Subject Index

Compiled G. Boehm, Basel (B) = Book Reviews
Abnormal factor VII, v. Factor VII
Abnormal haemoglobins, v. Haemoglobin abnormalities (B), Haemoglobin O Arab, Haemoglobin Hasharon
Acetylsalicylic acid, v. Aspirin
Adenosplenomegaly, v. Leukaemia, lymphoid, chronic
‘African’ genetic markers in Sicilians 174
Agglutination of granulocytes from chronic myeloid leukaemia by concanavalin A 211
American Red Cross, v. Red Cross (scientific symposium)
Anaemia, aplastic; defective stimulating capacity of leukocytes in mixed leukocyte culture in constitutional aplastic anemia caused by suppressor T cells (A case study) 81
Anaemia, cryopathic, haemolytic, associated with uterus myomato-sus 235
Anaemia, haemolytic, autoimmune; β-thalassaemia complicated by autoimmune haemolytic anaemia (Globin synthesis during immuno-suppressive therapy) 37
Anaemia, haemolytic (Heinz body haemolytic anaemia), v. Haemoglobin Genova
Anaemia, haemolytic, hereditary, v. Pyrimidine nucleotidase
Anaemia, haemolytic, v. Autohaemolysis
Anaemia; sickle cell anaemia, immunologic dysfunction 156
Antibodies; autoimmune antibodies after splenectomy 230
Antibodies, erythrocyte antibodies, v. Anti-human globulin test
Antigens; Transplantation antigens. A study in serological data analysis 296 (B)
Anti-human globulin test; enzyme-linked immunosorbent assay for the indirect anti-human globulin test 124
Antithrombin III, normal levels in acute leukemia, complicated by coagulopathy 336
Aplastic crisis, transient, in hereditary spherocytosis 28
Arabian peninsula, v. Haemoglobin O Arab
Aspirin and aspirin lysinate, effect on platelet function in smokers and non-smokers 177
Asynchronous plasma cells, v. Plasma cell leukaemia
Autohaemolysis; effect of poly-amines on autohaemolysis: studies on normal and thalassaemic children 226
-; in vitro autohaemolysis during pregnancy 301
Autoimmune antibodies after splenectomy 230
Autoimmune haemolytic anaemia, v. Anaemia, haemolytic, autoimmune
Basedow’s disease, v. Graves’ disease
B cell neoplasms, Fc γ and Fc μ receptors (Correlation to the development stages) 247
Bence Jones gammopathy, benign 241
Blastic crisis, v. Isoenzyme variants
Blood banking; serology, immunology and blood banking (Functional medical laboratory technology) 116 (B)
Blood coagulation, v. Coagulation of blood
Blood groups and diseases. A study of associations of diseases with blood groups and other polymorphisms 58 (B)
B lymphocytes; a subpopulation of lymphocytes with T and B cell characteristics (Observations on two different cases of immunodeficiency) 88
-; v. B cell neoplasms, Plasma cell leukaemia, Sézary syndrome
Bone marrow; defect of bone marrow granulocyte reserve in rheumatic diseases evaluated with ethiocholanolone 13
-; incorporation of radioactive precursors into the nucleic acids of bone marrow cells from patients with vitamin B12 or folate deficiency 196
-; repopulating ability of rat bone marrow 252
Bone marrow cultures; incorporation of radioactive precursors into the nucleic acids of bone marrow cells from patients with vitamin B12 and folate deficiency 196
Book reviews 58-59 (B), 176 (B), 236 (B), 296-299 (B), 342 (B)
Burkitt’s lymphoma occurring 6 years after Hodgkin’s disease 330
Busulphan, v. Cytotoxic drugs
Canadian boy, v. Haemoglobin Genova
Canadian families, v. Haemoglobin D Los Angeles
Cancer research, recent results (Vol. 64) (Classification, Categorization, Natural history) 296 (B)
Cancer research, recent results (Vol. 65) (Clinical and therapeutic aspects) 297 (B)
Cardiac death, v. Leukaemia and lymphoma
Cell cultures, v. Bone marrow cultures, Leucocytes in mixed leukocyte cultures
Cell-mediated immunity, v. Sickle cell anaemia
Cellular and molecular regulation of hemoglobin switching 297 (B)
Subject Index 346

