Göttingen

After 15 years in office as editor-in-chief of Digestion, I would like to thank all those who have helped me to keep its standard as one of the leading international journals of gastro-enterology. I gratefully acknowledge the faithful and expert work performed by Ms. Heidrun Vierhock, my editorial secretary since 1978.

I would also like to thank the staff of S. Karger, Medical and Scientific Publishers in Basel, who were always ready to solve minor or even major problems that arise in the life of a journal. Digestion is one of the oldest specially journals. Founded in 1895 by Ismar Boas as Archiv für Verdauungskrankheiten. It has always been independent, and I hope it will remain so: a peer-reviewed journal based solely on the intellectual input of its scientific reviewers, the backbone of a journal.

I would like to thank the reviewers for the privilege of working with them for so many years in an intense intellectual interchange on basic and clinical problems of gastroenterology. I sincerely hope that at least some of them will continue to support Digestion in the future by also collaborating with the next editor-in-chief, Professor Rudolf Arnold from Marburg, who worked with me in Göttingen for more than 15 years until 1982.

During my editorship I have largely depended in my efforts on the reviews of the individuals listed below:

 Erratum

In the article by Joelson et al., entitled 'Safety Experience from Long-Term Treatment with Omeprazole' and published in Vol. 51, Suppl. 1 (1992), the following errors should be corrected: page 97, figure 2 is figure 4, and on page 99, figure 4 is figure 2. The legends are correct as they stand.
