Subject Index

Compiled by G. Boehm, Basel (B) = Book Review

‘A’ antigenic sites, changes, in haematological disorders (An immunooautoradiographic study) 65
Abdominal wall haematoma, spontaneous, massive, in polycythaemia vera 122
ADP-induced platelet aggregation, effect of Iloprost (ZK 36374), a novel prostacyclin analogue 224
Ageing of erythrocytes, v. Young red cell preparation
Agnogenic myeloid metaplasia presenting as massive peri-cardial effusion due to extra-medullary haematopoiesis 239
Agranulocytosis and anaemia associated with ticlopidine therapy 232
Alcoholism; granulocytes with ring-shaped nuclei in severe alcoholism 184
Alloantibodies; anti-D alloantibodies, v. Bone marrow; transplant
AMP, cAMP, v. Phenylhydrazine
Anaemia, aplastic; assessment of myeloid progenitor cells in the bone marrow and blood provides prognostic information 1
ASA; captopril-associated transient aplastic anaemia 106
ASA; (Progress in clinical and biological research, vol. 148) 126(B)
ASA; residue analysis of chlorinated hydrocarbons in human bone marrow biopsy specimens by high resolution gas chromatography 6
ASA; v. ‘A’ antigenic sites, changes
Anaemia, Fanconi’s anaemia; monitoring of pregnancies at risk for Fanconi’s anaemia by chorionic villi sampling 157
Anaemia, haemolytic, acute, caused by severe hypophos-phataemia in diabetic keto-acidosis 55
Anaemia, haemolytic, autoimmune, in a cadaveric renal transplant recipient treated with cyclosporine 216
ASA; v. Haemoglobinuria, paroxysmal, nocturnal
Anaemia, sideroblastic, idiopathic, acquired; combined phenotypic and genotypic analysis of ringed sidero-blasts in acquired idiopathic sideroblastic anaemia 235
Anaemia, phenylhydrazine-induced; bone marrow cyclic nucleotides (cAMP, cGMP) in phenylhydrazine-induced anaemia 212
Anaemia and agranulocytosis associated with ticlopidine therapy 232
Anaemia, v. Sickle cell anaemia
Androgenic steroid (nandrolone decanoate), v. Irradiation
Angio-immunoblastic lymphad-enopathy with hypogamma-globulinaemia complicated by miliary tuberculosis 37
Angiotensin, v. Serum angio-tensin
Anorexia nervosa; chlorproma-zine-associated haemolysis in anorexia nervosa 111
Antibodies, monoclonal, v. Protein A-rosette assay
Anticoagulant control, oral and thromboplastin calibration 127(B)
Anticoagulation, assessment of therapeutic control 118
 reply 119
Anti-D alloantibodies, v. Bone marrow; transplant
Aplastic anaemia (Progress in clinical and biological research, vol. 148) 126(B)
Aplastic anaemia, v. Anaemia, aplastic
Autoimmune haemolytic anaemia in a cadaveric renal transplant recipient treated with
cyclosporine 216
 v. Haemoglobinuria, paroxysmal, nocturnal
B cells, v. T cells
Biochemical analysis 1986-prize 64
Biopsies; ultrasonically guided fine-needle biopsy: a new useful technique in pathological staging
of malignant lymphoma 150
Blast cells, three types, v. Trilineage acute leukaemia
Blast crisis, v. Hyperdiploidy
Blood banking; quality assurance in blood banking and its clinical impact (Development in
haematology and immunology, vol. 7) 190(B)
Blood cell morphology. A color atlas and instruction manual of peripheral blood cell morphology
192(B)
Blood coagulation, v. Coagulation of blood
Blood groups, v. Rhesus-positive bone marrow transplant
Blood groups, changes, v. ‘A’ antigenic sites, changes
Blood volume, v. Thrombocythaemia, essential
Bone marrow biopsies updated (Bibliotheca haematologica, vol. 50) 128(B)
Bone marrow fibroblasts in acute lymphoblastic leukaemia 75
Bone marrow mitotic index: a methodological study 89
Bone marrow; transplant of rhesus-positive bone marrow
in a rhesus-negative woman having anti-rhesus D alloantibodies 153
Bone marrow, v. Anaemia, aplastic
Book reviews 126-128 (B), 190-192(B), 245-246(B)
Brucellosis; unusual features of brucellosis complicating beta thalassaemia major 61
Cadaveric renal transplant, v. Renal transplant recipient
cAMP, cGMP, v. Phenylhydrazine
Captopril-associated transient aplastic anaemia 106
Cell separators, v. Young red cell preparation
Chemotherapy, v. Leukaemia, nonlymphoblastic, acute
Childhood, abnormal expansion of large granular lymphocytes 206
-; erythrocytic zinc content during childhood 114
-; significance of number HLA determinants in HLA capping in childhood acute lymphoblastic
leukaemia 196
Chimerism, v. ‘A’ antigenic sites, changes
Chlorinated hydrocarbons, v. Hydrocarbons, chlorinated
Chlorpromazine-associated haemolysis in anorexia nervosa 111
Chorionic villi sampling; monitoring of pregnancies at risk for Fanconi’s anaemia by chorionic
villi sampling 157
Chromosome aberrations, v. Fanconi’s anaemia; Myelofibrosis
Chromosome (Y chromosome aneuploidy), v. Sideroblasts, ringed
Chromosomes; chronic mye-
Subject Index

