Index rerum ad Vol. 12

ABO blood groups, distribution in
  Finland 312
  - South West Germany 296
  - interaction with Rh and haemoglobin content 359
Albinism with sex-linked deaf-mutism 12 Alfa-beta thalassaemia, possible case 202
Anencephaly, empiric risk 219 Assortative mating and fertility 117 Beta-amino-isobutyric acid excretion in Down’s syndrome 156 Blood groups, see ABO, Gc, Gm, Haptoglobins, InV, Kell, MN, Rh and Transferrins
Brazilian Indians, genetic load 212
  - Negroes, mutational load and mortality 99
  - Whites, mutational load and mortality 99
Chromosomal aberrations, see Triploidy and Trisomy Cleft palate, evaluation of aetiological factors 123 Congenital malformations, evaluation of aetiological factors 123, 378 Cornea plana congenita 230 Deaf-mutism, sex-linked, with total albinism 12 Dentition, eruption time of third molars 366 Dermatoglyphics in Down’s syndrome 20 Down’s syndrome, BAIB excretion 156 dermatoglyphics 20
  in twins 164
Ear-wax types, family study 274 Empiric risks, anencephaly 219 mental deficiency 28
Eruption time of third molars 366 Eskimos, Greenland, distribution of Haptoglobins 292
  Transferrins 41
Estimation of chromosome frequencies in Rh system 322 Factorial notation of figurate series 178 Fertility and assortative mating 17 Finger prints, see Dermatoglyphics Finland, ABO and Rh blood group distribution 312
Finland twinning rate 242 Gamma globulin iso-antigens in rabbits, genetics 136 Gargoylism 1 Ge serum groups, family study 51 Genetic load, estimation of (Brazilian Indians) 212 Germany, South West, ABO, MN and Rh blood group distribution 296 Gm serum groups, distribution in Iranians 45 Greenland Eskimos, distribution of Haptoglobins 292
Transferrins 41
Haptoglobins, distribution in Greenland
Eskimos 292
  Norway 281
family studies 262, 281
linkage study, relation to blood groups 271
Harelip, evaluation of aetiological factors 123
InV serum groups in Iranians 45
Iran, distribution of Gm and InV serum groups 45
Kell blood group, distribution in Sweden
352 Linkage relations of the Haptoglobin locus 271
Malformations, evaluation of aetiological factors 123
- of lower lip 33
- syndrome associated with triploidy 193
Mental deficiency, empiric risk figures 28
MN blood group, distribution in South West Germany 296
Mongolism, see Down’s syndrome
Mortality rates and mutational load 97
Multiple gene influences, tests for 65
Mutational load, evaluation 97, 209, 212
Norway, distribution of Haptoglobins 281
Paternity, calculation of probability of 172
Penetrance, incomplete, tests of 65
Pyloric stenosis, evaluation of aetiological factors 123
Rabbit gamma globulin iso-antigens 136
380
Index rerum – Index autorum

Rh blood groups, distribution in Finland 312
  South West Germany 296
  estimation of chromosome frequencies 322
  interaction with ABO and haemoglobin content 359
  Risk figures, empiric, in anencephaly 219
  mental deficiency 28
Serum protein levels, genetics 251
Sex-linked deaf-mutism with albinism 12
Statistical methods, calculation of probability of paternity 172
  estimation of chromosome frequencies in the Rh system 322
  tests of hereditary influence 56
  incomplete penetrance 65
Statistical methods, test of multiple gene influences 65
Sweden, distribution of Kell blood group 352
Thalassaemia, possible case of
alpha-beta- 202
Transferrins, distribution in Greenland
Eskimos 41
Triploidy, malformation syndrome associated with 193
Trisomy of No. 21 in twins 164
Tuberculosis resistance and genetics (mice) 103
Twins, Down’s syndrome in 164
serum protein levels in 251
twinning rates in Finland 242
