Drug Dosage
The authors and the publisher have exerted every effort to ensure that drug selection and dosage set forth in this text are in accord with current recommendations and practice at the time of publication. However, in view of ongoing research, changes in government regulations, and the constant flow of information relating to drug therapy and drug reactions, the reader is urged to check the package insert for each drug for any change in indications and dosage and for added warnings and precautions. This is particularly important when the recommended agent is a new and/or infrequently employed drug.
Original Paper

Relative Contribution of Nervous System and Hormones to Hyperglycemia Induced by Thyrotropin-Releasing Hormone in Fed Rats

Regulated Production and Secretion of Immunoreactive Neuropeptide Y by Aggregating Fetal Brain Cells in Cultures
Barnea, A.; Hajibeigi, A.; Cho, G.; Magni, P.

Interaction of Estradiol, Alpha-Melanocyte-Stimulating Hormone, and Dopamine in the Regulation of Sexual Receptivity in the Female Rat
Wilson, C.A.; Thody, A.J.; Hole, D.R.; Grierson, J.P.; Celis, M.E.

Role of Testosterone in the Regulation of Tuberoinfundibular Dopaminergic Neurons in the Male Rat
Toney, T.W.; Lookingland, K.J.; Moore, K.E.

Influence of Diabetes on the Gonadotropin Response to the Negative Feedback Effect of Testosterone and Hypothalamic Neurotransmitter Turnover in Adult Male Rats
Chandrashekar, V.; Steger, R.W.; Bartke, A.; Fadden, C.T.; Kienast, S.G.

Subcellular Distribution of Corticotropin-Releasing-Factor-Like Immunoreactivity in Rat Central Nervous System
Cain, S.T.; Owens, M.J.; Nemeroff, C.B.

Effect of Head-Up Tilt on Vasopressin Secretion and Arterial Pressure in Anesthetized Rats

Effects of Active Immunization against Gonadotropin-Releasing Hormone on the Concentrations of Noradrenaline, 5-Hydroxytryptamine and Some of Their Metabolites in the Brain and Sexual Organs of Male Rats
Juorio, A.V.; Li, X.M.; Gonzalez, A.; Chedrese, P.J.; Murphy, B.D.

Effects of Daily Afternoon Melatonin Administration on Monoamine Accumulation in Median Eminence and Striatum of Ovariectomized Hamsters Receiving Pargyline
Alexiuk, N.A.; Vriend, J.

Expression of Basic Fibroblast Growth Factor and Its Receptor in the Rat Subfornical Organ
Frautschy, S.A.; Gonzalez, A.M.; Martinez Murillo, R.; Careceller, F.; Cuevas, P.; Baird, A.

Indirect Action of Elevated Potassium and Neuropeptide Y on αMSH Secretion from the Pars Intermedia of Xenopus Laevis: A Biochemical and Morphological Study
Koning, H.P. de; Jenks, B.G.; Scheenen, W.J.J.M.; Rijk, E.P.C.T. de; Cars, R.T.J.M.; Roubos, E.W.
Suckling-Induced Changes of Vasoactive Intestinal Peptide Concentrations in Hypothalamic Areas Implicated in the Control of Prolactin Release
Chiocchio, S.R.; Parisi, M.; de las Nieves; Vitale, M.L.; Tramezzani, J.H .............................................................. 77

Cholinergic Modulation of Growth Hormone Secretion Induced by Galanin in Rats

No. 2

Original Paper

Amygdaloid Lesions: Differential Effect on Conditioned Stress and Immobilization-Induced Increases in Corticosterone and Renin Secretion
Van de Kar, L.D.; Piechowski, R.A.; Rittenhouse, P.A.; Gray, T.S .................................................................................. 89

Delayed Puberty in the Male Djungarian Hamster: Effect of Short Photoperiod or Melatonin Treatment on the GnRH Neuronal System
Buchanan, K.L.; Yellon, S.M ................................................................. 96

Suprachiasmatic Nucleus Lesions Abolish Photoperiod-Induced Changes in the Testis Function and GnRH Immunoreactivity in the Mink, a Short-Day Breeder
Maurel, D.; Boissin-Agasse, L.; Roch, G.; Herbuté, S.; Boissin, J .................................................................................. 103

Adrenalectomy and Experimental Hypercorticalism Modulate the Basal, Corticotropin-Releasing-Hormone- and Arginine-Vasopressin-Stimulated Release of Hypothalamic Beta-Endorphin
Patchev, V. K.; Racké, K.; Almeida, O.F.X ......................................... 111

Opioid-Receptor-Mediated Inhibition of [3H]Dopamine but Not [3H]Noradrenaline Release from Rat Medial Hypothalamus Slices
Heijna, M.H.; Palt, M.; Hogenboom, F.; Schoffelmeer, A.N.M.; Mulder, A.H ............................................................... 118

A Sex-Specific Cytochrome P-450(F-1) Colocalized with Various Neuropeptides in the Paraventricular and Supraoptic Nuclei of Female Rats
Lin, L.-P.; Lee, Y.; Tohyama, M.; Shiosaka, S ..................................... 127

Recovery of Pituitary-Gonadal Function in Male and Female Rats after Prolonged Administration of a Potent Antagonist of Luteinizing Hormone-Releasing Hormone (SB-75) Bokser, L.; Srkalovic, G.; Szepeshazi, K.; Serially, A.V. . 136

