Drug Dosage
The authors and the publisher have exerted every effort to ensure that drug selection and dosage set forth in this text are in accord with current recommendations and practice at the time of publication. However, in view of ongoing research, changes in government regulations, and the constant flow of information relating to drug therapy and drug reactions, the reader is urged to check the package insert for each drug for any change in indications and dosage and for added warnings and precautions. This is particularly important when the recommended agent is a new and/or infrequently employed drug.
# Contents Vol. 52, 1990

## No. 1

### Original Paper

- **Absence of Ultradian Rhythm or Diurnal Variation in Insulin-Like Growth Factor-I in Rats**
  Donaghue, K.C.; Badger, T.M.; Millard, W.J.; Frisch, L.S.; Russell, W.E.
  
- **Hepatic Vagotomy Abolishes the Circadian Rhythm of Lipogenic Responsiveness to Insulin and Reduces Fat Stores in Hamsters**
  Martin, D.D.; Cincotta, A.H.; Meier, A.H.

- **Correlative Changes of the Gonadotropin-Releasing Hormone and Gonadotropin-Releasing-Hormone-Associated Peptide Immunoreactivities in the Pituitary Portal Plasma in Female Rats**
  Sarkar, D.K.; Mitsugi, N.

- **Physiologically Significant Inhibitory Hypothalamic Action of Substance P on Prolactin Release in the Male Rat**
  Arisawa, M.; Snyder, G.D.; Yu, W.H.; De Palatis, L.R.; Ho, R.H.; McCann, S.M.

- **Neuropeptide Y Stimulates Growth Hormone and Gonadotropin Release from the Goldfish Pituitary in vitro**
  Peng, C.; Huang, Y.-H.; Peter, R.E.

- **Naloxone Affects the Luteinizing Hormone Secretory Pattern in the Short- and Long-Term Ovariectomized Rat**
  Funabashi, T.; Kato, A.; Kimura, F.

- **Pyridostigmine Potentiates L-Dopa but not Arginine- and Physiologically Significant Inhibitory Hypothalamic Action of Substance P on Prolactin Release in the Male Rat**
  Ghigo, E.; Bellone, J.; Imperiale, E.; Arvat, E.; Mazza, E.; Malta, M.; Cappa, M.; Loche, S.; De Sanctis, C.; Muller, E.E.; Camanni, F.

- **Dopaminergic and Beta-Adrenergic Receptor Control of L-Dopa but not Arginine- and Physiologically Significant Inhibitory Hypothalamic Action of Substance P on Prolactin Release in the Male Rat**
  Arisawa, M.; Snyder, G.D.; Yu, W.H.; De Palatis, L.R.; Ho, R.H.; McCann, S.M.

- **Melanocyte-Stimulating Hormone and Beta-Adrenergic Receptor Control of L-Dopa but not Arginine- and Physiologically Significant Inhibitory Hypothalamic Action of Substance P on Prolactin Release in the Male Rat**
  Ghigo, E.; Bellone, J.; Imperiale, E.; Arvat, E.; Mazza, E.; Malta, M.; Cappa, M.; Loche, S.; De Sanctis, C.; Muller, E.E.; Camanni, F.

- **Naloxone Affects the Luteinizing Hormone Secretory Pattern in the Short- and Long-Term Ovariectomized Rat**
  Funabashi, T.; Kato, A.; Kimura, F.

- **Pyridostigmine Potentiates L-Dopa but not Arginine- and Physiologically Significant Inhibitory Hypothalamic Action of Substance P on Prolactin Release in the Male Rat**
  Ghigo, E.; Bellone, J.; Imperiale, E.; Arvat, E.; Mazza, E.; Malta, M.; Cappa, M.; Loche, S.; De Sanctis, C.; Muller, E.E.; Camanni, F.

- **Dopaminergic and Beta-Adrenergic Receptor Control of L-Dopa but not Arginine- and Physiologically Significant Inhibitory Hypothalamic Action of Substance P on Prolactin Release in the Male Rat**
  Arisawa, M.; Snyder, G.D.; Yu, W.H.; De Palatis, L.R.; Ho, R.H.; McCann, S.M.

- **Melanocyte-Stimulating Hormone and Beta-Adrenergic Receptor Control of L-Dopa but not Arginine- and Physiologically Significant Inhibitory Hypothalamic Action of Substance P on Prolactin Release in the Male Rat**
  Ghigo, E.; Bellone, J.; Imperiale, E.; Arvat, E.; Mazza, E.; Malta, M.; Cappa, M.; Loche, S.; De Sanctis, C.; Muller, E.E.; Camanni, F.

- **Naloxone Affects the Luteinizing Hormone Secretory Pattern in the Short- and Long-Term Ovariectomized Rat**
  Funabashi, T.; Kato, A.; Kimura, F.

- **Pyridostigmine Potentiates L-Dopa but not Arginine- and Physiologically Significant Inhibitory Hypothalamic Action of Substance P on Prolactin Release in the Male Rat**
  Ghigo, E.; Bellone, J.; Imperiale, E.; Arvat, E.; Mazza, E.; Malta, M.; Cappa, M.; Loche, S.; De Sanctis, C.; Muller, E.E.; Camanni, F.