Centrifugation, intermittent-flow centrifugation, v. Leukapheresis
Centrifugation, isopycnic, of human, pigeon and guinea pig erythro-cytes 312
Chain recombination, v. Haemoglobin chain recombination
Chains, v. Light chain (\(\lambda\)) disease
Chains, \(\gamma\)-chains; analysis of the \(\gamma\)-chains in a homozygote for HPFH negro type and in three related heterozygotes 146
Chemiluminescence, postphago-cytic; neutrophil chemiluminescence during the first month of life 326
Chemotherapy-radiotherapy (Hodgkin’s disease), v. Burkitt’s lymphoma
Children, v. Thalassaemic (...) children
Chlorambucil; acute myeloblastic leukaemia after prolonged chlorambucil treatment for non-malignant disease: report of a new case and literature survey 283
Classification (FAB classification), v. Leukaemia, myeloid, acute
Clinical laboratory statistics (2nd ed.) 296 (B)
Coagulation of blood, v. Antithrombin III, Aspirin, Factor VII, Factor XII, Fibrinolytic activity, Fitzgerald factor, Hemostasis (B), Plasminogen, Prothrombin complex factors
Cold agglutinins, v. Myoma
Complement, v. Leukapheresis
Concanavalin A; agglutination of granulocytes from chronic myeloid leukaemia by concanavalin A 211
Congenital combined factor VII and factor VIII deficiency 167
Congenital variants of the prothrombin complex factors 339
Cryopathic haemolytic anaemia associated with uterus myomatosus 235
Cyclic oscillations in leukocyte count in chronic myeloid leukemia
68 Cyclophosphamide, v. Cytotoxic drugs Cytochrome, v. NADH-cytochrome b5 reductase Cytology and histology (Functional medical laboratory technology)
176 (B) Cytotoxic drugs, effect of their daily administration on the erythroid and granulocytic repopulating ability of rat bone marrow 252
Mithramycin
Death, causes of death in leukemia and lymphoma with modern treatment 61
Density of erythrocytes, v. Isopycnic centrifugation
Diagnosis, v. Plasma cell leukaemia
Dimethylmyleran, v. Cytotoxic drugs
Diseases, v. Blood groups (B)
DNA synthesis, v. Bone marrow cultures
Donor leukocyte counts, v. Leukapheresis
Editorial 1
Electron microscopy (transmission), v. Lamellar bodies (platelets), Plasma cell leukaemia, Sézary syndrome, 99mTc labelled human leukocytes
Enzyme-linked immunosorbent assay for the indirect anti-human globulin test 124
Eosinophilia; plasminogen levels in subjects with eosinophilia 114
Eosinophils; acquired Pelger-Huët anomaly limited to eosinophils 295
Erythropoietic changes effected by foreign serum in the mouse 257
Erythropoietin; quantitative determination of human plasma erythropoietin using embryonic mouse liver erythroblasts 204
Erythrocyte and plasma lipids in terminal renal insufficiency 117
Erythrocyte pyrimidine nucleotidase, deficiency; additional data from two kindreds with genetically deficiencies of erythrocyte pyrimidine nucleotidase 262
Erythrocytes, human; isopycnic centrifugation of human, pigeon and guinea pig erythrocytes 312
Erythroid and granulocytic repopulating ability of rat bone marrow, effect of daily administration of cytotoxic drugs 252
Erythropoietic changes effected by foreign serum in the mouse 257
Erythropoietin; quantitative determination of human plasma erythropoietin using embryonic mouse liver erythroblasts 204
Esterases, nonspecific; isoenzyme variants of nonspecific esterases in chronic myelocytic leukemia and in blastic crisis 321
Etiocholanolone; defect of bone marrow granulocyte reserve in rheumatic diseases evaluated with etiocholanolone 13
FAB (= French-American-British) classification, v. Leukaemia, myeloid, acute
Factor VII (= Proconvertin/Con-vertin); congenital combined factor VII and factor VIII deficiency 167
-; survival studies in factor VII Padua abnormality 333
Factor VIII (= Antihaemophilic globulin = A[??]G); congenital combined factor VII and factor VIII deficiency 167
Factor XII (=Hagemann factor.) deficiency; recurrent thrombosis in a patient with factor XII deficiency 278
Families, v. Factor VII deficiency, Fitzgerald factor deficiency, Haemoglobin D Los Angeles, HPFH Negro type, Ovalocytosis, Thalassaemia in Southern India
Subject Index
347
