Acta genet. 1961;11:378

Index rerum ad Vol. 11

ABO blood groups and gastric carcinoma
363
and genital cancer 29
distribution in Denmark 65, 85
distribution in twins (Sweden) 350
selection model 370
Adrenogenital syndrome, family study 53
Anthropological characters in an isolate
(Hungary) 244
in twins 272
Asia, South and South East, haptoglobins
and transferrins 97
Blood groups and osteogenesis imperfecta
133
see also ABO, Gc, Gm, Haptoglobins,
MNS, Rh and Transferrins
Cancer, gastric, and ABO blood groups 363
in twins 372
genital, and blood groups 29
intestinal, in twins 372
mammary, in twins 372
pulmonary, in twins 372
Ceruloplasmin in monkeys 126
Chromosomal diseases 196
Chronic pyelonephritis and hypertension
58
Congenital malformations of heart,
etiology 289
Consanguineous marriages, fertility 17,
243
Denmark, ABO blood group distribution
65, 85
Dermatoglyphics, family study 162
- in twins (Swedish) 278
Favorism, family study 205
Fertility in consanguineous marriages
17, 243
Finger prints, see Dermatoglyphics
Gastric cancer and blood groups 363
in twins 372
Ge serum groups, distribution in Sweden
186
Genital cancer and blood groups 29
Global diseases 196
Glucose-6-phosphate dehydrogenase
activity, family study 205
Gm serum groups, genetics 11
- Gm(r) factor 170
- in twins (Swedish) 350
Haemoglobin variants, identification of
abnormal chains 1
- identity of abnormal chains 11
Haptoglobins, distribution in South and South East Asia 97
in monkeys 126
in twins (Swedish) 350
Heart, congenital malformations, etiology
289 Hungarian isolate study 230 Hypertension and chronic pyelonephritis
58 Inbreeding 230 Infant mortality in consanguineous marriages 17, 230 Intestinal cancer in twins 372 Isolate studies (Hungary) 230 Lapps, transferrins 106 Laurence-Moon-Biedl syndrome, family study 217 Linkage relations of osteogenesis imperfecta 133 Malformations of the heart, etiology 289 Mammary cancer in twins 372 MN blood groups in twins (Swedish) 350 MNS blood groups, distribution in South Germany 317 Monkeys, haptoglobins and transferrins 126 Mortality of infants in consanguineous marriages 17, 230 Osteogenesis imperfecta, linkage relations 133 Ovarian carcinoma and blood groups 29 Phaeochromocytoma, family study 137 Pulmonary cancer in twins 372 Pyelonephritis, chronic, and hypertension 58 Rh blood groups and genital cancer 29 in twins (Swedish) 350 Serum groups, see Gc, Gm, Haptoglobins and Transferrins Sweden, distribution of Gc groups 186 of transferrins 106 Teeth, pattern of development 154 Toxoplasmosis and congenital malformations of heart 299 Transferrins, distribution in South and South East Asia 97 380 Index rerum – Index autorum

Transferrins, distribution in Sweden 106 - in monkeys 126 Twins, anthropological characters 272 blood groups 350 cancer 372 dermatoglyphics 278 zygosity diagnosis by polysymptomatic similarity test 251, 265 Twin zygosity diagnosis by serological characters 257 by questionnaires 338 comparison of methods 259, 274, 338 Uterine cancer and blood groups 29 Vaginal cancer and blood groups 29 Zygosity diagnosis, see Twins
