Contents, Vol. 62, 1977

No. 1
New Section ‘Exercise Testing and Rehabilitation in Cardiology’ 1
Huang Wei-min and Tung Cheng-lang: Bilateral Bundle Branch Block. Right Bundle Branch Block Associated with Left Anterior Fascicular Block 35
Miller, A. B and Bahler, R. C: Postexercise Systolic Time Intervals in the Midsystolic Click Syndrome 44
Simonsen, S.: Aspects of Cardiac Venous Flow Measured by the Continuous Infusion Thermodilution Technique 51
Book Reviews 63
Varia 64
No. 2
First International Congress on Cardiac Rehabilitation Hamburg, September 12-14, 1977 Scientific Abstracts 65
No. 3
Exercise in Diagnosis and Treatment of Coronary Heart Disease Editor Ian J. Kellermann, Tel Hashomer
Denolin, H.: Introduction 169
Kellermann, J. J.: Preface 171
Blackburn, H.: The Exercise Electrocardiogram in Diagnosis 190
König, K.: Changes in Physical Capacity, Heart Size and Function in Patients after Myocardial Infarction, Who Underwent a 4- to 6-Week Physical Training Program 232
IV
Contents
Roskamm, H.; Weisswange, A.; Hahn, Ch.; Jauch, K. W.; Schmuziger, M.; Petersen, J.; Rentrop, P., and Schnellbacher, K.: Hemodynamics at Rest and during Exercise in 222 Patients with Coronary Heart Disease before and after Aorto-Coronary Bypass Surgery 247
Wenger, N. K.: Rehabilitation of the Patient after Myocardial Infarction: The Pivotal Role of the Primary Care Physician  261
No. 4-6
Strozzi, C. and Cocco, G.: The Kinetocardiogram During the Isopreterenol Test for the Assessment of Coronary Heart Disease  277
Chandraratna, P. A. N.: On the Frequency of Early Systolic Clicks in Mitral Valve Prolapse  315
Musso, E. and Vassalle, M.: The Action of Theophylline on Potassium Uptake in Cardiac Purkinje Fibers  322
Chen Wan-chun and Tung Cheng-lang: Simultaneous Atrial and A-V Functional Tachycardia  332
Glassman, E. and Kronzon, I.: Prolapse of the Mitral Valve: Clinical Spectrum and Coronary Arterial Distribution  347
Gomes, J. A. C. and Haft, J. I.: His Bundle Electrocardiography in the Wolff-Parkinson-Syndrome. Evidence for Combination of James and Mahaim Conduction  355
Exercise Testing and Rehabilitation in Cardiology
Friedmann, J.; Agmon, J.; Cherbakoff, A.; Aygen, M., and Wurzel, M.: Evaluation of the Exercise Test in Patients with Angiographically Documented Coronary Heart Disease  367
Book Review  376
