Norepinephrine Sensitivity, Tension Development and Neuronal Uptake in Resistance Arteries from Spontaneously Hypertensive and Normotensive Rats
Whall, C.W., Jr.; Myers, MM., and Halpern, W

Paradoxical Relaxation of Arterial Strips Induced by Vasoconstrictive Agents
Ohhashi, T. and Azuma, T

Comparison of the Responsiveness of Cutaneous Veins of Dog and Rabbit to Adrenergic and Cholinergic Stimulation
De Mey, J.G. and Vanhoutte, P.M

Quantitative Investigation of Sudanophilic Lesions around the Aortic Ostia of Human Fetuses, Newborn and Children
Sinzinger, H.; Silberbauer, K., and Auerswald, W

Transmural Nerve Stimulation of Blood Vessels in vitro: A Critical Examination
Piper Duckies, S. and Silverman, R.W

Does Prostacyclin (PGI₂) Regulate Human Arterial Intima Smooth Muscle Cell Proliferation in Early Atherogenesis?
Sinzinger, H.; Silberbauer, K., and Auerswald, W

Ontogenesis of Hypertension and Responsiveness to Antihypertensive Agents in Spontaneously Hypertensive Rats
Antonaccio, M.J.; Cavaliere, T., and Cote, D

Effect of Benzo thiadiazine Derivatives on Cyclic Nucleotide Phosphodiesterase and on the Tension of the Aortic Strip
Vulliemoz, Y.; Verosky, M., and Triner, L

Methionine, Pyridoxine and Endothelial Lesion in Rats
Hladovec, J

Differences in Proliferation of Primary Cultures of Vascular Smooth Muscle Cells Taken from Male and Female Rats
Travo, P.; Barrett, G., and Burnstock, G
No. 3
Research Papers
Indirect Evidence for the Importance of Steady-State [K]0 in Determining the Extent of the Effects of Hyperpolarizing Electrogenesis on Vascular Smooth Muscle Reactivity
Skaug, N. and Detar, R 117
Effects of Flunarizine on the Distribution of Calcium in Vascular Smooth Muscle
Borgers, M.; Ghoos, E.; Thoné, F., and Van Nueten, J.M 123
Characteristics of Arterial Plasma Membrane in Renovascular Hypertension in Rats
Kwan, C.Y.; Belbeck, L., and Daniel, E.E 131
Abstracts
Author Index – Abstracts 171
No. 4
Research Papers
Isolated Brain Microvessels: Preparation, Morphology, Histamine and Catecholamine Contents
Effects of Tolbutamide and Glyburide on Glucose and Acetate Incorporation into Aortic Lipids of the Dog
Prostaglandin-Mediated, Angiotensin-Induced Vasoconstriction in Isolated Cat Arteries
Trachte, G.J. and Lefer, A.M 196
Contractile and Morphological Properties of the Portal Vein in Spontaneously Hypertensive and Wistar-Kyoto Rats
Mulvany, M.J.; Ljung, B.; Stoltze, M., and Kjellstedt, A 202
Pulsatile Distention and Vascular Collagen Synthesis in the Rabbit
Fisher, G.M.; Swain, M.L., and Cherian, K 216
Potassium and Hydrogen Ion Interaction in the Vasculature of the Isolated, Perfused Guinea Pig Heart
Young, M.A. and Merrill, G.F 221
No. 5
Research Papers
Uptake and O-Methylation of Isoprenaline in the Rabbit Ear Artery
Head, R.J.; De La Lande, I.S.; Irvine, R.J., and Johnson, S.M 229
The Reactivity of Iliac Vascular Strips from Spontaneously Hypertensive and Normotensive Rats
Swamy, V.C. and Triggle, D.J 246
Effects of Antihypertensive Drug Therapy on the Morphology and Mechanics of Resistance Arteries from Spontaneously Hypertensive Rats
Warshaw, D.M.; Root, D.T., and Halpern, W 257
Arterial Glycosaminoglycans in Diabetic Dogs
Sirek, O.V.; Sirek, A., and Cukerman, E 271
Contents V
Brief Communication
Prevention by Methylprednisolone of Norepinephrine Depletion in Vascular Tissue during Severe Hemorrhage in Dogs
Lombard, J.H.; Loegering, D.J., and Stekiel, W.J 276
No. 6
Research Papers
Contractile Responses of Aortic and Portal Vein Strips during the Development of DOCA/Salt Hypertension
Pang, C.C.Y. and Sutter, M.C 281
Hydralazine Prevents Changes in the Contractile Response of Aortic but Not Portal Vein Strips in Hypertensive Rats
Pang, C.C.Y. and Sutter, M.C 293
Orientation of Arterial Smooth Muscle and Strength of Contraction of Aortic Strips from DOCA-Hypertensive Rats
Hansen, T.R.; Dineen, D.X., and Pullen, G.L 302
Distribution and Localization of Adenosine 3′:5′-Monophosphate-Dependent Protein Kinase in Mammalian Artery
Singh, D  312
Brief Communication
Iproniazid Inhibits Platelet Aggregation in Mesenteric Microvessels
