PART III

Blood Groups and Population Genetics

Discussion: B. Woolf, Edinburgh
Ph. Levine, Raritan (New Jersey)
R. Singer, Cape Town
A. E. Mourant, London
Blood Groups and Immunogenetics. Rare Red Cell Genotypes – Some Illustrative Cases. By Ph. Levine, Raritan (New Jersey)

Electrophoretic Pattern of Hereditary Human Serum Proteins. By F. Galatius-Jensen, Copenhagen

Mother-Baby ABO Blood Group Distributions. By K. E. Boorman, Sutton (Surrey)

ABO Incompatibility in Haemolytic Disease of the Newborn. By B. Woolf, Edinburgh

Somatic Mosaicism for Antigen A2. By C. W. Cotterman, Dallas (Texas) .

Discussion: P.A. Levine, Raritan (New Jersey)

Blood Group Frequencies in French Basques. By L. E. Nijenhuis, Amsterdam

Discussion: J. V. Ned, Ann Arbor (392) 548

W. S. Laughlin, Wisconsin (392) 548
Ph. Levine, Raritan (New Jersey) (392) 548
A. E. Mourant, London (392) 548

Blood Groups and Disease

Associations between Blood Groups and Disease. By J. A. Fraser Roberts,
London (393) 549
Disease Associations of the ABO Blood Group. By J. A. Buckwalter, Iowa City (Iowa) (405) 561

Etude de relation des groupes sanguins (ABO) et rhesus (standard) dans le diabète. Par I. Zeytinoglu, Geneve (408) 564

Blood Groups and Disease, with Special Reference to Stomal Ulcer and Per nicious Anemia. By H. H. Bentall, London (410) 566

The ABO Blood Groups in Duodenal Ulcer. A Study of Sibships. By C. A. Clarke and P. M. Sheppard, Oxford (414) 570

Discussion: B. Woolf, Edinburgh (418) 574

C. A. B. Smith, London (418) 574

The Secretor Character and Disease. By R. B. McConnell and P. M. Sheppard, Liverpool and Oxford (418) 574

Discussion: Ph. Levine, Raritan (New Jersey) (423) 579

A Suspected Correlation between Blood Group Frequency and Chromophobe Adenoma of the Pituitary. By E. Mayr, L. K. Diamond, R. P. Levine and M. Mayr, Boston (Massachusetts) (424) 580

Legal Application of Blood Groups and other Anthropological Traits
Anthropologie und Vaterschaftsnachweis. Von K. Sailer, München .... (425) 581

Forensische Probleme der anthropologisch-genetische Feststellung der Vaterschaft. Von A. Harrasser, München (435) 591

Biometrische Methoden der Vaterschaftsdiagnose. Von W. Bauermeister, Köln (440) 596

Discussion: F. Keiter, Hamburg (442) 598

Die Verwendung der Fußsohlenbemusterung im Rahmen der Vaterschaftsbegutachtung. Von D. Wichmann, Bonn (443) 599

Blood Groups and Paternity Problems. By B. Jonsson, Stockholm .... (447) 603

La valeur médico-légale des facteurs sanguins A\(\chi\), A2, K, Fya et P. Par A. Hässig, S. Rosin, A. Schmid et B. Wuilleret, Berne (450) 606

Probability of Paternity in Cases where Exclusion by Blood Group Test is Not Possible. By L. E. Nijenhuis, Amsterdam (451) 607

Discussion: D. Wichmann, Bonn (455) 611

K. Henningsen, Copenhagen (455) 611

Genetic Evaluation of Blood-Grouping in 5,000 Paternity Cases with a Special View to Relative Probability of Paternity. By H. Gürtler . . . (456) 612

Forensic Implications of the D– Chromosome. By K. Henningsen . . . (457) 61