- **Dopaminergic and Beta-Adrenergic Receptor Control of L-Dopa but not Arginine- and Physiologically Significant Inhibitory Hypothalamic Action of Substance P on Prolactin Release in the Male Rat**
  Arisawa, M.; Snyder, G.D.; Yu, W.H.; De Palatis, L.R.; Ho, R.H.; McCann, S.M.

- **Melanocyte-Stimulating Hormone and Beta-Adrenergic Receptor Control of L-Dopa but not Arginine- and Physiologically Significant Inhibitory Hypothalamic Action of Substance P on Prolactin Release in the Male Rat**
  Ghigo, E.; Bellone, J.; Imperiale, E.; Arvat, E.; Mazza, E.; Malta, M.; Cappa, M.; Loche, S.; De Sanctis, C.; Muller, E.E.; Camanni, F.

- **Naloxone Affects the Luteinizing Hormone Secretory Pattern in the Short- and Long-Term Ovariectomized Rat**
  Funabashi, T.; Kato, A.; Kimura, F.

- **Pyridostigmine Potentiates L-Dopa but not Arginine- and Physiologically Significant Inhibitory Hypothalamic Action of Substance P on Prolactin Release in the Male Rat**
  Ghigo, E.; Bellone, J.; Imperiale, E.; Arvat, E.; Mazza, E.; Malta, M.; Cappa, M.; Loche, S.; De Sanctis, C.; Muller, E.E.; Camanni, F.

- **Dopaminergic and Beta-Adrenergic Receptor Control of L-Dopa but not Arginine- and Physiologically Significant Inhibitory Hypothalamic Action of Substance P on Prolactin Release in the Male Rat**
  Arisawa, M.; Snyder, G.D.; Yu, W.H.; De Palatis, L.R.; Ho, R.H.; McCann, S.M.

- **Melanocyte-Stimulating Hormone and Beta-Adrenergic Receptor Control of L-Dopa but not Arginine- and Physiologically Significant Inhibitory Hypothalamic Action of Substance P on Prolactin Release in the Male Rat**
  Ghigo, E.; Bellone, J.; Imperiale, E.; Arvat, E.; Mazza, E.; Malta, M.; Cappa, M.; Loche, S.; De Sanctis, C.; Muller, E.E.; Camanni, F.

- **Naloxone Affects the Luteinizing Hormone Secretory Pattern in the Short- and Long-Term Ovariectomized Rat**
  Funabashi, T.; Kato, A.; Kimura, F.

- **Pyridostigmine Potentiates L-Dopa but not Arginine- and Physiologically Significant Inhibitory Hypothalamic Action of Substance P on Prolactin Release in the Male Rat**
  Ghigo, E.; Bellone, J.; Imperiale, E.; Arvat, E.; Mazza, E.; Malta, M.; Cappa, M.; Loche, S.; De Sanctis, C.; Muller, E.E.; Camanni, F.

- **Dopaminergic and Beta-Adrenergic Receptor Control of L-Dopa but not Arginine- and Physiologically Significant Inhibitory Hypothalamic Action of Substance P on Prolactin Release in the Male Rat**
  Arisawa, M.; Snyder, G.D.; Yu, W.H.; De Palatis, L.R.; Ho, R.H.; McCann, S.M.
Hypothalamic Atrial Natriuretic Peptide Secretion Plasticity: Differential Modulation of Alpha and Beta Adrenoceptors Bush, A.I.; Huang, W.; Copolov, D.L.; Lim, A.T.W. ... 65

Effect of Prolactin Replacement on the Number of Tyrosine Hydroxylase Expressing Neurons in the Arcuate Nuclei of Ames Dwarf and Normal Mice Morgan, W.W.; Besch, K.C. .............................. 70

Dopamine Inhibits the Arachidonate and Prolactin Release Stimulated by Thyrotropin-Releasing Hormone through an Islet-Activating Protein-Sensitive GTP-Binding Protein in Anterior Pituitary Cells Ohmichi, M.; Hirota, K.; Koike, K.; Kadowaki, K.; Yamaguchi, M.; Miyake, A.; Tanizawa, O ........................................ 75

Substance P Stimulates Arginine Vasopressin and Inhibits Adrenocorticotropin Release in vivo in the Rat Chowdrey, H.S.; Jessop, D.S.; Lightman, S.L ......................... 90

Aromatase, 5-Alpha-Reductase, and Androgen Receptor Levels in the Fetal Monkey Brain during Early Development Sholl, S.A.; Kim, K.L .............................................................. 94

Comparison of the Effects of Ether and Restraint Stress on the Activity of Tuberoinfundibular Dopaminergic Neurons in Female and Male Rats Lookingland, K.J.; Gunnet, J.W.; Toney, T.W.; Moore, K.E. 99

Rapid Communication

Facilitatory Role of Neuropeptide Y on the Onset of Puberty: Effect of Immunoneutralization of Neuropeptide Y on the Release of Luteinizing Hormone and Luteinizing-Hormone-Releasing Hormone Minami, S.; Frautschy, S.A.; Plotsky, P.M.; Sutton, S.W.; Sarkar, D.K .............................................................. 112
