2nd Professor Hans Storck Scientific Award

In 1998, the Allergy Unit at the Department of Dermatology of the University Hospital, Zurich, will celebrate its fiftieth anniversary. The Allergy Unit was founded in 1948 by Prof. Hans Storck after he had returned from a visiting fellowship to various allergy centres in the USA. On the occasion of this anniversary, on Friday and Saturday morning, October 2–3, 1998, an International Symposium dealing with ‘The Atopy Syndrome in the Third Millenium’ is planned in collaboration with the Section of Dermatology of the European Academy of Allergology and Clinical Immunology (EAACI).

The organizing committee announces the 2nd Professor Hans Storck Scientific Award of SFr. 5,000.–. This award, sponsored by an educational grant from Pharmacia & Upjohn Diagnostics Switzerland, is offered to a clinician or scientist, not older than 45 years, working in Europe in the field of allergology and clinical immunology. The topic chosen for this award is atopic dermatitis. The contribution of the applicant should lead to a better understanding of the pathomechanisms involved in the atopic skin disease or improve patient management.

An unpublished original article should be submitted in 5 copies together with a CV and a list of publications not later than June 30, 1998, to:
Prof. B. Wüthrich
Allergy Unit
Department of Dermatology
University Hospital
Gloriastrasse 31
CH–8091 Zurich (Switzerland)

The award winner will be selected by the members of the organizing committee and the Section of Dermatology of the EAACI. The article will be published in the Proceedings Volume of Current Problems in Dermatology (ed. G. Burg), Basel, Karger.

International Society for Dermatologic Surgery: 19th International Congress

The 19th International Congress of the International Society for Dermatologic Surgery will be held from October 28 to November 2, 1998, at the Le Méridien Bahia Hotel in Salvador de Bahia, Brazil. The meeting is held in conjunction with the 10th Congress of the Brazilian Dermatologic Surgery Society. Hands-on courses and workshops will be held on October 28–29, 1998, with the balance of the scientific and social program taking place on October 30 and November 2. Topics include: facial rejuvenation, lasers in dermatology, problem solving in dermatologic surgery, liposculpture, hair restoration, hair transplantation, sclerotherapy, Mohs micrographic surgery, free communications, cutaneous oncology, general dermatologic surgery and cosmetic dermatologic surgery.
