Drug Dosage

The authors and the publisher have exerted every effort to ensure that drug selection and dosage set forth in this text are in accord with current recommendations and practice at the time of publication. However, in view of ongoing research, changes in government regulations, and the constant flow of information relating to drug therapy and drug reactions, the reader is urged to check the package insert for each drug for any change in indications and dosage and for added warnings and precautions. This is particularly important when the recommended agent is a new and/or infrequently employed drug.
Contents Vol. 48, 1988

No. 1

Original Paper
Possible Involvement of the Hypothalamic Dopaminergic System in the Prolactin-Inhibitory Effects of the Pineal Gland in Blind-Anosmic Male Rats
Leadem, C.A.; Burns, D.M.; Benson, B......................... 1

Innervation of the Sheep Adrenal Cortex: An Immunohistochemical Study with Rat Corticotrophin-Releasing Factor Antiserum
Rundle, S.E.; Canny, B.J.; Robinson, P.M.; Funder, J.W. 8

Opioid-Noradrenergic Interactions in the Neurohypophysis.
I. Differential Opioid Receptor Regulation of Oxytocin, Vasopressin, and Noradrenaline Release
Zhao, B.; Chapman, C; Bicknell, R.J......................... 16

Opioid-Noradrenergic Interactions in the Neurohypophysis.
II. Does Noradrenaline Mediate the Actions of Endogenous Opioids on Oxytocin and Vasopressin Release?
Zhao, B.; Chapman, C; Brown, D.; Bicknell, R.J........... 25

Effects of Intravenous Corticotropin-Releasing Hormone upon Sleep-Related Growth Hormone Surge and Sleep EEG in Man
Holsboer, F.; von Bardeleben, U.; Steiger, A.................. 32

Axons Containing a Prolactin-Like Peptide Project into the Perivascular Layer of the Median Eminence: An Immuno-cytochemical Light and Electron Microscope Study in Adult and Infant Rats
Alonso, G.; Siaud, P.; Favier-Sarrailh, C; Grouselle, D.; Barbanel, G.; Assenmacher, I................................. 39

Transplanted Gonadotropin-Releasing Hormone Neurons Promote Pulsatile Luteinizing Hormone Secretion in Congenitally Hypogonadal (hpg) Male Mice
Kokoris, G.J.; Lam, N.Y.; Ferin, M.; Silverman, A.-J.; Gibson, M.J................................................................. 45

Effects of Ovariectomy and Estradiol Replacement on the Bindings of [125I]Neurotensin in Rat Suprachiasmatic Nucleus
Moyse, E.; Miller, M.M.; Rostène, W.; Beaudet, A........... 53

Alpha-Adrenergic Control of Serotonin Release from Rat Pineal Glands
Ajobol V.J.; Walker, R.F.................................................. 61

Subfornical Organ Connections with Septal Neurons Projecting to the Median Eminence
Donevan, S.D.; Ferguson, A.V......................................... 67

Delayed Sexual Maturation Induced by Daily Melatonin Administration Eliminates the LH Response to Naloxone despite Normal Responsiveness to GnRH in Juvenile Male Rats
Aubert, M.L.; Rivest, R.W.; Lang, U.; Winiger, B.P.; Sizonenko, P.C................................................................. 72

Feedback Regulation of Pulsatile LH Secretion in the Ewe: Stimulation of Frequency by Estradiol
Kaynard, A.H.; Follett, B.K.; Karsch, F.J......................... 81
Autoradiographic Characterization of Binding Sites Labelled with Vasopressin in the Brain of a Urodele Amphibian
Tripp, S.K.; Moore, F.L. ........................................................... 87

Effects of Suckling on the in vivo Release of Thyrotropin-Releasing Hormone, Dopamine and Adrenaline in the Lactating Rat
Rondeel, J.M.M.; de Greef, W.J.; Visser, T.J.; Voogt, J.L. 93

Chronic Morphine and Testosterone Treatment. Effects on Sexual Behavior and Dopamine Metabolism in Male Rats
Clark, J.T.; Gabriel, S.M.; Simpkins, J.W.; Kalra, S.P.; Kalra, P.S ............................................................... 97

No. 2

Original Paper
Regulation of the Central Nervous System-Pituitary-Adrenal Axis in Rats after Neonatal Treatment with Monosodium Glutamate
Magarinos, A.M.; Estivariz, F.; Morado, M.I.; De Nicola, A.F. 105

Positive Feedback in Hypogonadal Female Mice with Preoptic Area Brain Transplants
Gibson, M.J.; Kokoris, G.J.; Silverman, A.-J..........................112

Estrogen-Dependent and Estrogen-Independent Effects of Progesterone on the Electrophysiological Excitability of Dorsal Midbrain Neurons in Golden Hamsters
Havens, M.D.; Rose, J.D..........................................................120

Localized Increase of GABA Levels in Brain Areas of the Rat and Inhibition of the Plasma LH Rise following Orchidectomy
Donoso, A.O ........................................................................130

Changes in the Number of GnRH-Receptive Cells during the Rat Estrous Cycle: Biphasic Effects of Estriol
Lloyd, J.M.; Childs, G.V.........................................................138

Sustained Intermittent Release of Gonadotropin-Releasing Hormone in the Prepubertal Male Rhesus Monkey Induced by N-Methyl-DL-Aspartic Acid
Gay, V.L.; Plant, T.M ..............................................................147

Role of the Hypothalamic TRH in the Regulation of Its Own Receptors in Rat Anterior Pituitaries
Mori, M.; Yamada, M.; Kobayashi, S......................................153

