Drug Dosage

The authors and the publisher have exerted every effort to ensure that drug selection and dosage set forth in this text are in accord with current recommendations and practice at the time of publication. However, in view of ongoing research, changes in government regulations, and the constant flow of information relating to drug therapy and drug reactions, the reader is urged to check the package insert for each drug for any change in indications and dosage and for added warnings and precautions. This is particularly important when the recommended agent is a new and/or infrequently employed drug.

No. 1-2

Announcement

Ninth International Workshop on Human Gene Mapping 1

Original Articles

Assignment of RAS proto-oncogenes in Chinese hamsters: implications for mammalian gene linkage conservation and neoplasia
Stallings RL, Crawford BD, Black RJ, Chang EH 2
Interordinal conservatism of chromosome banding patterns in *Gallus domesticus* (Galliformes) and *Melopsittacus undulatus* (Psittaciformes)

Ansari HA, Takagi N, Sasaki M ...................... 6

A new location for the human adenine phosphoribosyl-transferase gene (*APRT*) distal to the haptoglobin (*HP*) and fra(16)(q23) (*FRA16D*) loci

Fratini A, Simmers RN, Callen DF, Hyland VJ, Tischfield JA, Stambrook PJ, Sutherland GR ............. 10

Cytogenetic studies of *Hynobius* (Urodela). IV. DNA replication bands (R-banding) in the genus *Hynobius* and the banding karyotype of *Hynobius nigrescens* Stejneger

Kuro-o M, Ikebe C, Kohno S .......................... 14

Sex chromosome-autosome translocations in the leaf-nosed bats, family Phyllostomidae. I. Mitotic analyses of the subfamilies Stenodermatinae and Phyllostominae

Tucker PK .................................................. 19

Sex chromosome-autosome translocations in the leaf-nosed bats, family Phyllostomidae. II. Meiotic analyses of the subfamilies Stenodermatinae and Phyllostominae

Tucker PK, Bickham JW ......................... 28

Determination of the baseline sister chromatid exchange frequency in human and mouse peripheral lymphocytes using monoclonal antibodies and very low doses of bromodeoxyuridine (with 1 color plate) Tucker JD, Christensen ML, Strout CL, Carrano AV . . . 38

Evolution of the ZZ/ZW system in *Leporinus* (Pisces, Anostomidae). Role of constitutive heterochromatin

Galetti PM Jr, Foresti F .......................... 43

Toward early diagnosis of myotonic dystrophy: construction and characterization of a somatic cell hybrid with a single human der(19) chromosome

Owl monkey gene mapping: the assignment of gene loci for catalase, ß-globin gene cluster, HRAS1, insulin, and parathyroid hormone Ma NSF, Gerhard DS, Housman DE, Orkin S, Bruns G 57

Premature centromere division dominantly inherited in a subfertile family

Gabarrón J, Jimenez A, Glover G ................... 69

An evolutionarily conserved early replicating segment on the sex chromosomes of man and the great apes

Weber B, Schmapp W, Wiesner H .................... 72

Construction of fifteen human chromosome-specific DNA libraries from flow-purified chromosomes

Fuscoe JC, Clark LM, Van Dilla MA ............... 79

Molecular characterization of the purity of seven human chromosome-specific DNA libraries

Perlman J, Fuscoe JC ............................... 87

Many oncogenes are transcribed in the D98AH2 derivative of the HeLa carcinoma cell line

OHara B, Klinger HP, Blair DG ................. 97

Chromosome 1 localization of the human alpha-L-fucosidase structural gene with a homologous site on chromosome 2

The family of DNA sequences is interspersed about the pericentromeric regions of human acrocentric chromosomes

Kurnit DM, Roy S, Stewart GD, Schwedock J, Neve RL, Bruns GAP, Van Keuren ML, Patterson D .... 109

A polymorphic human myosin heavy chain locus is linked to an anonymous single copy locus (D17S1) at 17pl3

Schwartz CE, McNally E, Leinwand L, Skolnick MH . . 117

Announcement ........................................ 116
Original Articles
The terminal deoxynucleotidyldtransferase gene is located on human chromosome 10 (10q23→q24) and on mouse chromosome 19
Yang-Feng TL, Landau NR, Baltimore D, Francke U . 121 Occurrence of premature chromosome condensation in mouse spermatogonia treated with busulfan
Yamamoto KI, Hitotsumachi S, Kikuchi Y .... 127
Statistical decision rules concerning synteny or independence between markers
Chevalet C, Corpet F..................132
Chromosomal mapping of four different integration sites of Moloney murine leukemia virus including the locus for dI(I) collagen in mouse
Münke M, Harbers K, Jaenisch R, Francke U . 140
Chromosomal localization of the human oncogene ERBA2
Gosden JR, Middleton PG, Rout D, De Angelis C .... 150 Meiotic association between the XY chromosomes and the autosomal quadrivalent of a reciprocal translocation in two infertile men, 46, XY, t(19;22) and 46, XY, t(17;21)
Gabriel-Robez O, Ratomponirina C, Dutrillaux B, Carré-Pigeon F, Rumpler Y .........................154

Contents
Synaptonemal complexes in Gerbillidae: probable role of intercalated heterochromatin in gonosome-autosome trans-locations
Ratomponirina C, Viegas-Péquignot E, Dutrillaux B,
Petter F, Rumpler Y ................................. 161
Chromosomal homoeologies in hamster species of the genus Phodopus (Rodentia, Cricetinae)
Schmid M, Haaf T, Weiß H, Schermpp W ..... 168
Detection of two TaqI polymorphisms in the VTR region of the human HRAS1 oncogene
Pierotti MA, Radice P, Biunno I, Borrello MG, Cattadori MR, Delia Porta G ............................ 174
The cellular homologue of the transforming gene of SKV avian retrovirus maps to human chromosome region 1q22 → q24
Chaganti RSK, Balazs I, Jhanwar SC, Murty VVVS, Kodoru PRK, Grzeschik K-H, Stavnezer E ........ 181
Recombination nodules in the oocytes of the chicken, Gallus domesticus
Rahn MI, Solari AJ .......................... 187
A new type of nonhomologous synapsis in T(X;4) 1 Rl translocation male mice
Ashley T, Russell LB ...................... 194
Centromere pattern in different mouse seminiferous tubule cells del Mazo J, Martin-Scippere MJ, Krejci L, Avila J .... 201
Easy transfer of selected mitoses from light to electron microcopy
Méssier P-E, Jean P, Richer C-L ................. 207
Brief Reports
Owl monkey gene loci for c-fes and albumin are syntenic
MaNSF ........................................ 211
Assignment of the pepsinogen gene complex (PGA) to human chromosome region 1q13 by in situ hybridization
Nakai H, Byers MG, Shows TB, Taggart RT .215
Localization of the human oestrogen receptor gene to chromosome 6q24 → q27 by in situ hybridization
Gosden JR, Middleton PG, Rout D .................218
Mapping of human cellular retinol-binding protein to chromosome 3
Colantuoni V, Rocchi M, Roncuzzi L, Romeo C 221

Commentary
Constitutional translocations and predisposition to T- and B-cell malignancies
Pathak S ...........................................................223

Genetic Linkage Data
Machado-Joseph disease: linkage analysis between the loci for the disease and 18 protein markers
Myers SM, MacLeod PM, Forse RA, Forster-Gibson CJ, Simpson NE .....................................................226

Author Index ................................................... 229
Subject Index ................................................. 230