I
loid leukaemia with an unusual simple variant translo-cation: \( t(22;22) \ q(\ 13\ q\ 11) \) 193
-; hyperdiploidy of 54 chromosomes with double \( \Phi h \) chromosome in lymphoid chronic
myelocytic leukaemic blast crisis 163
-; v. Philadelphia chromosome
Clinical haematology (6th ed.) 126(B)
Coagulation of blood, v. Anticoagulant; Anticoagulation; Factor VII\( \text{R} \); Factor VIII; Factor X,
Haematoma; Haemophilia (B); Haemostatic failure (B); Haemothorax; Opiate addiction;
Platelet(s); Thrombin; Thrombocythaemia; Thrombocytopenia; Thrombocytopenic purpura;
Thromboplastin calibration (B); Thrombosis
Colony-forming progenitor stem cells, v. Irradiation
Colony-forming units; cellular abnormalities and reduced colony-forming cells in chronic
neutrophil leukaemia 47
Congress, v. Thrombin
Cranial irradiation and platelet monoamine oxidase in acute lymphoblastic leukaemia 86
Cryoparaprotein; indomethacin-related serum sicknesslike illness with IgM lambda
cryoparaprotein? 45
Cyclic nucleotides; bone marrow cyclic nucleotides (cAMP, cGMP) in phenyl-hydrazine-induced
anaemia 212
Cyclosporine; autoimmune haemolytic anaemia in a cadaveric renal transplant recipient treated
with cyclosporine 216
Cytarabine; therapeutic trial with low-dose cytarabine in myelodysplastic syndromes and acute
leukaemia 71
Cytotoxins, v. Lymphocytotoxic-ic activity
Deletion 1 \( q \) and trisomy \( q \) in acute myelofibrosis 179
Dengue virus infection; transient remission of chronic thrombocytopenic purpura
induced by Dengue virus infection 241
Density of erythrocytes, v. Young red cell preparation
Deoxynucleotidyl transferase; terminal deoxynucleotidyl transferase positivity in neuroblastoma
124
Diabetic ketoacidosis; acute haemolytic anaemia caused by severe hypophosphataemia in diabetic
ketoacidosis 55
Diphosphoglycerate (2,3), v. Phosphoglycolate
DNA analysis, v. Haemoglobin Barts
Electron microscopy (transmission), v. Alcoholism; Leukaemia, neutrophilic, chronic;
Megakaryoblastic transformation; Trilineage acute leukaemia
Enzymatic analysis, methods: vol. II: Samples, reagents, assessment of results 191 (B); vol. IV
(3rd ed.): Enzymes 2: Esterases, Glycosidases, Ly-sases, Ligases 191 (B); vol. V: Enzymes 3:
Peptidases, Pro-teinases, and their inhibitors 191 (B); vol. VI (3rd ed.): Metabolites I:
Carbohydrates 246 (B)
Erratum: Article E. Briët et al. Acta haemat. this vol. 73: 97-100 p. 98, fig. land 2 246
Erythrocytes; haemoglobin content of single erythrocytes from fetuses with parents having
heterozygous \( \beta \)-thalassaemia 16
-; increased monoester lipase activity in red blood cells in late pregnancy 120
-; Malaria and the red cell (Progress in clinical and biological research, vol. 155) 192 (B)
-; where does phosphoglycolate come from in red cells? 26
-; young red cell preparation - a comparison of available methods 22
-; v. ‘A’ antigenic sites, changes; Protein A-rosette assay
Erythrocytic zinc content during childhood 114
Erythrokinetics, v. Thrombocythaemia, essential
Evans’ syndrome in paroxysmal nocturnal haemoglobin-uria 210
Exogenous intoxications, serious; diagnosis, course and treatment 245(B)
Extramedullary haematopoiesis, v. Haematopoiesis, extra-medullary
Extrinsic system; factor X Padua: a ‘new’ congenital factor X abnormality with a defect only in the extrinsic system 31
Factor VII (= proconvertin/convertin) deficiency; possible homozygous factor V1IR disorder associated with fi-brinolytic hyperactivity 93
Factor VIII (= Antihaemophil-ic globulin A); sequential administration of human and porcine factor VIII for surgical treatment of a parotid tumour in a patient with factor VIII inhibitor (Erratum: 246) 97
Factor VIII inhibitors (Progress in clinical and biological research, vol. 150) 128(B)
Factor X (= Stuart-Prower factor) Padua: a ‘new’ congenital factor X abnormality with a defect only in the extrinsic system 31
Families, v. Factor V1IR, Factor X (abnormality)
Fanconi’s anaemia; monitoring pregnancies at risk for Fanconi’s anaemia by chorionic villi sampling 157
Ferments, v. Enzymatic analysis (B); Lipase; Monoamino-oxydase (platelets); Neutro-philis; Ribulose-l,5-diphos-phate oxygenase; Serum an-giotensin-I-converting enzyme; Terminal deoxynucleotidyl transferase
Ferritin-secreting cells in patients with non- Hodkin ‘s lym-phoma, quantification 145
Fetal erythrocytes, v. Haemoglobin content
Fibrinolytic hyperactivity; possible homozygous factor V1IR disorder associated with fibrinolytic hyperactivity 93
Fibroblasts; bone marrow fibroblasts in acute lymphoblastic leukaemia 75
Fine-needle biopsy, v. Ultra-sonically guided fine-needle biopsy
Gammaglobulins, v. Hypogam-maglobulinaemia
Gammopathy, v. Plasmacytosis
Gas chromatography (glass capillary high resolution gas chromatography), v. Anaemia, aplastic
Gene therapy (Fact and fiction. Biology’s new approaches to disease) 128(B)
Genetic maps 1984 245(B)
Genetics, human, advances (vol. 13) 128(B)
GMP, cGMP, v. Phenylhydra-zine
Graft-versus-host disease; intravenous monoclonal antibody (BT 5/9) for the treatment of acute graft-versus-host disease 185
Granulocytes with ring-shaped nuclei in severe alcoholism 184
Haematological disorders, changes in ‘A’ antigenic sites (An immunoautoradiogra-phic study) 65
Haematology, clinical (6th ed.) 126(B)
Haematology, current topics (vol. 5) 246 (B)
Haematology, practical 245 (B)
Haematology, topical reviews (vol. 2) 127(B)
Haematoma; spontaneous massive abdominal wall haematoma in polycythaemia ve-ra 122 reply 123
Haematopoiesis (Methods in hematology, vol. 11) 246 (B)
Haematopoiesis; regeneration of murine megakaryocyto-poiesis and the haematopoi-
Subject Index 251
etic inductive microenvironment after sublethal whole body irradiation by treatment with an anabolic steroid 80

