Subject Index

Angina pectoris
- at rest 35
- ejection fraction 91
- on effort 38
- Antiarrhythmic drugs, treadmill exercise response 366
- Aortic pressure 330
- Ventricular tachycardia 313
- Aortocoronary bypass surgery 366
- employment after 52
- exercise testing 358, 362
- grafts patent 360
- rehabilitation 57
- socioeconomic factors 55, 56
- Apex cardiogram, ischemic heart disease 343
- Arrhythmias concealed pentageminy 297
- coronary heart disease mortality 136, 138
- myocardial infarction 215
- Arterial pressure 4, 7
- Arterial stenosis 3, 9
- hemodynamics 1, 7, 8
- Atrioventricular block, progressive 185
- Autoantibodies, predicting cardiac disease 125
- Bigeminy concealed, acute myocardial infarction 214
- Blood pressure response, antiarrhythmic drugs 366, 369
- Blood pressure variability, after hospital admission 105-107
- British diet heart study 113
- Calcium antagonistic drugs 199
- Cardiac output, essential hypertension 220
- Cardiovascular diseases, autoantibodies 125
- Carotid artery 2
- Catecholamines, hyperkinetic heart syndrome 78, 80
- Cholesterol controversy 110
- diet 119
- restriction for Americans 118
- Computerized exercise ECG, coronary artery disease 25
- Contractility, hemodynamics 347
- Coronary angiography exercise ECG 25
- myocardial revascularisation 361
- Coronary artery disease computerized exercise ECG 23, 27, 29
- decline in CHD mortality 117
- tachycardia 313
- Coronary blood flow 313
- paroxysmal tachycardia 313, 318
- Coronary care unit, emotional response 301
- Coronary heart disease mortality, significance of arrhythmias 136, 138
- Coronary reserve 326, 337
- Coronary sinus flow 313, 330
- Coronary steal phenomenon 40
- Coronary vascular resistance 318, 326, 335
- Dextran, left atrial size 257
- Diastolic blood pressure mean, after hospital
admission 106 Dipyridamole 326
sensitivity 39, 40
specificity 39, 40
tachycardia 338
test in angina pectoris 34
vasodilatation 334 Disopyramide, treadmill exercise 368 Diuresis, in borderline hypertension
291 Double product 335
before and after physical training 234
peak exercise 226, 227
post exercise 226, 227
Subject Index
377
Ebstein’s anomaly 267, 268
ECG 61
endomyocardial fibrosis comparison 265 ECG abnormalities, Ebstein’s anomaly 63, 66
Echocardiographic evaluation after short- and
long-term rehabilitation 231, 236 Echocardiography
left atrium 263
left ventricular function in thalassemia 279 Ejection fraction 360
after rehabilitation 237
apex cardiography 347
left ventricular 226, 227
radionuclide angiography 93 Ejection rate, left ventricular 227, 228 Endomyocardial fibrosis 61, 265
Ebstein’s anomaly comparison 265
right ventricular and radiology 269 Exercise
effect of isoprenaline 91
left ventricular function 224 Exercise test
early after myocardial infarction 175, 177
critical coronary lesions 22
response to antiarrhythmic drugs 366
sensitivity 29, 30
specificity 29, 30
valvular heart disease 42
Fallot’s tetralogy, A-V block progressive 185 Functional capacity, valvular heart disease 46, 47
Glyceryl trinitrate, hemodynamic response 84
Heart block, post-operative 186, 187, 188 Heart rate
peak and post-exercise 226, 227
response to antiarrhythmic drugs 368 Hemodynamic changes
Ebstein’s anomaly 270, 274
essential hypertension 221
right ventricular endomyocardial fibrosis 270 Hemodynamics response
glyceryl trinitrate 86, 87, 88
tachycardia phases 313
ventricular tachycardia 326 His bundle recording 187 Holter monitoring 297 Hyperkinetic heart syndrome
hemodynamic parameters 76
plasma catecholamines 77, 80
sympathetic nervous system 74 Hypertension
after hospital admission 104
essential first-degree relatives 288
essential in young subjects 219
renal function 290 Hypotension, exertional 48
insulin response early, ischemic heart disease 353 Ischemic heart disease
in-hospital death 130
insulin response to glucose 353 Isometric contraction time, acute myocardial infarction 143, 144 Isoproterenol 192
Kinetocardiogram 11
myocardial infarction 15, 16, 17
Left atrial size, dextran 257 Left ventricular ejection time, reliability 157 Left ventricular end-diastolic pressure 347 Left ventricular function 157
in beta-thalassemia 276 Left ventricular hypertrophy
reduced coronary reserve 339
tachycardia 313
Mechanocardiography, myocardial infarction old 11
Minnesota Coronary Survey 111
Mitral stenosis 245
Mitral valve motion 249
Myocardial damage, prenylamine mechanism of action 197, 198 Myocardial infarction
acute short-term prognosis 142
concealed bigeminy 214
emotional response 303
exercise test soon after 175
hospital death 130
isometric contraction time and prognosis 142, 143, 145
psychological aspects 234
rehabilitation 231
risk factors 101
sex hormones 98
ventricular tachycardia 151, 153 Myocardial revascularisation, exercise testing soon after 358
378
Subject Index

Neurocirculatory asthenia 74 catecholamines 77, 79 exercise test 75
Oestradiol, coronary heart disease 101 Oslo primary prevention trail 112
Pentageminy concealed 297
PEP/LVET 17, 161, 162, 163
Physical working capacity, myocardial infarction
175 Polyunsaturated fats, coronary mortality 116 Posterior leaflet motion 247
mechanisms of action 192 Procainamide, treadmill exercise 368 Psychological aspects,
myocardial infarction 231
Q-T interval, congenital prolongation 170
Radionuclide angiography
coronary bypass surgery 358
during and post exercise 225
ejection fraction in angina pectoris 91, 94
temporal sequence 224 Rehabilitation
long-term 231, 233, 235
Renal function, essential hypertension 288 Respiratory strain,
wandering pacemaker 70, 72 Return to work, aortocoronary bypass surgery 53
Romano-Ward synyndrome 170
Sex hormones, coronary heart disease 98 Social culture influences, response to illness 301
Supraventricular ectopy, initiation of VT 203 Sympathetic nervous system, hyperkinetic heart
syndrome 74 Systolic time intervals 94, 142, 157 myocardial infarction 11 relation to
kinetocardiogram 15, 16
Technetium-99 m, exercise and postexercise 225 Testosterone, coronary heart disease 98 B-
Thalassemia, left ventricular function 276 Three-fascicular block, in corrected Fallot’s
tetralogy 190 Torsade de pointes 171 Tricuspid valve 270
Valsalva maneuver 72
Arrhythmias 71 Valvular heart disease, treadmill stress testing 42 Ventricular ectopy 297
acute myocardial infarction 214
exercise 44, 45 Ventricular parasystole, double 166 Ventricular tachycardia 313, 331, 333
after acute myocardial infarction 149 incidence 151, 153
initiation 203
mode of induction 208 Verapamil, effects of VT 210 Volume overload, left atrial size 259, 260
Wandering pacemaker, repetitive respiratory strain
70 Western Electric Study, death from CHD 114