Human Recombinant Interleukin-2 in Prostaglandin E2 and cAMP Independent Manner
Kehrer, P.; Turnill, D.; Dayer, J.-M.; Muller, A.F.; Gaillard, R.C..............................................................160

Histaminergic Regulation of Prolactin Secretion: Involvement of Tuberoinfundibular Dopaminergic Neurons
Knigge, U.; Matzen, S.; Warberg, J.........................................167
Contents

Prolactin Release Induced by Opiate Agonists, Effect of Glu-corticoid Pretreatment in Intact and Adrenalectomized Rats Kim, D.T.; Kanyicska, B.; Stark, E.; Fekete, M.I.K. ... 174
Specificity of Vasopressin Binding to the Posterior Pituitary Gland in the Rat. An Autoradiographic Study Dashwood, M.R.; Robinson, I.C.A.F ............................................ 180
Involvement of D1 Dopamine Receptors in the Nicotine-Induced Neuro-Endocrine Effects and Depletion of Diencephalic Catecholamine Stores in the Male Rat Andersson, K.; Fuxe, K.; Eneroth, P.; Härfstrand, A.; Agnati, L.F ................................................................. 188

Rapid Communications

The Melatonin Receptors in Rat Ontogenesis Vaněcek, J ................................................................. 201
Inhibitory Action of Exogenous Oxytocin on Plasma Cortisol in Normal Human Subjects: Evidence of Action at the Adrenal Level Legros, J.-J.; Chiodera, P.; Geenen, V ........................................... 204
Localization of Neuropeptide Y Binding Sites in the Zona glomerulosa of the Bovine Adrenal Gland Torda, T.; Cruciani, R.A.; Saavedra, J.M .............................................. 207
Tissue-Specific Regulation of Pyroglutamate Aminopeptidase II Activity by Thyroid Hormones Ponce, G; Charli, J.-L.; Pasten, J.A.; Aceves, C; Joseph-Bravo, P.............................................................. 211
Immunoneutralization of Oxytocin Attenuates Preovulatory Prolactin Secretion during Proestrus in the Rat Sarkar, D.K ................................................................. 214

Original Paper

Relation of Endogenous Systemic and Brain Angiotensin II, Arginine, Vasopressin and Prolactin with the Genesis of Salt Appetite in Cattle Bell, F.R.; Doris, P.A.; Simmonds, A ........................................... 217
Differential Angiotensin-Converting Enzyme Inhibition in Brain after Oral Administration of Perindopril Demonstrated by Quantitative in vitro Autoradiography (With 1 color plate) Sakaguchi, K.; Chai, S.-Y.; Jackson, B.; Johnston, C.I.; Mendelsohn, P.A.0 ........................................................................ 223
Stimulatory Effect of Isoproterenol but Not of Dibutyryl Cyclic AMP on N-Acetyltransferase Activity and Melatonin Content of Syrian Hamster Pineal Gland in Organ Culture Santana, C; Guerrero, J.M.; Reiter R.J.; Puig-Domingo, M. González-Brito, A ........................................................................ 229
Corticosterone Decreases Glutamate Binding in Rat Hippocampal Formation Halpain, S.; McEwen, B.S .......................................................... 235
Opposite Changes of Pituitary and Ovarian Receptors for LHRH in Ageing Rats: Further Evidence for a Direct Neural Control of Ovarian LHRH Receptor Activity Marchetti, B; Cioni, M .......................................................... 242
Effect and Site of Action of Hypothalamic Neuropeptides on Prolactin Release in Sheep
Thomas, G.B.; Cummins, J.T.; Griffin, N; Clarke, I.J. 252

Effects of Systemic and Intracerebroventricular Cysteamine on Dexamethasone-Induced Suppression of Corticosterone Levels in the Rat
Radke, J.M.; Vincent, S.R. 258

Reproductive Refractoriness of the Ewe to Inhibitory Photo-period Is Not Caused by Alteration of the Circadian Secretion of Melatonin

Localization of Cerebral Protein Synthesis Alterations in Response to Water Deprivation in Rats
Puchalski, W.; Lynch, G.R. 280

Hypophyseal Actions of Pulsatile Gonadotropin-Releasing Hormone in the Ewe: Development and Application of a New Experimental Model
Kaynard, A.H.; Karsch, F.J. 287

Importance of Pituitary and Neural Actions of Estradiol in Induction of the Luteinizing Hormone Surge in the Ewe
Kaynard, A.H.; Malpaux, B.; Robinson, J.E.; Wayne, N.L.; Karsch, F.J. 296

Lack of Acute Amphetamine Effects on Thyrotropin Release
Little, K.Y.; Garbutt, J.C.; Mayo, J.P.; Mason, G 304

Twenty-Four-Hour Patterns of Pineal Melatonin and Pituitary and Plasma Prolactin in Male Rats under ‘Natural’ and Artificial Lighting Conditions
Laakso, M.-L.; Porkka-Heiskanen, T.; Alila, A.; Peder, M.; Johansson, G 308

Differential Effects of Pituitary Stalk-Section on Posterior Pituitary and Hypothalamic Contents of Prolactin-Releasing Factor, Oxytocin, Dopamine and Beta-Endorphin
Hyde, J.F.; Murai, I.; Ben-Jonathan, N 314

Changes in Tuberoinfundibular Dopaminergic Neuron Activity during the Rat Estrous Cycle in Relation to the Prolactin Surge: Alteration by a Mammary Carcinogen
Pasqualini, C; Bojda, F.; Gaudoux, F.; Guibert, B.; Leiviel, V.; Teissier, E.; Rips, R.; Kerdelhue, B. 320
