Subject Index

Compiled: G. Boehm, Basel (B) = Book Reviews

Abdominal and mastoid pain, v. Pernicious anaemia
Abnormal haemoglobins, v. Haemoglobinopathies
Abnormal hemoglobins, unstable, v. Unstable abnormal new hemoglobin, Unstable haemoglobin Genova
Achlorhydria, v. Pernicious anaemia
Acid phosphatase; diagnostic value of leukocytic acid-phosphate iso-enzymes in determining cytologic-al types of non-lymphoid acute leukaemias 85 -; v. Uraemic patients
Actomyosin of platelets, v. Thrombocytopoiesis
Adenosine diphosphate, v. Aggregation of platelets
Adenosine monophosphate, cyclic, v. Cyclic adenosine monophosphate
Afbirinogenaemia, v. Jordan
Africa, v. East African family
Agglutinin; cold agglutinin disease and heterozygous 2-thalassaemia in a Surinam man 235
Aggregation of platelets; human platelet aggregation curve and oral contraception 230
Aggregation of platelets and retinal microangiography in diabetes and hypertension 161
Alkaline phosphatase, v. Uraemic patients
Alkaline phosphatase, neutrophil, v. Marker chromosomes
Allografts, renal; thrombocytopenic episodes in patients with well functioning renal allografts (Inverse relationship between platelet count and platelet size pointing to intermittent platelet destruction) 2
Alpha chain, v. Globin chain synthesis, Hemoglobin Moabit
Alpha chain loci, v. Haemoglobin Norfolk
Alpha-thalassaemia, v. Haemoglobin Bart’s
Amidopyrine pancytopenia: detection of leukocytotoxic antibodies by a 51Cr-release test 52
Anaemia; congenital Heinz body haemolytic anaemia, v. Haemoglobin Moabit
Anaemia, haemolytic, congenital, non-spherocytic; idenfication of an erythrocyte pyruvate kinase variant in a family from Latium with non-spherocytic congenital haemolytic anaemia 288
Anaemia, iron deficiency, v. Iron deficiency, Microchromatography
Anaemia, macrocytic, spurious 57
Anaemia, pernicious, in an eleven-year-old male 175
-; v. Platelet dysfunction
Anaemia; screening for anaemia in a middle-aged population in Southwest Finland 106
Anaemia, sickle cell anaemia; 33In chloride bone marrow scintigraphy and ferrokinetic studies in a case of sickle cell anaemia with transient erythroid aplasia 330
Subject Index

and cold agglutinin disease in a Surinamic man 235
Beta-thalassemia, homozygous, v. Auditory involvement
Beta-thalassemia major; reticuloendothelial phagocytic function in children with β-thalassemia major 283
Beta-thalassemia in Sicily (Acta haemat. 60: 193 [1978]), correspondence 339
Beta-thalassaemia, trait, v. Hemoglobin A2
Biosynthetic studies and γ-chain composition in the Greek type of hereditary persistence of fetal hemoglobin and its association with β-thalassemia 272
Bladder, v. Marker chromosomes
Blastic transformation v. Y chromosome duplication
Blasts of bone marrow, v. Bone marrow blasts
Bleeding syndromes, inherited, in Jordan 47
Blood coagulation, v. Bleeding syndromes, Gaucher’s disease, Haemophilia (B), Haemostasis (B), Hémophiles, Hemostasis (B)
Blood club, mediterranean, 3rd meeting (April 11-15, 1979; Antalya [Turkey]) 60
Blood counts; differential blood counts from cell contrates (A comparison with routine differential blood counts) 150
Blood groups, v. Blutgruppensero-logie (B)
Blutgruppenserologie; Leitfaden der Hämatologie und Blutgruppenserologe 340(B)
B lymphocytes, surface markers, v. Sézary syndrome
Bone marrow blasts; drug-induced kinetic perturbations of the marrow blasts in acute leukemia. Effect of the daunorubicin, cytosine arabinoside and 6-thioguanine combination 237
Bone marrow cells; erythroid re-populating ability of bone marrow cells in polycythaemic mice 258
Bone marrow culture, v. Granulocyte precursors
Bone marrow (rabbit); early increase of cyclic adenosine monophosph-ate level induced by erythro-poietin on rabbit bone marrow cell suspensions 251
Bone marrow scintigraphy; In chloride bone marrow scintigraphy and ferrokinetic studies in a case of sickle cell anemia with transient erythroid aplasia 330
Bone marrow suppression; drug-induced kinetic perturbations of the marrow blasts in acute leukemia. Effect of the daunorubicin, cytosine arabinoside and 6-thioguanine combination 237
Bone marrow transplantation for acute leukemia using a histocom-patible paternal donor 80
Bone marrow, v. Extramedullary plasmacytoma
Book reviews 120 (B), 340 (B)
Brothers, two, homozygous for haemoglobin Lepore, v. Haemoglobin Lepore
Calabria, v. Italian family
cAMP, v. Cyclic adenosine mono-phosphate
Carcinoma, v. Duodenal plasmacytoma
Cation exchange chromatography, v. Hemoglobin A
Cell concentrate films; differential blood counts from cell concentrates (A comparison with routine differential blood counts) 150
Cell cultures, v. Chalone effect, Granulocyte precursors, Granulo-poiesis, Protein synthesis
Cell kinetics, v. Drug-induced kinetic perturbation...
Cell membrane markers, v. Diagnosis of childhood acute lym-pho-blastic leukemia
Chain, α-chain loci, v. Haemoglobin Norfolk
Chains; globin chain synthesis; synthesis of alpha, delta-beta and gamma chains by reticulocytes from two brothers homozygous for haemoglobin Lepore 216
Chains (β-, θ-chains), v. Haemoglobin Bart’s
Chains, θ-chains, composition, v. Fetal hemoglobin
Chalone effect; evidence for a rat granulocyte chalone effect on the proliferation of normal human bone marrow and of myeloid leukemias 130
Chediak-Higashi anomaly, v. Pseudo-Chediak-Higashi anomaly
Chemotherapy, v. Leukemia, non-lymphocytic, acute; Pregnancy (leukaemia)
Childhood acute lymphoblastic leukemia, diagnosis, use of specific antisera against leukemia-associated antigens 177
-; v. Pernicious anaemia

