No. 1
Leistl, S. and Perheentupa, J. Critical Evaluation of the 5-Day Metyrapone Test ... 1
Aldosterone in Primary Aldosteronism 23
Bieler, E.U.; Pitout, M.J.; Stroud, S.W., and Rooyen, R.J. van: Conversion of Mono-
meric Human Growth Hormone and Big Growth Hormone into Different Molecu-
lar Weight Forms in vitro and after Injection into Humans 29
Bullough, W.A. and Wallis, M.: Iodinated Bovine Prolactin. Characterization and Bind-
ing to Mammary Gland Cells 37
Repcekova, D. and Mikulaj, L. Plasm Testosterone of Rats Subjected to Immobili-
zation Stress and/or HCG Administration 51
Sheriff, D.S. and Govindarajulu, P.: Lipids in Human Testis 58
Book Review 64

No. 2
Arendt, J.; Wetterberg, L.; Heyden, T.; Sizonenko, P.C., and Paunier, L.: Radioim-
munoassay of Melatonin: Human Serum and Cerebrospinal Fluid 65
Hadziselimovic, F., and Girard, J.: Pathogenesis of Cryptorchidism 76
Sackman, J. W.; Little, J.C; Rudeen, P.K.; Waring, P.J., and Reiter, R.J.: The Effects of
Pineal Indoles Given Late in the Light Period on Reproductive Organs and Pitu-
itary Prolactin Levels in Male Golden Hamsters 84
Raiti, S., Maclaren, N.; Trias, E., and Kim, C: Abnormalities in Growth Hormone and
Insulin Release in Short but Otherwise Normal Patients. The Arginine-Insulin-
Glucose (AIGT) Stimulation and Suppression Test 93

Contents IV
Falkay, G and Sas, M.: Metabolism of Prostaglandin Fna in Early Human Placenta in
vitro 99
Teulings, F.A.G. and Gilse, H.A. van: Demonstration of Glucocorticoid Receptors in
Human Mammary Carcinomas 107
Saksena, S.K.; Lau, I.F., and Chang, M.C.: Determination of Seven Unconjugated
Steroids in the Blood and Seminal Plasma of the Fertile Male Rabbit 117
Book Reviews 125
Varia 128

No. 3
Sciarrà, F.; Sparano, F.; Giaquinto, G; Odoardi, A.; Mercuri, M.A., and Concolino, G.:
Prolactinemia during Hemodialysis: Lack of Correlation with Sodium, Potassium
and Renin-Aldosterone System 129
Gemsenjäger, E.; Staub, J.J., and Girard, J.: Pituitary Thyroid Recovery following
Surgery in TRH-Unresponsive Patients with Uni- and Multinodular Goiter .... 139
Monies, A.; Hervás, F., and Jolin, T.: Effects of Thyroidectomy and Thyroxine on Plasma Growth Hormone and Insulin Levels in Rats 148
Review Article
Job, J.-C.; Chaussain, J.L., and Gamier, P.E.: The Use of Luteinizing Hormone-Releasing Hormone in Pediatric Patients 171
Book Review 188
No. 4
Gates, R.J. and Lazarus, N.R.: The Ability of Pancreatic Polypeptides (APP and BPP) to Return to Normal the Hyperglycaemia, Hyperinsulinaemia and Weight Gain of New Zealand Obese Mice 189
Malaisse, W. and Boschero, A.C.: Calcium Antagonists and Islet Function. XL Effect of Nifedipine 203
Nieuweboer, B. and Lübke, K.: Radioimmunochemical Determination of Cyproterone Acetate 210
Hasen, J. and Goldiner, M.: Triiodothyronine-Producing Metastatic Follicular Thyroid Carcinoma 219
Contents
V
Medero, M. and Dominguez, R.: Induction of Precocious Puberty in Newborn Female Guinea Pigs by a Positive Feedback Action of Estrogens 224
Porter, J.R.; Hyde, P.M., and Coyne, M.D.: Effects of Hypothalamic Extract and Corticosterone on Incorporation of 14C-Phenylalanine into Newly Synthesized ACTH-Like Protein in vitro 234