Fc γ and Fc µ receptors in B cell neoplasms (Correlation to the development stages) 247
Ferments, v. Enzyme linked . . ; Esterases, nonspecific; Glutamyl transpeptidase; NADH-cytochrome b8 reductase; Pyrimidine nucleotidase; Sézary syndrome; Superoxide dismutase
Ferrokinetics, v. Thiamphenicol
Fetal hemoglobin, hereditary persistence, v. HPFH Negro type
Fibrinolytic activity; relationship between the blood and vein wall fibrinolytic activities in response to surgical trauma 191
Fitzgerald factor; first cases of Fitzgerald factor deficiency in the orient: three cases in one family 107
Folate deficiency, v. Vitamin B12 deficiency
Foreign serum, v. Serum, foreign (erythropoietic changes)
Gammopathy; Bence Jones benign gammopathy 241
-; v. l·ion-Hodgkin lymphoma
Genes, v. Thalassaemia in Southern India
Genetic markers, "African", in Sicilians 174
Genetics, v. Pyrimidine nucleotidase
Globin structural variants, v. Haemoglobin C-I-A
Globin synthesis, v. Anaemia, haemolytic, autoimmune; Thalassaemia, α-thalassaemia
Glutamyl transpeptidase; L-γ-glutamyl transpeptidase activity in normal and leukemic leukocytes 132
Granulocyte reserve of bone marrow, defect in rheumatic diseases evaluated with etiocholanolone 13
Granulocytes from chronic myeloid leukaemia, agglutination by con-canavalin A 211
Granulocytes, neutrophil; neutrophil chemiluminescence during the first month of life 326
Granulocytic and erythroid repopulating ability of rat bone marrow, effect of daily administration of cytotoxic drugs 252
Granulocytosis, v. Lithium treatment
Graves' disease; thrombocytopenia in Graves' disease; effect of T3 on platelet kinetics 185
Guinea pig erythrocytes, v. Isopycnic centrifugation
Hämatologie 59 (B)
Hämatologie; Praktikum der mikroskopischen Hämatologie (4. Aufl.) 236 (B)
Haematology and urinalysis (Functional medical laboratory technology) 298 (B)
Haemoglobin A, v. Haemoglobin C-I-A
Haemoglobin C-I-A 274
Haemoglobin D Los Angeles, O-β+-thalassaemia, and D-/α-thalas-saemia (A report of two Canadian families) 151
Haemoglobin D, v. Haemoglobin chain recombination
Haemoglobin F, v. HPFH Negro type
Haemoglobin Genova; a new case of the unstable haemoglobin Genova (α21%/280I/O) Leu Pro in Canada: As a result of sporadic mutation and causing Heinz body haemolytic anaemia 222
Haemoglobin H inclusion bodies, v. Thalassaemia, α-thalassaemia
Haemoglobin Hasharon [α2α7-(CD5) Asp*-His] linked to α-thalassemia in northern α/β carriers (Hematological and biosynthetic studies) 305
Haemoglobin I, v. Haemoglobin C-I-A
Haemoglobin O Arab; human haemoglobins and haemoglobinopa-thies in Arabia: Hb O Arab in Saudi Arabia 268
Haemoglobin S in Sicilians (correspondence) 234
Haemoglobin S, v. Haemoglobin chain recombination
Haemoglobin switching, cellular and molecular regulation 297 (B)
Haemoglobin abnormalities, biochemical and clinical aspects 58 (B)
Haemoglobin chain recombination and the pattern of composition of haemoglobin S and D in hetero-zygotes 94
Haemoglobinuria, nocturnal, paroxysmal, HLA antigens 52
Haemolysis, v. Autohaemolysis
Haemolytic anaemia, v. Anaemia, haemolytic
Haemostasis and thrombosis, progress (Vol. 4) 58 (B)
Haemostasis, v. Factor VII
Heinz body haemolytic anaemia, v. Haemoglobin Genova
Hematology and urinalysis (Functional medical laboratory technology) 298 (B)
Hematology, v. Hämatologie (B)
Hemol..., v. Hae... Hemoglobin abnormalities, biochemical and clinical aspects 58 (B)
Hemoglobin switching, cellular and molecular regulation 297 (B)
Hemoglobin, v. Haemoglobin
Hemostasis and thrombosis, progress (Vol. 4) 58(B)
Hem..., v. Haem... Hereditary methemoglobinemia; NADH-cytochrome b5 reductase in platelets and leukocytes with special reference to normal levels and to levels in carriers of hereditary methemoglobinemia with or without neurological symptoms 7
Hereditary ovalocytosis and splenic rupture 292
Hereditary persistence of fetal hemoglobin, v. HPFH Negro type
Hereditary spherocytosis, v. Sphero-cytosis
Subject Index
348
Histology and cytology (Functional medical laboratory technology) 176 (B)
HLA antigens in paroxysmal nocturnal hemoglobinuria 52