Children; reticuloendothelial phagocytic function in children with $\beta$-thalassemia major 283
Children (with iron deficiency anaemia), v. Myeloperoxidase

Chromatography, v. Haemoglobin Lepore, Hemoglobin A$^\text{c}$, Micro-chromatography
Chromogenic substrates, use in studies of haemostatic mechanism. Synthetic substrates and synthetic inhibitors. (Haemostasis, Vol. 7, Nr. 2-3 1978) 340 (B)

Chromosomes; marker chromosomes, clonal evolution in a case of myelofibrosis with myeloid metaplasia and myeloblastic transformation 301
-; Y chromosome duplication: a minor route evolutive pattern in chronic myelocytic leukaemia 310
-; v. Sézary syndrome

Circulating anticoagulant in patients with Gaucher$^\text{d}$ disease? 233
Cirrhosis; hepatic cirrhosis, v. Cryoglobulinemia, Folate binding...

Clonal evolution of marker chromosomes in a case of myelofibrosis

Subject Index

345

with myeloid metaplasia and myeloblastic transformation 301
Clonal evolution, v. Y chromosome duplication

Clonal leukemia cells, syngeneic, v. Syngeneic clonal acute myelogenous leukemia cells

Coagulation of blood, v. Bleeding syndromes, Gaucher$^\text{d}$ disease, Haemophilia (B), Haemostasis (B), Hémophiles, Hemostasis (B)

Cold agglutinin disease and heterozygous $\beta$-thalassaemia in a Surinamic man 235

Colony-stimulating factor, v. Granulocyte precursors

Complement, v. Cryoglobulinemia

Congenital haemolytic anaemia, non-spherocytic; identification of an erythrocyte pyruvate kinase variant in a family from Latium with non-spherocytic congenital haemolytic anaemia 288

Congenital Heinz body hemolytic anaemia, v. Hemoglobin Moabit

Contraception, oral; human platelet aggregation curve and oral contraception 230

Cooperative study on aplastic and refractory anemias, results 325

Course; fourth annual ‘Advanced Institute in Methods of Immuno-logical Diagnosis’ (Bloomfield Hills, Mich. June 17-23, 1979) 236
-; postgraduate course in genetic red blood cell defects (San Francisco, March 9-10, 1979) 236

$^{51}$Cr-release test; amidopyrine pan-cytopenia: detection of leukocyto-toxic antibodies by a $^{51}$Cr-release test 52

Cryoglobulinemia; a long term follow-up study in essential cryoglobulinemia 93

Cryopreservation of stimulating $\text{Mo}$-nonuclear cells: A modified assay for studies of cultured granulocyte precursors 243

