Subject Index
Supplements 1 to 5 have their own Subject Indices

Aberration 209
Accessory pathway 295
β-Adrenergic blockade, heart failure severe 363
- receptors 30
-Adrenoceptor partial agonism, evidence 358
Alinidine 287
Alkaptonuria 477
Amiodarone 443
Angina pectoris 17
Antiarrhythmic drug 443
therapy 166 Aortic regurgitation 50
stenosis 101
valve area 101
- disease 477 Area at risk 112 Arm training 130 Arrhythmia(s) 151, 181 Arterial supply 1
Arteriolar enlargement, tissue remodeling 370 Ascending aorta, aneurysms, early mortality 385 -
, surgical treatment 373 Atrial fibrillation 443
natriuretic factor 433 Autocardiography 122 AV block 50, 195
node 259
- ablation 259
Balloon valvotomy 55 Bicycle exercise 17 β-Blockade 459 Bopindolol 459 Brucella 313
Calcified pulmonary valve 55 Cardiac arrest 221
arrhythmia 240
catheterization 303
hypertrophy, regression 280
rehabilitation 130 Cardiology, future perspectives 339 - , perspectives 334 Cardiopulmonary
testing 130 Cardioverter-defibrillator 181 Chest pain 424
Chronic ventricular tachycardia 240 Circumferential wall stress 433 Collateral circulation 369
Complications 424 Computer-aided design 269 Congestive heart failure 450 Continuity equation
101 Converting enzyme inhibitors, role 353 Cor triatrium 472 Coronary angioplasty 40
artery disease 103
- occlusion 112
collateral circulation 17
sinus region 1
- rhythm 1 CT scan 322
Diabetes mellitus 9 Diabetic control 9 Diastolic function 93
- sound genesis, alternative mechanism 343 Digitized apexcardiography 9
Doppler echocardiography 101, 472 Dual pathways 259 Dual-chamber pacemaker 195 Dynamic
exercise 9
Graft occlusion 318
Haemodynamic effects 450 Heart failure 30
- abnormality of myocardial cell growth
- circulatory disorder 347
- severe, xanoteral 363 Hypertension 280 Hypoperfused zone 112 Hypoplastic left heart 62 Hypoxaemia 25
Immunohistochemical staining 77 Immunoperoxidase technique 77 Indium-111 platelet scintigraphy 272 Indobufen 272 Infarct size 112, 337, 424 Interatrial septum 1 Interference 66 Intermittent bigeminy 66 Intracoronary thrombus 121 Intrapericardial bronchogenic cyst 322 Intravascular ultrasound 398, 400
- experimental studies 402, 404 Ischemic heart disease 86
Left ventricular diastolic function 9
- function 130
- outflow tract obstruction 466
- pressure 303
- thrombosis 272 Low-grade stenosis 121
Mixed connective tissue disease 93 Molecular biology, heart failure 350 Morphology of QRS 209 Multiple coronary arteriovenous fistulas 58 Myocardial cell growth 346
- disorder 348
contractility 349
infarction 424
ischemia 363
- adaptation 367 Myocarditis 50, 77 Myocardium 93
- hibernating 368
- ischemic, defense against 367
- stunned 368
Nifedipine, slow release 450 Nitroglycerin 303
Nonsustained ventricular tachycardia 166 Noonan’s syndrome 62 346
Ochronosis 477
Opening of infarct-related vessel 121
Organic nitrates 303
Percent diastole 287
Plasminogen activator 40
Polymyositis 58
Xamoterol 30, 358, 359
-, congestive heart failure 360
-, intravenous
-, effect 360
Zone of slow conduction 240