Haematopoiesis, extramedullary; agnogenic myeloid metaplasia presenting as massive pericardial effusion due to extramedullary haematopoiesis 239

Haematopoietic inductive microenvironment; regeneration of murine megakaryocyte-topoiesis and the haematopoietic inductive microenvironment after sublethal whole body irradiation by treatment with an anabolic steroid 80

Haematopoietic stem cells, v. Irradiation

Haemoglobin Barts, incidence, and α-thalassaemia genotypes in a South African population 159

Haemoglobin content of single erythrocytes from fetuses with parents having heterozygous α-thalassaemia 16

Haemoglobin E variants 58

Haemoglobin F, v. Sickle cell anaemia

Haemoglobin H, v. Thalassemia (α and β)

Haemoglobin Hofu associated with β-thalassaemia 51

Haemoglobinuria, paroxysmal, nocturnal, with Evans’ syndrome 210

Haemolysis; chlorpromazine-associated haemolysis in anorexia nervosa 111

Haemolytic anaemia, acute, caused by severe hypophosphataemia in diabetic ketoacidosis 55

Haemomediastinum, v. Haemothorax

Haemophilia; haemothorax and haemomediastinum in patients with haemophilia 176

--; living with haemophilia (2nd ed.) 192(B)

Haemostasis, v. Thrombosis (congress)

Haemostatic failure in liver disease 127 (B)

Haemothorax and haemomediastinum in patients with haemophilia 176

Hairy cell leukaemia; another immune-mediated disease associated with hairy cell leukaemia: chronic active hepatitis 104

Hairy cell leukaemia and polycythaemia vera rubra 189

--; reply 189

Helper-T-monoclonal antibody; intravenous monoclonal antibody (BT 5/9) for the treatment of acute graft-versus-host disease 185

Hematology, current topics (vol. 5) 246(B)

Hematopoiesis (Methods in hematology, vol. 11) 246(B)

Hepatitis, aggressive, chronic, v. Lymphocytes, granular, large

Hepatitis, chronic, active; another immune-mediated disease associated with hairy cell leukaemia: chronic active hepatitis 104

HLA determinants; significance of number of HLA determinants in HLA capping in childhood acute lympho-blastic leukaemia 196

Hodgkin’s disease, serum angiotensin-converting enzyme in Hodgkin’s disease 62

--; reply 63

Human genetics, advances (vol. 13) 128(B)

Human T-cell leukemia/Lymphoma virus (The family of human lymphotropic retroviruses) 190(B)

Hydrocarbons, chlorinated; aplastic anaemia: residue analysis of chlorinated hydrocarbons in human bone marrow biopsy specimens by high resolution gas chromatography 6

Hyperdiploidy of 54 chromosomes with double Ph chromosome in lymphoid chronic myelocytic leukaemic blast crisis 163

