Neuroendocrinology.1991;54:536

Announcements
International Congress on Growth Hormone and Somatomedins during Life Span
Milan, September 10-12, 1992

Main Topics
Physiology, Neural and Metabolic Controls, Receptors, Binding Proteins, Molecular Biology, Hormonal Regulations, Fetal Growth, Neonatal Growth, Reproductive Physiology, Bone and Calcium Metabolism, Senescence, Immune Function, Clinical Experience

Scientific Committee
F. Camanni (Italy)
W.H. Daughaday (USA)
H.G. Friesen (Canada)
L.M. Frekland (Sweden)
P.D. Gluckman (New Zealand)
O.G.P. Isaksson (Sweden)
S.L. Kaplan (USA)
E.E. Müller (Chairman; Italy)
R. Rosenfeld (USA)
P.C. Sizonenko (Switzerland)
L.E. Underwood (USA)

Scientific Secretariat
D. Cocchi, V. Locatelli, Department of Pharmacology, School of Medicine, University of Milan, Via Vanvitelli 32, 20129 Milan (Italy)

Registration Information
Phone 02/70 12 30 66-7174 70, Fax 02/7174 70-749 09 37

First International Symposium on Neurobiology and Neuroendocrinology of Aging
Will be held in Bregenz, Austria, July 19-24, 1992, sponsored by Vorarlberger Landesregierung and Southern Illinois University.
The topics will include changes in neurotransmission related to aging and Alzheimer’s disease, hypothalamic mechanisms of reproductive aging and changes in growth hormone release during aging.
The program will consist of invited lectures and poster presentations with informal discussions.
For more information, please write to Andrzej Bartke, Department of Physiology, Southern Illinois University School of Medicine, Carbondale, IL 62901-6512 (USA), or Ezio Giacobini, Department of Pharmacology, Southern Illinois University School of Medicine, Springfield, IL 62794-9210 (USA).
