Contents Vol. 69, 1982

No. 1  Original Paper
Hemodynamics of a Stenosis in a Compliant Artery
Santamore, W.P.; Bove, A.A.; Carey, R.A  1
Relation of Kinetocardiogram to Systolic Time Intervals in Patients with Old Myocardial Infarction
Venco, A.; Rampulla, C; Mandelli, V.; Saviotti, M; Regalia, F.; Finardi, G  11
Computerized Exercise ECG in the Diagnosis of Critical Coronary Lesions
Ejdebäck, J.; Angelhed, J.-E.; Bjurö, T.; Falk, K.-J.; Schlossman, D.; Varnauskas, E.  22
Dipyridamole Test in Angina Pectoris: Diagnostic Value and Pathophysiological Implications
Tavazzi, L.; Previtali, M.; Salerno, J.A.; Chimienti, M.; Ray, M.; Medici, A.; Specchia, G.; Bobba, P  34
Treadmill Stress Testing in the Evaluation of Patients with Valvular Heart Disease. Possible Role in the Assessment of Functional Capacity and Severity of the Lesion
Almendral, J.M.; García-Andoain, J.M.; Sánchez-Cascos, A.; Rábago, P. de  42
Employment following Aortocoronary Bypass Surgery in Young Patients
Danchin, N.; David, P.; Robert, P.; Bourassa, M.G  52
Announcements  60

No. 2  Original Paper
Electrocardiographic Abnormalities in Ebstein’s Anomaly. Deductions Based on Comparison with Endomyocardial Fibrosis
Jaiyesimi, F  61
Wandering Atrial Pacemaker Associated with Repetitive Respiratory Strain
Borgia, J.F.; Nizet, P.M.; Gliner, J.A.; Horvath, S.M 70
Hyperkinetic Heart Syndrome: the Role of the Sympathetic Nervous System
Hörtnagl, H.; Magometschnigg, D.; Prager, J  74
Hemodynamic Response to Glyceril Trinitrate in a Spray at Rest and during Exercise in a Sitting Position
Chevigné, M.; Collignon, P.; Kulbertus, H  84
Effect of Exercise and Isoprenaline on Left Ventricular Ejection Fraction in Patients with Angina pectoris as Assessed by Radionuclide Angiography
Sapru, R.P.; Muir, A.L.; Hannan, W.J.; Smith, H.J.; Brash, H.M.; Wraith, P.K  91
Serum Sex Hormones in Patients with Coronary Disease and Their Relationship to Known Factors Causing Atherosclerosis
Labropoulos, B.; Velonakis, E.; Oekonomakos, P.; Laskaris, J.; Katsimades, D  98
Spontaneous Changes in Very High Blood Pressure after Admission to the Hospital and Their Relation to Target Organ Involvement
Ambrosio, G.B.; Pigato, R.; Zamboni, S.; Dal Palù, C 104

IV  Contents
Prevention
Cholesterol Controversy – Where Do We Go from Here? Toward Healthful Diets’ Reevaluated
Heyden, S.; Williams, R.S

Books Received at the Editorial Office 123

No. 3 Original Paper

Autoantibodies Predicting Death Due to Cardiovascular Disease
Aho, K.; Salonen, J.T.; Puska, P 125

In-Hospital Death from Ischaemic Heart Disease
Rissanen, V.; Helin, M.; Rehnberg, S.; Romppanen, T.; Jokinen, Y.; Raunio, H.
Pyörälä, K 130

A Polygraph Study of Ischemic Heart Disease: Short-Term Prognosis of Acute Myocardial Infarction Based on Early Modifications of Isometric Contraction Time
Martinotti, R.; Sardella, F.; Parziale, M.; Porro, F.; Monzani, V.; Cremonesi, G.; Randazzo, A 142

Ventricular Tachycardia during the First 72 Hours after Acute Myocardial Infarction
Northover, B.J. 149

On the Reliability of Systolic Time Intervals
Levi, G.F.; Ratti, S.; Cardone, G; Basagni, M 157

Double Ventricular Parasystole
Chia, B.L 166

Congenital Prolongation of Q-T Interval: A Family Study of Three Generations
Flugelman, M.Y.; Pollack, S.; Hammerman, H.; Riss, E.; Barzilai, D 170

Exercise Testing and Rehabilitation
Physical Working Capacity Shortly after Myocardial Infarction
Danielson, M 175

Book Reviews 182

No. 4 Original Paper

Progressive Atrioventricular Block after Total Correction of Fallot’s Tetralogy, Documented by Repeat Electrophysiological Studies
Bolens, M.; Friedli, B 185