Hypertension, v. Captopril
Hypogammaglobulinaemia; angio-immunoblastic lymphadenopathy with hypogammaglobulinaemia complicated by miliary tuberculosis 37
Hypophosphatemia; acute hemolytic anemia caused by hypophosphatemia in diabetic ketoacidosis 55
IgM lambda, v. Serum sickness
Iloprost (ZK 36374), a novel prostacyclin analogue, effect on ADP-induced platelet aggregation 224
Immune-mediated disease, v. Hepatitis, chronic, active
Immunohistological examination, v. ‘A’ antigenic sites, changes
Immunoglobulins, monoclonal; lymphocytotoxic activity of monoclonal immunoglobulins in plasmacytoid diseases 201
India; North-West India, leukaemia 244
Indomethacin-related serum sickness-like illness with IgM lambda cryoparaprotein? 45
Intoxications, exogenous, serious; diagnosis, course and treatment 245(B)
Intrinsic system, v. Factor X (abnormality)
Irradiation; cranial irradiation and platelet monoamine oxidase in acute lymphoblastic leukaemia 86
---; regeneration of murine megakaryocytepoiesis and the haematopoietic inductive microenvironment after whole body irradiation by treatment with an anabolic steroid 80
Israel, v. Jerusalem
Jerusalem: results of therapy in adult acute nonlymphoblastic leukaemia: experience in Jerusalem (Israel), during 1975-1982 11
Ketoacidosis, v. Diabetic ketoacidosis
Leukaemia, acute; therapeutic trial with low-dose cytarabine in myelodysplastic syndromes and acute leukaemia 71
Leukaemia, hairy cell leukaemia; another immune-mediated disease associated with hairy cell leukaemia: chronic active hepatitis 104
Leukaemia, hairy cell leukaemia and polycythemia vera rubra ---; reply 189
Leukaemia, lymphoblastic, acute; bone marrow fibroblasts 75
---; cranial irradiation and platelet monoamine oxidase in acute lymphoblastic leukaemia 86
---; significance of number of HLA determinants in HLA capping in childhood acute lymphoblastic leukaemia 196
---; antigen in the blasts, v. Leukaemia, myelocytic, chronic
Leukaemia, lymphatic, chronic (B-cell); predominant T cells in pleural effusion of a patient with B-cell chronic lymphatic leukaemia 101
Leukaemia, megakaryoblastic; megakaryoblastic transformation of primary thrombocythaemia 228
Leukaemia, myeloblastic, acute; transplant of rhesus-positive bone marrow in a rhesus-negative woman having anti-rhesus D alloantibodies 153
Leukaemia, myelocytic, chronic; hyperdiploidy of 54 chromosomes with double Ph1 chromosome in lymphoid chronic myelocytic leukaemia blast crisis 163
Leukaemia, myelogenous, acute; trilineage acute leukaemia in combined Ph1-chromosome positivity and monosomy 17 129
---; v. Plasma cell dyscrasia, reactive
Leukaemia, myeloid, chronic, with an unusual simple variant translocation: t(22;22) (q13;q11) 193
Leukaemia, myelomonocytic, chronic, changes in neutrophil alkaline phosphatase patterns in a case 168
Leukaemia, neutrophilic, chronic; cellular abnormalities and reduced colony-forming cells in chronic neutrophilic leukaemia 47

Leukaemia, nonlymphoblastic, acute; results of therapy in adult acute nonlymphoblastic leukaemia: experience in Jerusalem (Israel), during 1975-1982 11

Leukaemia in North-West India 244

Leukaemia, T cell, human; human T cell leukaemia/lymphoma virus (The family of human lymphotropic retroviruses) 190(B)

Leukaemias, v. ‘A’ antigenic sites, changes

Light chains; coexistence of nonsecreting and nonproducing multiple myeloma 173

Lipase; monoester lipase activity, increased, in red blood cells in late pregnancy 120

Liver disease, haemostatic failure 127(B)

Lymphadenopathy, angio-immunoblastic, with hypogamaglobulinaemia complicated by miliary tuberculosis 37

Lymphocytes, granular, large; childhood abnormal expansion of large granular lymphocytes 206

Lymphocytes, human; detection of human lymphocyte subpopulations by using monoclonal antibodies and protein A-coated erythrocytes 140

Lymphocytes, v. B lymphocytes; T cells; T lymphocyte

Lymphocytotoxic activity of monoclonal immunoglobulins in plasmalymphocytic diseases 201

Lymphoma; idiopathic myelofibrosis complicated by lymphoma (Report of two cases) 30

Lymphoma, malignant; ultra-sonically guided fine-needle biopsy: a new useful technique in pathological staging of malignant lymphoma 150

Lymphoma, non-Hodgkin’s lymphoma; quantification of ferritin-secreting cells in patients with non- Hodgkin lymphoma 145

Lymphoma virus/Human T-cell leukaemia (The family of human lymphotropic retroviruses) 190(B)

Lymphoplasmacytic myeloma, v. Myeloma, multiple

Macroglobulin; alpha-2-macroglobulin, increased in opiate addicts: further evidence of an alteration in the coagulation system due to opiate addiction 117

