Publisher's Note

This issue marks the last volume of Folia Primatologica to appear under the editorship of Josef Biegert. Professor Biegert who celebrated his 65th birthday last year is the Founding Editor of the journal and has guided its development since the first issue appeared in 1963. No reader of Folia Primatologica will need to be reminded of Professor Biegert's position of eminence in the field of primatology. We can only thank him for allowing Folia Primatologica to benefit from both his dedication as an editor and reputation as a scientist.

Beginning with the first issue in 1987 Dr. R.D. Martin will assume the duties of Editor-in-Chief. Dr. Martin, who is Professor and Chairman of the Anthropological Institute and Museum at the University of Zurich, has assisted Professor Biegert in the daily editorial work in the past months. We are sure that his personal expertise in anthropology and primatology will prove valuable for the further development of the journal.

Thomas Karger, Basel