Is Reverse Triiodothyronine a Physiological Nonactive Competitor for the Action of Triiodothyronine upon the Electrical Properties of GH3 Cells?
duPont, J.S .................................................................................. 146
Release of Luteinizing Hormone-Releasing Hormone, β-En-dorphin and Noradrenaline by the Nucleus Infundibi-laris/Median Eminence during Periovulatory Period in the Sheep
Domanski, E.; Chomiczka, L.K.; Ostrowska, A.; Gajewska, A.; Mateusiak, K .............................................................. 151

Comparative Distribution of Immunoreactive Pituitary Ade-nylate Cyclase Activating Polypeptide and Vasoactive Intestinal Polypeptide in Rat Forebrain Köves, K.; Arimura, A.; Görcs, T.G.; Somogyváry-Vigh, A. 159

Possible Involvement of Endogenous Opioid Peptides in the Inhibition of Arginine Vasopressin Release by γ-Amino-butyric Acid in Conscious Rats
Otaka, K.; Kondo, K.; Oso, Y .............................................. 170

Pharmacologic Evidence that a D2 Receptor Subtype Mediates Dopaminergic Stimulation of Prolactin Secretion from the Anterior Pituitary Gland
Burris, T.P.; Stringer, L.C.; Freeman, M.E ............................ 175

Original Paper

Diethylstilbestrol- and Pregnancy-Induced Changes in Rat Neurointermediate Lobe Oxytocin, Arginine Vasopressin, Methionine Enkephalin and Dynorphin
Schriefer, J.A ........................................................................... 185

Sleep-Associated Augmentation and Synchronization of Luteinizing Hormone Pulses in Adult Men Fehm, H.L.; Clausing, J.; Kern, W.; Pietrowsky, R.; Born, J. 192

Demonstration of Insulin-Like Growth Factors I, II and Heterogeneous Insulin-Like Growth Factor Binding Proteins in the Cyst Fluid of Patients with Craniopharyngioma Zumkeller, W.; Sääf, M.; Rähn, T.; Hall, K ......................... 196

Influences of Norepinephrine, and Adrenergic Agonists and Antagonists on Gonadotropin Secretion from Dispersed Pituitary Cells of Goldfish, Carassius auratus
Chang, J.P.; Van Goor, F.; Acharya, S.................................... 202

Gonadotropin Secretion during Aging in Postmenopausal Women Rossmanith, W.G.; Scherbaum, W.A.; Lauritzen, C ... 211

Muscarinic Cholinergic Control of Vasopressin Secretion from the Acute Hypothalamoneurohypophysial Explant
Michels, K.M.; Meeker, R.B.; Hayward, J.N ......................... 219

Effects of Tumor-Induced Hyperprolactinemia on LH Secretion following Stimulation of the Medial Preoptic Area, Pituitary Responsiveness and the Estrogen-Induced LH Surge
Shu, C; Selmanoff, M .............................................................. 227

Vasopressin mRNA Expression in Individual Magnocellular Neuroendocrine Cells of the Supraoptic and Paraventricular Nucleus in Response to Water Deprivation
Meeker, R.B.; Greenwood, R.S.; Hayward, J.N .................... 236

Prolactin Stimulates Rat Hypothalamic Corticotropic-Releasing Hormone and Pituitary Adrenocorticotropic Secretion in vitro
Weber, R.F.A.; Calogero, A.E .................................................. 248
The Effect of Hypothalamo-Pituitary Disconnection on the Functional and Morphologic Development of the Pituitary-Adrenal Axis in the Fetal Sheep in the Last Third of Gestation
Antolovich, G.C.; McMillen, I.C.; Robinson, P.M.; Silver, M.; Young, I.R.; Perry, R.A.....................................................254

The Effect of Interleukin-6 on Pituitary Hormone Release in vivo and in vitro
Lyson, K.; McCann, S.M ...........................................................262

Bihormonal Cells Producing Gonadotropins and Prolactin in a Rat Pituitary Tumor Cell Line (RC-4B/C)
Polkowska, J.; Bérault, A.; Hurbain-Kosmath, I.; Jolly, G.; Jutisz, M.................................................................267

Anterolateral Hypothalamic Deafferentation Inhibits Histamine-Induced Prolactin Secretion and Potentiates TRH-Induced Thyrotropin Secretion in Male Rats
Tuominen, R.K.; Makara, G.B.; Männistö, P.T .............................274

Prolactin Short-Loop Feedback and Prolactin Inhibition of Luteinizing Hormone Secretion during the Breeding Season and Seasonal Anaestru in the Ewe
Curlewis, J.D.; McNeilly, A.S ..........................................................279

Ovarian Role in the Modulation of Pituitary Responsiveness to Growth Hormone-Releasing Hormone in Rats
Aguilar, E.; Pinilla, L.............................................................286

Arginine Reinstates the Somatotrope Responsiveness to Intermittent Growth Hormone-Releasing Hormone Administration in Normal Adults

Hydrolysis of Atrial and Brain Natriuretic Peptides by the Human Astrocytoma Clone D384 and the Neuroblastoma Line SH-SY5Y

Arginine-Vasopressin in Anterior Pituitary Cells: In situ Hybridization of mRNA and Ultrastructural Localization of Immunoreactivity

Announcement ..............................................................312
