Contents, Vol. 38, 1984

Alfred Gropp (15 April 1924-22 October 1983) ............... 1
Alfred Gropp Commemorative Series ......................... 1

Original Articles

Selective elimination of chromosomally unbalanced zygotes at
the two-cell stage in the Chinese hamster
Sonta, S.; Fukui, K.; Yamamura, H. ................................. 5

Pachytene analysis of a man with a 13q; 14q translocation and infertility. Behavior of the trivalent and nonrandom association
with the sex vesicle
Luciani, J.M.; Guichaoua, M.R.; Mattei, A.; Morazzani,
M.R................................................................. 14

On telomere replication and fusion in eukaryotes: apropos of a
case of 45, X/46, X, ter (X;X)(p22.3;p22.3)
Rivera, H.; Solà, M.T.; García-Cruz, D.; Martinez-Wilson,
M.; Cantú, J.M...................................................... 23

Sex chromosome loss and clones characterized by autosomal
abnormality in cultured corneal fibroblasts of man
Fitzgerald, P.H.; Rosman, I............................................. 29

Induction of sister chromatid exchange by 3-aminobenzamide
is independent of bromodeoxyuridine
Morgan, W.F.; Wolff, S.................................................. 34

Unusual C-band patterns in three karyotypically rearranged
forms of Scapteromys (Rodentia, Cricetidae) from Brazil
Freitas, T.R.; Mattevi, M.S.; Oliveira, L.F.B................. 39

Regional localization of α-galactosidase (GLA) to Xpter → q22,
hexosaminidase B (HEXB) to 5q13 –> qter, and arylsulfatase
B (ARSB) to 5pter → q13
Fox, M.F.; DuToit, D.L.; Warnich, L.; Retief, A.E .......... 45

An X1X1X2X2/X1X2Y mechanism of sex determination in
a South American rodent, Deltamys kempi (Rodentia, Cri
cetidae)
Sbalqueiro, I.J.; Mattevi, M.S.; Oliveira, L.F.B............. 50

Inhibitory effect of ethidium bromide on mitotic chromosome
condensation and its application to high-resolution chro
mosome banding
Ikeuchi, T................................................................. 56

X chromosome inactivation in bone marrow cells of adult mice
carrying Searle’s X-autosome translocation: occurrence of
the early-replicating inactive X chromosome
Takagi, N.; Endo, S.; Sugawara, 0................................. 62

NRAS transforming gene maps to region p11 → p13 on chromosome 1 by in situ hybridization
Rabin, M.; Watson, M.; Barker, P.E.; Ryan, J.; Breg, W.R.;
Ruddle, F.H......................................................... 70
Localization of the cellular oncogenes ABL, SIS, and FES on human germ-line chromosomes Jhanwar, S.C; Neel, B.G.; Hayward, W.S.; Chaganti, R.S.K. 73

Human Genetic Mutant Cell Repository Report
Congenital lactic acidosis associated with pyruvate carboxylase deficiency. Repository identification No. GM6056 Oizumi, J.; Donnell, G.N.; Ng, W.G.; Mulivor, R.A.; Greene, A.E.; Coriell, L.L........................................................ 80