Macrophage activation (Contemporary topics in immunobiology, vol. 13) 190(B)

Malaria and the red cell (Progress in clinical and biological research, vol. 155) 192(B)

Maps, genetic 1984 245 (B)

Megakaryoblastic transformation of primary thrombocythaemia 228

Megakaryocytopenesis, murine, and the hematopoietic inductive microenvironment, regeneration after sublethal whole body irradiation by treatment with an anabolic steroid 80

Methods of enzymatic analysis: vol. II: Samples, reagents, assessment of results 191 (B); vol. IV (3rd ed.): Enzymes 2: Esterases, Glycosidases, Ly-sases, Ligases 191 (B); vol. V: Enzymes 3: Peptidases, Pro-teinases and their inhibitors 191 (B); vol. VI (3rd ed.): Metabolites I: Carbohydrates 246(B)

Methods; young red cell preparation – a comparison of available methods 22

Methods, v. Mitotic index; Protein A-rosette assay; Ultra-sonically guided fine-needle biopsy

Microspectrophotometry, v. Haemoglobin content

Mitotic index of bone marrow: a methodological study 89

Monoamine oxidase; cranial irradiation and platelet monoamine oxidase in acute lymphoblastic leukaemia 86

Monoclonal antibodies, v. Protein A-rosette assay
Monoclonal antibody; intravenous monoclonal antibody (BT 5/9) for the treatment of acute graft-versus-host disease