Hodgkin’s disease; Burkitt’s lymphoma occurring 6 years after Hodgkin’s disease 330
- lack of correlation between skin reactivity and T lymphocytes and monocytes in Hodgkin’s disease 286
HPFH (= Hereditary persistence of fetal haemoglobin) Negro type; analysis of the \( \gamma \)-chains in a homozygote for HPFH Negro type and in three related heterozygotes 146
Human erythrocytes, v. Erythrocytes human
Human leukocytes, \( \gamma \)Te labelled (An in vitro functional study) 71
Human plasma erythropoietin, v. Erythropoietin
Hybrid haemoglobin, v. Haemoglobin C-A
Hygammaglobulinaemia, v. Sub-population of lymphocytes
\( \text{IgG (IgM), v. Fc } \gamma \text{ and Fc } \mu \text{ receptors} \)
Immunocytological determinations, v. Sézary syndrome
Immunodeficiency, v. Subpopulation of lymphocytes
Immunoglobulin, double monoclonal, v. Non-Hodgkin lymphoma
Immunoglobulins, v. Gammopathy
Immunologic monitoring of the transplant patient 59 (B)
Immunologic dysfunction in sickle cell anaemia 156
Immunologie (Ein Nachschlage-werk) (2. Aufl.) 59 (B)
Immunology, serology and blood banking (Functional medical laboratory technology) 176 (B)
Immunosorbent assay; enzyme-linked immunosorbent assay for the indirect anti-human globulin test 124
Immunosuppressive agent, v. Chlor-ambucil
Immunosuppressive therapy, v. Anaemia, haemolytic, autoimmune
India, Southern India; thalassaemia in Southern India (Interaction of genes (for \( \beta^+\)- and \( \delta^+\)-thalassaemia) 44
Infants, v. Chemiluminescence
Intermittent-flow centrifugation leukapheresis, effect on donor leukocyte counts 128
Internistische Krebstherapie (2. Aufl.) 342(B)
Iron absorption, effect of thiamphenicol 289
Iron overload, basic mechanisms and treatment, symposium (Lady Davis Institute for Medical Research – Jewish General Hospital) (Montreal, August 16, 1980) 300
Isoenzyme variants of nonspecific esterases in chronic myelocytic leukemia and in blastic crisis 321
Isopycnic centrifugation of human, pigeon and guinea pig erythrocytes 312
Italy, northern Italy; hemoglobin Hasharon \( \text{C}1247(\text{CD5})\text{Asp} -\text{His} \text{a}1\) linked to \( \alpha \)-thalassemia in northern Italian carriers (Hematological and biosynthetic studies) 305
Japanese family, v. Fitzgerald factor (deficiency)
Kindreds, two, with genetically induced deficiencies of erythrocyte pyrimidine nucleotidase, additional data 262
Krebstherapie, internistische (2. Aufl.) 342(B)
Lamellar bodies, unusual, associated with human platelets, ultrastructural observations 162 Leukaemia, acute, after exposure to
a weed killer, 2-methyl-4-chlorophenoxyacetic acid 170
Leukaemia, lymphocytic, chronic; response to therapy as prognostic factor in chronic lymphocytic leukaemia 217
\( Fc \gamma \) and \( Fc \mu \) receptors in B cell neoplasms (Correlation to the development stages) 247
Leukaemia, lymphoid, chronic (Clinical observations about its natural progression) 19
Leukaemia and lymphoma 297 (B)
Leukaemia and lymphoma; causes of death in leukaemia and lymphoma with modern treatment 61
Leukaemia, monoblastic, acute; normal levels of antithrombin III in acute leukaemia complicated by coagulopathy 336
Leukaemia, myeloblastic, acute, after prolonged chlorambucil treatment for non-malignant disease: report of a new case and literature survey 283
Leukaemia, myelocytic, chronic; isoenzyme variants of nonspecific esterases in chronic myelocytic leukaemia and in blastic crisis 321
Leukaemia, myeloid, acute, analysis of 75 cases according to the FAB (= French-American-British) classification 317
Leukaemia, myeloid, acute, development during lithium treatment 172
Leukaemia, myeloid, chronic; agglutination of granulocytes from chronic myeloid leukaemia by concanavalin A 211
\( \eta \); cyclic oscillations in leukocyte count 68
Leukaemia, occupational, v. Leukaemia, acute (exposure to a weed killer)
Leukaemia; plasma cell leukaemia (Diagnostic problems in our experience with 11 cases) 136
Leukaemia, plasma cell leukaemia, v. \( Fc \gamma \) and \( Fc \mu \) receptors
Leukaemias, acute (Clinical monographs in hematology) 342 (B)
Subject Index 349