An Overall Review on Prenylamine Mechanisms of Action in Experimental Models of Myocardial Damage
Mikel, J.; Vazquez, A.; Bologn, N.J. 192

Initiation of Ventricular Tachycardia by Supraventricular Beats
Belhassen, B.; Shapira, I.; Kauli, N.; Keren, A.; Laniado, S 203

Concealed Bigeminy in Acute Myocardial Infarction
Almog, C; Hayman, Z.; Burke, M 214

Haemodynamic Changes in Essential Hypertension in Young Subjects
Uhari, M.; Paavilainen, T 219

Contents
V

Exercise Testing and Rehabilitation
Left Ventricular Function at Rest, Peak Exercise and Postexercise
Foster, C; Anholm, J.D.; Dymond, D.S.; Carpenter, J.; Pollock, M.L.; Schmidt, D.H. 224 Short- and Long-Term Results of Early Rehabilitation after Myocardial Infarction: Physical Fitness, Hemodynamic Assessments and Psychological Aspects
Raineri, A.; Assennato, P.; Candela, B.; Messina, L 231
Editorial Comments to the Paper by Raineri et al.

Froelicher, V.F 240

Book Reviews 242

Books Received at the Editorial Office 244

No. 5 Original Paper

Mechanism of Abnormal Motion of the Posterior Leaflet in Mitral Stenosis. A Theoretical and Experimental Study
Voda, J.; Glagov, S.; Brooks, 245

Effect of Dextran Infusion on Left Atrial Size in Normal Subjects
Di Donato, M.; Mori, F.; Barletta, G.; Dabizzi, R.P.; Fantini, F 257

A Comparison of the Clinical, Haemodynamic and Angiographic Features in Right Ventricular Endomyocardial Fibrosis and Ebstein’s Anomaly of the Tricuspid Valve
Balakrishnan, K.G.; Sapru, R.P.; Sasidharan, K.; Venkitachalam, C.G 265

Left Ventricular Filling and Emptying Patterns in Anemia due to Beta Thalassemia. A Computer-Assisted Echocardiographic Study
Sadzikov, D.; Lewis, N.; Rachmilewitz, E.A.; Gotsman, M.S.; Lewis, B.S 276

Renal Function in Borderline Hypertensive First-Degree Relatives of Essential Hypertensives. Effects of Sodium Load
Trimarco, B.; De Simone, A.; Volpe, M.; Ricciardelli, B.; Ungaro, B.; Sacca, L.; Rengo, F.; Condorelli, M 288

Concealed Pentageminy
Aygen, M.M.; Melamed, R 297

Exercise Testing and Rehabilitation
Sociocultural Influences and the Response to Illness. A Letter to the Editor
Hackett, T.P.; Draper, E.S 301

Emotional Responses of Patients with Acute Myocardial Infarction to Their Disease
Almeida, D.; Wenger, N.K 303

Book Reviews 310

No. 6 Original Paper

Alterations in Aortic Pressure and Coronary Blood Flow: Their Time Sequences with Induced Paroxysms of Ventricular Tachycardia in Normal and Impaired Myocardium
Thormann, J.; Schlepper, M 313

Coronary Hemodynamics in Simulated Paroxysms of Ventricular Tachycardia: Role of Myocardial Impairment and of Extravascular Resistance
Thormann, J.; Schlepper, M; Neuss, H 326

VI Contents

Clinical Value of Calibrated and Differentiated Displacement Apexcardiography in Ischemic Heart Disease
Kolev, N.S.; Romoda, T 343

The Question of Early Insulin Response to Glucose in Patients with Ischemic Heart Disease: A Retrospective Study in Twins. Preliminary Communication
Adamson, U.; Faire, U. de 353

Exercise Testing and Rehabilitation
Diagnostic Capabilities of Exercise Testing Soon after Myocardial Revascularization Surgery
Pollock, M.L.; Foster, C; Anholm, J.D.; Rod, J.L.; Wolf, F.G.; Akhtar, M.; Al-Nouri, M.B.; Schmidt, D.H 358

Effect of Antidysrhythmic Drugs on the Heart Rate and Blood Pressure Response to Treadmill Exercise

Fenster, P.E.; Comess, K.A.; Dahl Hanson, C 366

Book Reviews 371

Books Received at the Editorial Office 373

Author Index 374

Subject Index 376

Suppl. 1 Use of Calcium Antagonists in Cardiology

Proceedings of the First International Symposium on Tiapamil

Lausanne, April 8-10, 1981

Editor: B.N. Singh, Los Angeles, Calif.

Co-Editors: B. Leishman, Basel, G. Cocco, Basel, G. Haeusler, Basel