Crystal violet, v. Heinz body formation

$^{14}$C-serotonin, v. Platelet serotonin release
Cyanocobalamine, v. Vitamin B12
Cyclic adenosine monophosphate; early increase of cyclic adenosine monophosphate level induced by erythropoietin on rabbit bone marrow cell suspension
Cytogenetic findings, unusual, in a case of Sézary syndrome with non-rosetting cells
Cytosine arabinoside; drug-induced kinetic perturbations of the marrow blasts in acute leukemia. Effects of the daunorubicin, cytosine arabinoside and 6-thioguanine combination
Daunorubicin; drug-induced kinetic perturbations of the marrow blasts in acute leukemia. Effects of the daunorubicin, cytosin arabinoside and 6-thioguanine combination
Delta beta thalassemia; hematological and hemoglobin synthesis studies in a family with \(<\frac{3}{4}\text{-thala-s} \text{-semia trait}\)
-; homozygous, in a Spanish woman
Delta-beta chains, v. Globin chain synthesis
Desoxyribonucleic acid, v. DNA
Diabetes mellitus, v. Hemoglobin A\(_c\)
Diabetic retinopathy; platelet aggregation and retinal microangiography in diabetes and hypertension
Diagnosis of childhood acute lymphoblastic leukemia, use of specific antisera against leukemia-associated antigens
Diagnostic value of leukocytic acid-phosphatase isoenzymes in determining cytological types of non-lymphoid acute leukaemias
Dialysis treatment, v. Uraemic patients
Differential blood counts from cell concentrates (A comparison with routine differential blood counts)
Diffusion chambers; suppression of granulopoiesis in diffusion chambers by syngeneic clonal acute myelogenous leukemia cells or peritoneal exudate macrophages
DNA (= Desoxyribonucleic acid) antibodies, v. Cryoglobulinemia
Donor, paternal, v. Histocompatibility
Drug-induced kinetic perturbations of the marrow blasts in acute leukemia. Effects of the daunorubicin, cytosine arabinoside and 6-thioguanine combination
Duodenal plasmacytoma (A rare primary extramedullary localization simulating a carcinoma)
Ear; auditory involvement in thalassemia major
East African family (Kenya); unstable haemoglobin Genova (P28Leu\(_{\epsilon} \rightarrow \text{Pro}\)) in an East African family (Family study and the effect of splenectomy)
Editorial note (‘To our readers’) 1
Electrophoresis, v. Acid phosphatase, Haemoglobin Bart’s, Hemoglobin A\(_c\), Hemoglobin Moabit, Microchromatography, Plasmacytoma
Electron microscopy (transmission electron microscopy), v. Hairy cells, Pseudo-Chediak-Higashi anomaly
Embryonic mouse liver, v. Erythroid precursors
Enzymatic activities and NBT (= ni-tro blue tetrazolium) reduction test of granulocytes in untreated and dialysed uremic patients
Enzyme erythropathy, v. Pyruvate kinase variant
Subject Index

Eosinophilic acquired Pelger-Huët anomaly in acute myeloblastic leukemia (Acytochemical study) 198

