American Journal of Nephrology

Editor-in-Chief
Shaul G. Massry, Los Angeles, California

Assistant Editor
Vito M. Campese, Los Angeles, California

Managing Editor
Mary Benson, Los Angeles, California

Associate Editors
Neal S. Bricker, Los Angeles, California
Arthur H. Cohen, Torrance, California

(Renal Pathology Forum) Garabed Eknoyan, Houston, Texas
(Medical Art and History of Nephrology) Eben I. Feinstein, Los Angeles, California
(Nephrology Consultant Section) Eli A. Friedman, Brooklyn, New York
Neil A. Kurtzman, Lubbock, Texas
(Quiz of the Month Section) Robert W. Schrier, Denver, Colorado
Wadi N. Suki, Houston, Texas
(Editorials and Reviews Section) Robert L. Vernier, Minneapolis, Minnesota

(Pediatric Forum Section)

Editorial Board
Zalman S. Agus, Philadelphia, Pennsylvania
Robert J. Anderson, Denver, Colorado
Jose A.L. Arruda, Chicago, Illinois
William M. Bennett, Portland, Oregon
Geoffrey M. Berlyne, Brooklyn, New York
Christopher R. Blagg, Seattle, Washington
Jacques J. Bourgoignie, Miami, Florida
John Bower, Jackson, Mississippi
Barry M. Brenner, Boston, Massachusetts
Ruth E. Bulger, Houston, Texas
Russell W. Chesney, Madison, Wisconsin
Fredric L. Coe, Chicago, Illinois
Ralph A. De Fronzo, New Haven, Connecticut
Murray Epstein, Miami, Florida
Richard N. Fine, Los Angeles, California
Richard J. Glassock, Torrance, California
Jared J. Grantham, Kansas City, Kansas
Ronald D. Guttmann, Montreal, Canada
John P. Hayslett, New Haven, Connecticut
Lee W. Henderson, San Diego, California
Drug Dosage

The authors and the publisher have exerted every effort to ensure that drug selection and dosage set forth in this text are in accord with current recommendations and practice at the time of publication. However, in view of ongoing research, changes in government regulations, and the constant flow of information relating to drug therapy and drug reactions, the reader is urged to check the package insert for each drug for any change in indications and dosage and for added warnings and precautions. This is particularly important when the recommended agent is a new and/or infrequently employed drug.