Leukaemic leukocytes; L-\( \gamma \)-glutamyl transpeptidase activity in normal and leukemic leukocytes 132
Leukapheresis; effect of intermittent-flow centrifugation leukapheresis on donor leukocyte counts 128
Leukemia and lymphoma 297 (B)
Leukemias, acute (Clinical monographs in hematology) 342 (B)
Leukemia(s), v. Leukemia(s)
Leukocyte count, cyclic oscillations, in chronic myeloid leukemia 68
-; v. Leukapheresis
Leukocytes; NADH-cytochrome \( b_5 \) reductase in platelets and leukocytes with special reference to normal levels and to levels in carriers of hereditary methemoglobinemia with or without neurological symptoms 7
Leukocytes, human, \( \beta \beta \)-\( \varepsilon \)Tc labelled (An in vitro functional study) 71
Leukocytes, leukemic; L-\( \gamma \)-glutamyl transpeptidase activity in normal and leukemic leukocytes 132
Leukocytes in mixed leukocyte culture, defective stimulating capacity, in constitutional aplastic anemia caused by suppressor T cells (A case study) 81

Leukocytes, v. Platelets NADH-cytochrome b5 reductase

Light chain (A) disease, v. Bence Jones benign gammopathy

Lithium treatment; development of acute myeloid leukaemia during lithium treatment 172

Liver cirrhosis; palmitic acid transport in platelets of normal subjects and of patients with liver cirrhosis 2

Liver erythroblasts (embryonic mouse), v. Erythropoietin

Lymphocyte subpopulations, v. Subpopulation of lymphocytes

Lymphocyte (symposium), v. Red Cross

Lymphocytes, v. B lymphocytes, Platelets NADH-cytochrome b5 reductase; T lymphocytes

Lymphoma; non-Hodgkin lymphoma associated with double monoclonal immunoglobulin 49

Lymphoma and leukemia; causes of death in leukemia and lymphoma with modern treatment 61

Lymphoma and leukemia 297 (B)

Lymphoproliferative disorders, v. Fc γ and Fc μ receptors

Macroglobulinaemia, v. B cell neoplasms

Malignant plasma cell dyscrasias, v. Plasma cell leukaemia

Megaloblastic haemopoiesis, v. Vitamin B12 deficiency

Methemoglobinemia, v. Hereditary methemoglobinemia

2-Methyl-4-chlorphenoxyacetic acid (weed killer), v. Leukaemia, acute

Mikroskopische Hämatologie, Praktikum (4. Aufl.) 236 (B)

Mithramycin, influence on some platelet functions in vitro 101

Mitogens, v. Subpopulation of lymphocytes

Mixed leukocyte culture, v. Leukocytes in mixed leukocyte culture

Molecular and cellular regulation, v. Haemoglobin switching... (B)

Monoclonal gammopathy, double, v. Non-Hodgkin lymphoma

Monocytes, v. Skin reactivity

Mouse, embryonic liver erythroblasts, v. Erythropoietin (determination)