Erythrocyte pyruvate kinase variant, identification in a family from Latium with nonspherocytic congenital haemolytic anaemia 288
Erythrocytes, acquired abnormalities; chronic myelomonocytic leukemia associated with hereditary pyruvate kinase deficiency and multiple acquired erythrocyte abnormalities 168
-; spectrophotometric method applicable to in vitro studies of Heinz body formation in erythrocytes 222
-; v. Red cell...
Erythroenzymopathies, acquired, v. Erythrocytes, acquired abnormalities
Erythroid aplasia, transient; In chloride bone marrow scintigraphy and ferrokinetic studies in a case of sickle cell anemia with transient erythroid aplasia 330
Erythroid precursors; increased RNA and heme synthesis in mouse erythroid precursors by parathyroid hormone 125
Erythroid repopulating ability of bone marrow cells in polycythaemic mice 258
Erythropathy, enzyme erythropathy, v. Pyruvate kinase variant
Erythropoiesis, v. Chalone effect, Erythropoietin
Erythropoietic aplastic crisis, v. Erythroid aplasia, transient
Erythropoietin; early increase of cyclic adenosine monophosphate level induced by erythropoietin on rabbit bone marrow cell suspensions 251
Essential cryoglobulinemia; a long term follow-up study in essential cryoglobulinemia 93
Extramedullary plasmacytoma, v. Plasmacytoma
Family; biosynthetic studies and y-chain composition in the Greek type of hereditary persistence of fetal hemoglobin and its association with ?-thalassemia 272
Family {East African, Kenya); unstable haemoglobin Genova (?28Leu- > ?Pro) in an East African family (Family study and the effect of splenectomy) 278
Family; homozygous delta-beta-thalassaemia in a Spanish woman 226
Family from Latium; identification of an erythrocyte pyruvate kinase variant in a family from Latium with non-spherocytic congenital haemolytic anaemia 288
Family; occurrence of haemoglobin Norfolk (c?δf < 80> > TMye > -Aα > ?Eh) at the level of 33% in an Italian family from Calabria 39
Family {Basque-Spanish), v. Delta/beta thalassaemia
59Fe-labelled transferrin of high radioactivity, preparation for ferrokinetic studies on small laboratory animals 55
Ferments, v. Acid phosphatase, Enzymatic activities (uraemic patients), Myeloperoxidase, Pyruvate kinase deficiency, Pyruvate kinase variant, Terminal deoxy-nucleotidyl transferase
Ferritin, v. Thalassemia major
Ferrokinetic studies; In chloride bone marrow scintigraphy and ferrokinetic studies in a case of sickle cell anemia with transient erythroid aplasia 330
Ferrokinetic studies on small laboratory animals, preparation of $^{59}$Fe-labelled transferrin of high radioactivity 55
Fetal hemoglobin, biosynthetic studies and $\alpha$-chain composition in the Greek type of hereditary persistence of fetal hemoglobin and its association with $\delta$-thalassemia 272
Films of cell concentrates, v. Differential blood counts
Finland; screening for anaemia in a middle-aged population in Southwest Finland 106
Folate binding capacity of the serum in leukemias, liver diseases and pregnancy 203
France, v. Association Française...
Gamma chains, v. Fetal hemoglobin, Globin chain synthesis, Haemoglobin Bart's
Gammopathy, monoclonal, v. Plasmacytoma
Gaucher disease; circulating anticoagulant in patients with Gaucher's disease? 233
Genetic red cell defects, v. Postgraduate course
Genetics, v. Delta beta thalassemia, Family...
Globin chain synthesis, v. Fetal hemoglobin, Globin chain synthesis, Haemoglobin Bart's
Globin synthesis, v. Biosynthetic studies
Glycosylated hemoglobin, v. Hemoglobin Aic
Graft-versus-host reaction, v. Bone marrow transplantation
Grafts, v. Renal allografts
Granulocyte chalone; evidence for a rat granulocyte chalone effect on the proliferation of normal human bone marrow and of myeloid leukemias 130
Granulocyte precursors, cultured; a modified assay for studies of cultured granulocyte precursors; Cryopreservation of stimulating mononuclear cells 243
Granulocytes, human, v. Protein
Subject Index
347
synthesis (effect of hemin and pro-toporphyrin IX)
Granulocytes in untreated and dialysed uraemic patients, enzymatic activities and NBT (= nitro blue tetrazolium) reduction test 144
Granulocytopenia, oxacillin-induced 59
Granulocytopoiesis, v. Chalone effect
Granulopoiesis, suppression, in diffusion chambers by syngeneic clonal acute myelogenous leukemia cells or peritoneal exudate macrophages 317
Greek type of hereditary persistence of fetal hemoglobin, v. Fetal hemoglobin
Haematological and haemoglobin synthesis studies in a family with $\frac{1}{2}\delta$-thalassaemia trait 27
Hämatologie; Leitfaden der Hämatologie und Blutgruppenserologie 340 (B)
Haematopoietic elements (bladder), v. Marker chromosomes
Haeme and RNA synthesis, increased, in mouse erythroid precursors by parathyroid hormone 125
Haemin and protoporphyrin IX; effect on the protein-synthesizing activity of human granulocytes, lymphocytes and platelets 138
Haemoglobin A in human and baboon blood, comparison 334
Haemoglobin A2 determination, evaluation of a simplified micro-chromatographic technique 15
Haemoglobin Bart’s and its significance in the South African negro 33
Haemoglobin Bart’s in newborn Tanzanians 144
Haemoglobin, fetal; biosynthetic studies and y-chain composition in the Greek type of hereditary persistence of fetal hemoglobin and its association with ?-thalassemia 272
Haemoglobin fetal v. Haemoglobins Istanbul...
Haemoglobin Genova (unstable) (F28Leu-? Pro) in an East African family (Family study and the effect of splenectomy) 278
Haemoglobin Lepore; synthesis of alpha, delta-beta and gamma chains by reticulocytes from two brothers homozygous for haemoglobin Lepore 216
Haemoglobin Moabit: alpha 86(F7) Leu-?Arg (A new unstable abnormal haemoglobin) 121
Haemoglobin Norfolk (a257 < E6 > ? 1y > ? asp) % occurrence at the level of 33% in an Italian family from Calabria 39
Haemoglobinopathies, v. Fetal haemoglobin, (Haemoglobin A2), Haemoglobin Bart’s, Haemoglobin Genova, Haemoglobin Lepore, Haemoglobin Moabit, Haemoglobin Norfolk, Haemoglobins Istanbul and Saint-Etienne, Thalassemia
Haemoglobin oxidation, v. Heinz body formation
Haemoglobin synthesis; haematological and haemoglobin synthesis studies in a family with ½S-thalas-saemia trait 27
Haemoglobins Istanbul and Saint-Etienne (a37492F8 Hist^Gln); differences between individuals with Hb Istanbul and Saint-Etienne 295
Haemolytic anaemia, congenital, non-spherocytic; identification of an erythrocyte pyruvate kinase variant in a family from Latium with non-spherocytic congenital haemolytic anaemia 288
Haemolytic congenital Heinz body anaemia, v. Haemoglobin Moabit
Haemophilia A and B; treatment of haemophilia A and B and von Wi-?lebrand’s disease 120 (B)
Haemophilia, v. Jordan, Hémo-philes
Haemostasis; synthetic substrates and synthetic inhibitors (The use of chromogenic substrates in studies of haemostatic mechanism) (Haemostasis, Vol. 7, No. 2-3, 1978) 340 (B)
-; v. Hemostasis (B)
Hairy cells, structural and functional characteristics 184
Hb A2, v. Hemoglobin A2
Hb Bart’s and its significance in the South African negro 33
Hb F, v. Hemoglobin, fetal
Hb Genova, v. Haemoglobin Genova
Hearing defects, v. Thalassemia major
Heinz body congenital hemolytic anemia, v. Hemoglobin Moabit
Heinz body formation; spectro-photometric method applicable to in vitro studies of Heinz body formation in erythrocytes 222
Hematological and hemoglobin synthesis studies in a family with \(<\frac{1}{2}\) thalassemia trait 27
Heme and RNA synthesis, increased, in mouse erythroid precursors by parathyroid hormone 125
Hemin and protoporphyrin IX, effect on the protein-synthesizing activity of human granulocytes, lymphocytes and platelets 138
Hemoglobin A\(\text{c}\) in human and baboon blood, comparison 334
Hemoglobin A\(\text{2}\) determination, evaluation of a simplified micro-chromatographic technique 15
Hemoglobin, fetal; biosynthetic studies and \(\beta\)-chain composition in the Greek type of hereditary persistence of fetal hemoglobin and its association with \(\alpha\)-thalassemia 272
-; v. Hemoglobins Istanbul...
Hemoglobin Moabit: alpha 86(F7) Leu->Arg (A new unstable abnormal hemoglobin) 121
Hemoglobin synthesis; hematological and hemoglobin synthesis 348
Subject Index