Monoclonal immunoglobulins, v. Immunoglobulins, monoclonal
Mononuclear cells in the peripheral blood (non-Hodgkin’s lymphoma), v. Ferritin-secreting cells
Monosomy 7, v. Trilineage acute leukaemia
Morphology of peripheral blood cells, v. Blood cell morphology (B)
Mouse, v. Irradiation
Multiple myeloma, v. Myeloma, multiple
Myelodysplastic syndromes; therapeutic trial with low-dose cytarabine in myelodysplastic syndrome and acute leukaemia
Myelofibrosis, acute; trisomy 11q and deletion 11q in acute myelofibrosis
Myelofibrosis, idiopathic, complicated by lymphoma (Report of two cases)
Myeloid metaplasia, agnogenic, v. Agnogenic myeloid metaplasia
Myeloid progenitor cells; aplastic anaemia: assessment of myeloid progenitor cells in the bone marrow and blood provides prognostic information
Myeloma, multiple; coexistence of nonsecreting and nonproducing light chain multiple myeloma
Myeloma, multiple; coexistence of nonsecreting and nonproducing light chain multiple myeloma
--; v. Plasmacytosis
Myeloproliferative disorders, v. Thrombocytopenia, essential
Nandrolone decanoate (anabolic steroid), v. Irradiation
Neuroblastoma; terminal deoxynucleotidyl transferase positivity in neuroblastoma
Neutrophils; changes in neutrophil alkaline phosphatase patterns in a case of chronic myelomonocytic leukaemia
Non-Hodgkin’s lymphoma; quantification of ferritin-secreting cells in patients with non- [Hodgkin’s lymphoma
145 Nuclei, v. Ring-shaped nuclei Nucleotides, v. Cyclic nucleotides
Opiate addiction; increased alpha-2-macroglobulin in opiate addicts: further evidence of an alteration in the coagulation system due to opiate addiction
Oxygen transport in tissue (Advances in experimental medicine and biology, vol. 169)
Parotid tumour; sequential administration of human and porcine factor VIII for surgical treatment of a parotid tumour in a patient with a factor VIII inhibitor (Erratum 246)
Paroxysmal nocturnal haemoglobinuria with Evan’s syndrome
Pathological staging, v. Ultra-sonically guided fine-needle biopsy
Pericardial effusion, massive, v. Haematopoiesis, extramedullary
Phenyldihydrine-induced anaemia; bone marrow cyclic nucleotides (cAMP, cGMP) in phenyldihydrine-induced anaemia
Philadelphia chromosome, v. Hyperdiploidy; Trilineage acute leukaemia
Phosphatase, alkaline, v. Neutrophils
Phosphoglycolate; where does phosphoglycolate come from in red cells?
Phosphate, v. Hypophosphataemia
Plaque assay, reverse haemolytic plaque assay, v. Ferritin-secreting cells
Plasma cell dyscrasia, nonsecreter, v. Myeloma, multiple
Plasmacytosis, reactive (Case report and review of the literature)
Plasmalymphocytic diseases; lymphocytotoxic activity of monoclonal immunoglobulins in plasmalymphocytic diseases
Platele aggregation; effect of Iloprost (ZK 36374), a novel prostacyclin analogue, on ADP-induced platelet aggregation
Platelet aggregation inhibitor, v. Ticlopidine therapy
Platelet counts, v. Thrombo-cythaemia, essential
Platelet disorders (Clinics in haematology, vol. 12, No. 1) 127(B)
Platelets; cranial irradiation and platelet monoamine oxi-dase in acute lymphoblastic leukaemia 86
Pleural effusion, v. T cells
Polycythaemia rubra vera and hairy cell leukaemia 189
---, reply 189
Polycythaemia vera; spontaneous massive abdominal wall haematoma in polycythaemia vera 122
---, reply 123
Polycythaemia vera, v. ‘A’ anti-genic sites, changes
Porcine factor VIII, v. Factor VIII
Practical haematology, 6th ed. 245(B)
Pregnancy; increased mono-ester lipase activity in red blood cells in late pregnancy 120
Pregnancy in pre- and post-splenectomy cases of hereditary spherocytosis 187
---, reply 188
Pregnancy, v. Spherocytosis
Priapism in association with sickle cell anaemia in Saudi Arabia 181
Prize: ‘Biochemical analysis’ 1986 64
Progenitor cells, v. Myeloid progenitor cells
Progenitor cells, neoplastic transformation, v. Trilineage acute leukaemia
Prognosis (aplastic anaemia), v. Anaemia, aplastic