Editorial
Original Articles
Idoxuridine induction of micronuclei containing the long or short arms of human chromosome 9 Tommerup, N................................................................. 92
Recent evolution of DNA sequence homology in the pericentric regions of human acrocentric chromosomes Kurnit, D.M.; Neve, R.L.; Morton, C.C.; Bruns, G.A.P.; Ma, N.S.F.; Cox, D.R.; Klinger, H.P .................. 99
Evidence for heterosynaptic pairing of the inverted segment in pericentric inversion heterozygotes of the deer mouse (Peromyscus maniculatus) Greenbaum, I.F.; Reed, M.J......................................................106
Human formaldehyde dehydrogenase (FDH) and its assignment to chromosome 4 Meera Khan, P.; Wijnen, L.M.M.; Hagemeijer, A.; Pearson, P.I. .................................................................112
Patterns of heterochromatin replication and condensation cor relate in rat kangaroo PtK2 cells Goitein, R.; Hirschberg, J.; Marcus, M.; Sperling, K............... 116
X;Y translocation in a female with streak gonads, H-Y”pheno type, and some features of Turner’s syndrome Kelly, T.E.; Wachtel, S.S.; Cahill, L.; Bahnhbei, V.M.; Will son-Suddath, K.; Wyandt, H.E........................................122
Contents
In situ hybridization and translocation breakpoint mapping. I. Nonidentical breakpoints for the t(9;22) of CML and the t(8;22) of Burkitt lymphoma Emanuel, B.S.; Selden, J.R.; Wang, E.; Nowell, P.C.; Croce, CM .................................................................................127
Expression and regional assignment of Chinese hamster ESD and rRNA genes associated with translocations giving rise to chromosomes Z1 and Z6 in CHO cells Starlings, R.E.; Adair, G.M.; Lin, J.C.; Siciliano, M.J. ... 132 A 39, X/40, XY/41, XYY mosaic male mouse Das, R.K.; Behera, A.K..................................................138
Gene mapping in the rat by mouse-rat somatic cell hybridization: synteny of the albumin and α-fetoprotein genes and assignment to chromosome 14
Brief Reports
Assignment of the gene for human arylsulfatase B, \textit{ARSB}, to chromosome region 5pl 1 → 5qter
Fidzianska, E.; Abramowicz, T.; Czartoryska, B.; Glogowska, I.; Gorska, D.; Rodo, M.
Bleomycin-induced chromosome breakage in G2 lymphocytes of retinoblastoma patients
Localization of the hepatoglobin \(\alpha\) and \(\beta\) genes (\textit{HPA} and \textit{HPB}) to human chromosome 16q22 by in situ hybridization
McGill, J.R.; Yang, F.; Baldwin, W.D.; Brune, J.L.; Barnett, D.R.; Bowman, B.H.; Moore, C.M.

Commentary
Translocation (1;6) in acute lymphoblastic leukemia
Werner, Favre, C.; Beck, D.; Engel, E.

Errata
A twin study of sister chromatid exchanges in human lymphocytes following carcinogen exposure and DNA repair incubation
Hedner, K.; Iselius, L.; Mitelman, F.; Norden, Å.; Pero, R.W.
Distamycin A/DAPI bands and the effects of 5-azacytidine on the chromosomes of the chimpanzee, \textit{Pan troglodytes}
Schmid, M.; Haaf, T.
Temporal changes in chromosome abnormality rate in human spontaneous abortions: evidence for an association between sex-chromosome monosomy and trisomy 16
Hassold, T.; MacLean, C.
Cytogenet Genome Res of Atlantic eels: C- and G-banding, nucleolus organizer regions, and DNA content
Sola, L.; Camerini, B.; Cataudella, S.
An in vitro and in vivo study of a BrdU-sensitive fragile site in the Chinese hamster Lin, M.S.; Takabayashi, T.; Wilson, M.G.; Marchese, C.A.
A comparison of sister chromatid exchange frequencies in peripheral lymphocytes and bone marrow cells of Fischer 344 and Sprague-Dawley rats Dearfield, K.L.; Jacobson-Kram, D.; Williams, J.R.
The chromosomes of \textit{Micromys minutus} (Rodentia, Murinae). I. Banding analysis
Schmid, M.; Solleder, E.; Haaf, T.
Plasmid, phage, and genomic DNA-mediated transfer and expression of prokaryotic and eukaryotic genes in cultured human cells Srivatsan, E.S.; Stanbridge, E.J.; Saxon, P.J.; Stambrook, P.J.; Trill, J.J.; Tischfield, J.A.