Multiple myeloma, v. Myeloma, multiple

Mutation, sporadic, v. Haemoglobin Genova

Myeloma, multiple, treatment 237

Myoma; cryopathic haemolytic anaemia associated with uterus myomatous 235

NADH(-Nicotineamide-adenine-dinucleotide, reduc. form)-cyto-chrome b5 reductase in platelets and leukocytes with special reference to normal levels and to levels in carriers of hereditary methemoglobinemia with or without neurological symptoms 7

Neurological symptoms, v. Hereditary methemoglobinemia

Neutrophils, v. Granulocytes, neu-trophil

Non-Hodgkin lymphoma associated with double monoclonal immunoglobulin 49

Non-smokers, v. Smokers

Nucleic acids, precursors; incorporation of radioactive precursors into the nucleic acids of bone marrow cells from patients with vitamin B12 or folate deficiency 196

Null lymphocytes, v. Sézary syndrome

Oscillations, cyclic, in leukocyte count in chronic myeloid leukemia 68

Ovalocytosis, hereditary, and splenic rupture 292

Palmitic acid transport in platelets of normal subjects and of patients

Subject Index

350

Plasma and erythrocyte lipids in terminal renal insufficiency 117
Plasma erythropoietin, human, v. Erythropoietin
Plasma proteins 299 (B)
Plasminogen levels in subjects with eosinophilia 114
Platelet function (aggregation, adhesivity); effect of aspirin and aspirin lysinate on platelet function in smokers and non-smokers 177
Platelet functions, some, in vitro, influence of mithramycin 101
Platelet kinetics; thrombocytopenia in Graves’s disease: effect of T3 on platelet kinetics 185
Platelets; NADH-cytochrome b5 reductase in platelets and leukocytes with special reference to normal levels and to levels in carriers of hereditary methemoglobinemia with or without neurological symptoms 7
-; palmitic acid transport in platelets of normal subjects and of patients with liver cirrhosis 2
-; ultrastructural observations on some unusual lamellar bodies associated with human platelets 162
-; v. Thrombozytenfunktionsteste (B)
Polyamines, effect on autohemolysis: studies on normal and thalassemic children 226
Praktikum der mikroskopischen Hämatologie (4. Aufl.) 236 (B)
Pregnancy; in vitro autohaemolysis during pregnancy 301
Prognosis, v. Leukaemia, lymphocytic, chronic
Progress in hemostasis and thrombosis (Vol. 4) 58 (B)
Proteins, Plasma proteins 299 (B)
Prothrombin complex factors, congenital variants 339
Pyrimidine nucleotidase; additional data from two kindreds with genetically induced deficiencies of erythrocyte pyrimidine nucleotidase 262
Radiotherapy-chemotherapy (Hodgkin’s disease), v. Burkitt’s lymphoma
Receptors for Fcγ and Fcμ, v. Fcγ and Fcμ receptors
Red Cross; American Red Cross, twelfth annual scientific symposium entitled ‘The lymphocyte’ (Washington DC, May 6-7, 1980) 236
Renal insufficiency, terminal, erythrocyte and plasma lipids 117
Repopulating ability (bone marrow), Cytotoxic drugs
Rheumatoid arthritis; defect of bone marrow granulocyte reserve in rheumatic diseases, evaluated with etiocholanolone 13
RNA synthesis, v. Bone marrow cultures
Sardinian α-thalassaemia, v. Thalassaemia, α-thalassaemia
Saudi Arabia, v. Haemoglobin O Arab
Septicemia, v. Leukaemia and lymphoma
Serology, immunology and blood banking (Functional medical laboratory technology) 176 (B)
Serum, foreign; erythropoietic changes effected by foreign serum in the mouse 257
Sézary syndrome; immunocytochemical and cytochemical variability of Sézary cells 55
Sicilians; ‘African’ genetic markers in Sicilians 174
-, v. Haemoglobin S
Sickle cell anaemia, immunologic dysfunction 156
Sickle-cell erythrocytes, v. Isopycnic centrifugation
Skin reactivity; lack of correlation between skin reactivity and T lymphocytes and monocytes in Hodgkin’s disease 286
Smokers; effect of aspirin and aspirin lysinate on platelet function in smokers and non-smokers 177
Spherocytosis, hereditary; transient aplastic crisis in hereditary spherocytosis 28
Splenectomy; autoimmune antibodies after splenectomy 230
Splenec rupture and hereditary ovalocytosis 292
Sporadic mutation, v. Haemoglobin Genova
Statistics; Clinical laboratory statistics (2nd ed.) 296 (B)
Subpopulation of lymphocytes with T and B cell characteristics (Observations on two different cases of immunodeficiency) 88
Superoxide dismutase, v. Autohaemolysis
Suppressor T cells, v. Splenectomy, T lymphocytes (suppressor cells)
Surgical trauma; relationship between the blood and vein wall fibrinolytic activities in response to surgical trauma 191
T3 (=Triiodothyronine); thrombocytopenia in Graves’ disease: effect of T3 on platelet kinetics 185
99mTc labelled human leukocytes (An in vitro functional study) 71
Thalassaemia, α-thalassaemia; hematological characteristics of Sardinian α-thalassaemia carriers, detected in a population study 32
-, hemoglobin Hasharon [α47-(CD5) Asp > – His β2] linked to α-thalassemia in northern Italian carriers (Hematological and bio-synthetic studies) 305
-, v. Haemoglobin O Arab
Thalassaemia, Î±-thalassaemia; Î±-thalassaemia complicated by autoimmune hemolytic anemia (Globin synthesis during immunosuppressive therapy) 37
Thalassaemia; haemoglobin D Los Angeles, D-δ-thalassaemia, and D-Î±-thalassaemia (A report of two Canadian families) 151
Thalassaemia in Southern India
Subject Index
351