Prostacyclin analogue; effect of iloprost (ZK 36374), a novel prostacyclin analogue, on ADP-induced platelet aggregation 224
Protein A-rosette assay; detection of human lymphocyte subpopulations by using monoclonal antibodies and protein A-coated erythro-cytes 140
Purpura, thrombocytopenic, chronic; transient remission by Dengue virus infection 241
---, reply 243
Rat, v. Phenylnhydrazine
Red cell (Progress in clinical and biological research, vol. 165) 245(B)
Red cell and malaria (Progress in clinical and biological research, vol. 155) 192(B)
Red (blood) cells, v. Erythro-cytes
Remission, transient, of chronic thrombocytopenic purpura induced by Dengue virus infection 241
---, reply 243
Renal failure, chronic, v. Cap-topril
Renal transplant recipient; autoimmune haemolytic anaemia in a cadaveric renal transplant recipient, treated with cyclosporine 216
Reverse haemolytic plaque assay, v. Ferritin-secreting cells
Rhesus-positive bone marrow, v. Bone marrow; transplant
Ribulose-l,5-diphosphate oxy-genase, v. Phosphoglycolate
Ring-shaped nuclei; granulo-cytes with ring-shaped nuclei in severe alcoholism 184
Ringed sideroblasts, v. Sideroblasts
Rosette technique, v. Protein A-rosette assay; Sickle cell anaemia
Saudi Arabia; priapism in association with sickle cell anaemia in Saudi Arabia 181
Serum angiotensin-I-convert-ing enzyme in Hodgkin’s disease 62
---, reply 63
Serum sickness; indomethacin-related serum-sickness-like illness with IgM lambda cryoparaprotein? 45
Sickle cell anaemia; priapism in association with sickle cell anaemia in Saudi Arabia 181
---, T lymphocyte study in sickle cell anaemia by means of rosetting techniques 59
Sideroblasts, ringed; combined phenotypic and genotypic analysis of ringed sideroblasts in acquired idiopathic sideroblastic anaemia 235
South Africa, capa coloured population; incidence of haemoglobin Barts and α-thalassaemia genotypes in a South African population 159
Spherocytosis; pregnancy in pre- and postsplenectomy cases in hereditary spherocytosis 187
Spleen function, v. Thrombo-cythaemia, essential
Splenectomy, v. Spherocytosis
Staging, pathological, v. Pathological staging
Standardization; international committee for standardization in haematology. Recommended methods in reprints 192
Steroid, anabolic (nandrolone decanoate), v. Irradiation
Subpopulations of human lymphocytes, detection by using monoclonal antibodies and protein A-coated erythro-cytes 140
T cells, predominant in a pleural effusion of a patient with B-cell chronic lymphatic leukaemia 101
--; v. Leukaemia, T cell, human (B)
Techniques, v. Methods
Terminal deoxynucleotidyl transferase positivity in neu-roblastoma 124
Thalassaemia (α); incidence of haemoglobin Barts and α-thalassaemia genotypes in a South African population 159
Thalassaemia (α and β); vitamin E in α-thalassaemia and β-thalassaemia (HbH) diseases 183
Thalassaemia (β); haemoglobin content of single erythrocytes from fetuses with parents having heterozygous thalassaemia 16
Thalassaemia (β); haemoglobin Hofu associated with β-thalassaemia 51
Thalassaemia major (β); unusual features of brucellosis complicating β-thalassaemia major 61
Therapeutic control of anti-coagulation, assessment 118
---; reply 119
Therapeutic trial with low-dose cytarabine in myelodysplas-tic syndromes and acute leukaemia 71
Therapy, v. Gene therapy (B); Intoxications; Leukaemia, nonlymphoblastic, acute; Ticlopidine
Thrombosis and Haemostasis, 254
Thrombocythaemia, essential; blood volume, erythrokinet-ics and spleen function in thrombocythaemia 219
--; megalakaryoblastic transformation of primary thrombocythaemia 228
Thrombocytopenia, autoimmune, v. Haemoglobinuria, paroxysmal, nocturnal
Thrombocytopenic purpura, chronic, transient remission by Dengue virus infection 241
--; reply 243
Thrombocytes, v. Platelet(s)
Thromboplastin calibration and oral anticoagulant control 127(B)
Thrombosis and Haemostasis,
254
Subject Index

