No. 1  Editorials
The Journal Blood Purification – Reasons for Its Birth
Schaefer, K  1
Hemodialysis Hypotension: The Interleukin Hypothesis
Henderson, L.W.; Koch, K.M.; Dinarello, C.A.; Shaldon, S  3
Original Paper
Hemofiltration: An Unnecessarily Complex Method to Achieve Hypotonic Sodium Removal and Controlled Ultrafiltration
Gotch, F.A.; Sargent, J.A  9
Of Sodium, Symptomatology and Syllogism
Shaldon, S.; Baldamus, C.A.; Koch, KM.; Lysaght, M.J  16
An Experimental Model for the Ultrafiltration of Sodium Ion from Blood or Plasma
Lysaght, M.J  25
Effects of Haemofilter Reuse on Membrane Permeability Characteristics in Post-Dilutional Haemofiltration
Canaud, B.; Mayr, H.; Nguyen, Q.V.; Sany, C; Mion, C  31
Abstracts
International Workshop on Hemofiltration. Frankfurt, September 9-10, 1983 40

No. 2  A Note from the Editor  61
Original Paper
Aluminium Transfer in Chronic Renal Failure Patients during Hemodialysis
Hosakawa, S.; Kohira, S.; Tomoyoshi, T  62
Long-Term Results of Regular Hemofiltration
Quellhorst, E.; Schuenemann, B.; Hildebrand, U  70
Hemodynamic Modifications Induced by Fluid Removal and Treatment Modalities in Chronic Hemodialysis Patients
Jahn, H.; Schohn, D.; Schmitt, R  80
Technical Note
A Very Simple Technique for Spontaneous Membrane Plasma Exchange without Arterial Access
Samtleben, W.; Lysaght, M.J.; Schmidt, B.; Gurland, H.J  90
Abstracts
International Workshop on Cardiocirculatory Function in Renal Disease. Strasbourg, September 19-21, 1983 94

No. 3  Original Paper
Release of Aluminum by the Redy Dialysis Cartridge. Osteomalacia and Dialysis Encephalopathy after Prolonged Usage (with 1 color plate)
