Index rerum ad Vol. 18

ABO blood groups and serum acid phosphatase 289
  , distribution in Great Nicobar
  (India) 147
  Ladakhis (India) 78
  interaction with Secretor genes 444
Acid phosphatase, serum, relation to ABO groups 289
  – types of red cell, in Denmark 386
  , in Iranians 421
  , in South-East Asia 45
  – variants in cell cultures 409
Agammaglobulinaemia, counselling 539
Amenorrhoea, karyotype-phenotype correlations 479 American Seneca Indians, genetic studies 251
  Anthropological traits in Seneca Indians 251
  triplets 496
Asia, South East, acid phosphatase types 45
Bart’s haemoglobin in Israel 361
Beta-lipoprotein types 349
Bisalbuminaemia in paternity cases 271
Brazil, haemoglobin variants and gene flow 449
Cleft lip and palate, family studies 229
Colour blindness in Great Nicobar (India) 147
Seneca Indians 251
Congenital malformations in Bombay 97, 103
Counselling 521, 534
Denmark, acid phosphoglucomutase types 386
Dermatoglyphics, asymmetry of ridge counts 599
  – in childhood schizophrenia 300
  – Seneca Indians 251
Down’s syndrome, unusual case 38
Ear lobe attachment types in Mysore (India) 380
  North Indian populations 277
Eskimos, Gc, Gm and Hp types in East Greenland 61
  in West Greenland 261
Esterase types in human sperms 55
Gc-Secretor correlations 475
Gc types and rheumatic fever 399
in Greenland Eskimos 61, 261
Glycogen storage disease, type III,
enzyme studies in relatives 128 Gm types in Greenland Eskimos 61, 261
Koreans 468
Goitre, water iodine and PTC tasting
ability 593 Greenland Eskimos, see Eskimos G-6-PD deficiency in Hungary 1
leprosy 159
Seneca Indians 251
Haemoglobin H disease 12
- variants in Brazil 449
Holland 429
Israel 361
Seneca Indians 251
Haemophilia, counselling 538
Hairy pinnae in India 511
Hand clasping in Indian populations
283, 606 Holland, Haemoglobin variants 429 Hp types in Greenland Eskimos 61, 261
Italy 458
Seneca Indians 251
Spain 155, 579
Hungary, G-6-PD deficiency 1
- PTC tasting ability 137
Hunter’s syndrome, counselling 530, 539 Hurler’s syndrome, counselling 530 Iceland, lactate dehydrogenase variants
553 Inbreeding in Kerala (India) 369 India, blood groups 78, 147
colour blindness 147
congenital malformations 97, 193
ear lobe attachment types 277, 380
hand clasping types 283, 606
hairy pinnae 511
mid phalangeal hair 70, 147
PTC tasting ability 145, 147
Sickle cell trait 147
Indians, American, see American Indians Iodine in Water, goitre and PTC tasting
ability 593 Iranians, red cell acid phosphatase types
421 Isoniazid acetylation polymorphism in
monkeys 394 Israel, Haemoglobin Bart’s 361
610
Index rerum

Italy, Hp types 458 Karyotype-phenotype correlations in
amenorrhoea 479
male sex abnormalities 315
Koreans, Gm types 468
Lactate dehydrogenase variants in
Iceland and Sweden 553 Lens weight and age in cockerels 180 Leprosy and G-6-PD deficiency 159 Linkage studies, PGM and PTC 416, 420 LP types 349 Malformations, congenital, in India 97, 193 Mental retardation, family studies 206 Mid phalangeal hair in India 70, 147 MNS blood groups in Ladakhis (India) 78 Morphogenetic homeostasis 341 Muscular dystrophy, x-linked, counselling 536 Non-linear regression analysis 180 Phosphoglucomutase types in Denmark 386 -, new variant 123 - and PTC tasting ability, linkage study 416, 420 Phosphogluconate dehydrogenase variants 109 Placental alkaline phosphatase, variant 543 Pseudocholinesterase, atypical gene in different populations 567 - fluoride resistant gene in Britain 563 - variants, differentiation by alkyl alco hols 325, 335 sodium chloride 556 PTC tasting ability and phosphoglucomutase, linkage study 416, 420 in Hungary 137 India 145, 147 psychiatric patients 31, water iodine and goitre 593 Red cell acid phosphatase types, see Acid phosphatase Regression analysis, non-linear 180 Rh blood groups in Ladakhis (India) 78 Rheumatic fever and Gc types 399 Schizophrenia of childhood, dermatoglyphics 300 -, PTC taste ability in 31 Secretor-ABO interaction 444 – Gc correlations 475 Serum proteins in twins 23 Serum types, see Gc, Gm, Hp, Lp and Tf types Sickle cell trait in Great Nicobar (India) 147 Spain, Hp types 155, 579 Sperms, esterase types 55 Spikes, 14 and 6 per second positive, family studies 163 Statistical inference 84 Sweden, LDH variants 553 Transferrin B variant 573 - types in Seneca Indians 251 Translocation (C/D), familial 241 Triplets, anthropological traits 496 Trisomy of chromosome no. 3 584 Turner’s syndrome, unusual case 487 Twins, serum proteins 23 Twin studies, methods of analysis 170