International Society, Xth Congress. Satellite symposium: Cellular events mediated by thrombin and related proteinases, San Diego (Calif., USA), July 17, 1985 64
Ticlopidine therapy; anaemia and agranulocytosis associated with ticlopidine therapy 232
T lymphocyte study in sickle cell anaemia by means of ro-setting techniques 59
Tocopherol, v. Vitamin E
Topical reviews in haematology (vol. 2) 127(B)
Toxic chlorinated hydrocarbons, v. Anaemia, aplastic
Translocation; chronic myeloid leukaemia with an unusual simple variant translocation:
t(22;22)(ql3;qll) 193
Transplant of rhesus-positive bone marrow in a rhesus-negative woman having anti-rhesus D
alloantibodies 153
Transplantation, v. Renal transplant recipient
Trilineage acute leukaemia in combined Ph1-chromosome positivity and monosomy 7 129
Trisomy 1q and deletion of 1q in acute myelofibrosis 179
Tuberculosis, miliary; angio-immuno (immunoblastic) lymphadenopathy with hypo-
gammaglobulinaemia complicated by miliary tuberculosis 37
Ultrasonically guided fine-needle biopsy: a new useful technique in pathological staging of
malignant lymphoma 150
Ultrastructure, v. Alcoholism; Leukaemia, neutrophilic, chronic; Megakaryoblastic transformation;
Trilineage acute leukaemia
Viruses; human T-lymphotropic retroviruses, v. Lymphoma virus (B)
Vitamin E in β-thalassaemia
and α-thalassaemia (HbH)
diseases 183
Xenobiotics, v. Anaemia,
aplastic X-rays, v. Irradiation
Young red cell preparation – a comparison of available methods 22
Zinc; erythrocytic zinc content during childhood 114