Brief Reports
Hereditary retinoblastoma and \textit{13q} mosaicism
Dudin, G.; Nasr, A.; Traboulsi, E.; Khouri, F.; Der Kalousian, V.M.
A human lymphoblastoid cell line from the offspring of a brother-sister mating
Azen, E.A.; Kam, R.C.; Pauli, R.M.

Original Articles
Analysis of three whole-arm translocations in a mouse sarcoma cell line
Ghosh, S.; Chaudhuri, A.
Tuck-Müller, CM.; Bordson, B.L.; Varela, M.; Bennett, J.W. 165 Karyotypes of the East African common zebra, Equus burchelli

centric fission in a pedigree

Whitehouse, D.B.; Evans, E.P.; Pett, W.; George, A.M. 171 Ultrastructural organization of double minute chromosomes and HSR regions in human colon carcinoma cells

Rattner, J.B.; Lin, C.C ............................................................. 176

L’analyse cytogénétique de deux espèces de Muridae africains, Mus oubanguii et Mus minutoides/musculoides: polymorphisme chromosomique et ébauche d’une phylogénie (Cytogenetic analysis of two species of African Murids, Mus oubanguii and Mus minutoides/musculoides: chromosomal polymorphism and outline of a phylogeny)

Jotterand-Bellomo, M .............................................................. 182

Commentary

Translocation t(l;19) (q21;q13) in acute lymphoblastic leukemia

Werner-Favre, C; Cabrol, C; Wyss, M; Engel, E...................... 240

No. 4

Original Articles

On the nature and extent of XY pairing at meiotic prophase in man

Chandley, A.C.; Goetz, P.; Hargreave, T.B.; Joseph, A.M.; Speed, R.M. .......................................................... 241

Confirmed assignments of 15 structural gene loci to chromosomes of four owl monkey karyotypes

Ma, N.S.F. ................................................................................. 248

Chromosome polymorphism involving heterochromatic blocks in Chinese hamster chromosome 9

Ray, F.A.; Barthold, M.F.; Kraemer, P.M.; Cram, L.S. . . 257

Contents

Nondisjunction frequencies in Robertsonian heterozygotes from natural populations of the common shrew, Sorex araneus L.

Searle, J.B .................................................................................. 265

Comparative chromosomal mapping of the owl monkey serum albumin gene

Ma, N.S.F.; Kurnit, D.M ............................................................. 272

3-Aminobenzamide-induced sister chromatid exchanges are dependent on incorporated bromodeoxyuridine in DNA

Zwanenburg, T.S.B.; Narayanan, A.T ...................................... 278

Robinson, T.J.; Elder, F.P.B.; Chapman, J.A ................................ 282

An extra segment in chromosome 1 of wild Mus musculus: a C-band positive homogeneously staining region

Traut, W.; Winking, H.; Adolph, H. ............................................ 290

Random X inactivation resulting in mosaic nullisomy of region Xp21.1 → p21.3 associated with heterozygosity for ornithine transcarbamylase deficiency and for chronic granulomatous disease

Francke, U ................................................................................. 298
Brief Reports
An improved method for G-banding chromosomes after in situ hybridization
Cannizzaro, L.A.; Emanuel, B.S............................................................308
Homozygosity for a Robertsonian translocation (13q14q) in three offspring of heterozygous parents
Martinez-Castro, P.; Ramos, M.C.; Rey, J.A.; Benitez, J.;
Sanchez Cascos, A .................................................................................310
Announcement ..............................................................313
Author Index .................................................................314
Subject Index.................................................................315

Drug Dosage
The authors and the publisher have exerted every effort to ensure that drug selection and dosage set forth in this text are in accord with current recommendations and practice at the time of publication. However, in view of ongoing research, changes in government regulations, and the constant flow of information relating to drug therapy and drug reactions, the reader is urged to check the package insert for each drug for any change in indications and dosage and for added warnings and precautions. This is particularly important when the recommended agent is a new and/or infrequently employed drug.
