secretion Induced by Cholecystokinin Implants in the Medial Preoptic Area by the Dopamine Receptor Blocker, Pimozide, in the Rat

Hashimoto, R.; Kimura, F.

Melatonin-Induced Increases in Serotonin Concentrations in Specific Regions of the Chicken Brain

Cassone, V.M.; Lane, R.F.; Menaker, M.

Cell Nuclear Accumulation of Estrogen Receptors in Rat Brain and Pituitary Gland after Treatment with a Dopamine-ß-Hydroxylase Inhibitor

Blaustein, J.D.

Estrogen-Induced Progestin Receptors in the Brain and Pituitary of the South African Clawed Frog, Xenopus laevis

Roy, E.J.; Wilson, M.A.; Kelley, D.B.

Increased Number of Angiotensin II Binding Sites Determined by Autoradiography in Anterior Pituitary of Water-Deprived and Brattleboro Rats

Israel, A.; Plunkett, L.; Saavedra, J.M.

Analysis by Plaque Assays of GH and Prolactin Release from Individual Cells in Cultures of Male Pituitaries. Evidence for Functional Heterogeneity within Rat Mammatrope and Somatotrope Populations

Boockfor, F.R.; Hoeffler, J.P.; Frawley, L.S.

Absence of Inhibitory Dopaminergic Control of the Rabbit Pituitary Gland Intermediate Lobe

Schimchowitsch, S.; Palacios, J.M.; Stoeckel, M.E.; Schmitt, G.; Porte, A.
Opioid K Receptors and the Secretion of Prolactin (PRL) and Growth Hormone (GH) in the Rat. I. Effects of Opioid K Receptor Agonists Bremazocine and U-50,488 on Secretion of PRL and GH: Comparison with Morphine
Krulich, L.; Koenig, J.I.; Conway, S.; McCann, S.M.; Mayfield, M.A. ................................................................................  75

Opioid K Receptors and the Secretion of Prolactin (PRL) and Growth Hormone (GH) in the Rat. II. GH and PRL Release-Inhibiting Effects of the Opioid K Receptor Agonists Bremazocine and U-50,488
Krulich, L.; Koenig, J.I.; Conway, S.; McCann, S.M.; Mayfield, M.A. ................................................................................  82