(Interaction of genes for α+/α-, βo-, and δ+g/Î±-thalassaemia) 44
Thalassaemic (α-thalassaemic) children; effect of polyamines on autohaemolysis: studies on normal and thalassaemic children 226
Therapy, v. Cancer research; (Chlor-ambucil); Cytotoxic drugs; Death; Immunosuppressive therapy; Krebstherapie (B); Leukaemia, lymphocytic, chronic; (Lithium); (Mithramycin); Myeloma; Radiotherapy; (Thiamphenicol); (T3)
Thiamphenicol, effect on iron absorption 289
Thyrotoxicosis, v. Graves’ disease
Thrombocyte(s), v. Platelet(s)
Thrombocytopenia in Graves’ disease: effect of T3 on platelet kinetics 185
Thrombosis and hemostasis, progress (Vol. 4) 58 (B)
Thrombosis, recurrent, in a patient with factor XII deficiency 278
Thrombozytenfunktionsteste, Präzisierung und Anwendung in der Kinderheilkunde (Forschungsberichte der Landes Nordrhein-Westfalen Heft 2788/Fachgruppe Medizin) 298 (B)
T lymphocytes, a subpopulation of lymphocytes with T and B cell characteristics (Observations on two different cases of immunodeficiency) 88
- v. Sézary syndrome, Skin reactivity
T lymphocytes (suppressor cells); defective stimulating capacity of leukocytes in mixed leukocyte culture in constitutional aplastic anemia caused by suppressor T cells (A case study) 81
Transient aplastic crisis in hereditary spherocytosis 28
Transplant patient; immunologic monitoring of the transplant patient 59 (B)
Transplantation antigens. A study in serological data analysis 296 (B)
Transport of palmitic acid, v. Platelets
Treatment of multiple myeloma 237
Triiodothyronine, v. T3
Tumors, v. Cancer research (B), Krebstherapie (B)
Ultrastructural observations on some unusual lamellar bodies associated with human platelets 162
Ultrastructure, v. Lamellar bodies (platelets), Plasma cell leukaemia, Sézary syndrome, ββ™Te labelled human leukocytes
Unstable haemoglobin, v. Haemoglobin Genova
Uremia, v. Renal insufficiency (terminal)
Urinalysis and hematology (Functional medical laboratory technology) 298 (B)
Variants, v. Prothrombin
Vein wall, v. Fibrinolytic activity (response to surgical trauma)
Vitamin B12 deficiency; incorporation of radioactive precursors into the nucleic acids of bone marrow cells from patients with vitamin B12 or folate deficiency 196