studies in a family with \(<\frac{1}{2}\) thalassemia trait 27
Hemoglobins Istanbul and Saint-Etienne (\(\alpha^2\)292F8 His->Gln); differences between individuals with \(\text{Hb Istanbul and Saint-Etienne} 295
Hemolytic congenital Heinz body anemia, v. Hemoglobin Moabit
Hémophiles; Association Française des Hémophiles, price 60
Hemostasis, disorders of hemostasis in surgery 120(B)
-; v. Haemostasis (B)
Hem... (Hem...), v. Haem...
Hepatic cirrhosis, v. Cryoglobulinemia
Hepatitis, acute, v. Folate binding...
Hereditary persistence of fetal hemoglobin; biosynthetic studies and \(\beta\)-chain composition in the Greek type of hereditary persistence of fetal hemoglobin and its association with \(\alpha\)-thalassemia 272
Hereditary pyruvate kinase deficiency, v. Pyruvate kinase deficiency
Heredopathies, v. Haemoglobino-pathies, Thalassemia
Heterozygous beta-thalassaemia and cold agglutinin disease in a Surinamic man 235
Hexose monophosphate shunt, v. Myeloperoxidase activity
Higashi, v. Chediak-...
Histocompatibility; bone marrow transplantation for acute leukemia using a histocompatible paternal donor 80
Homozygous delta-beta thalassaeemia in a Spanish woman 226
Homozygous for haemoglobin Le-pore; synthesis of alpha, delta-beta and gamma chains form reticuloocytes from two brothers homozygous for haemoglobin Le-pore 216
Hormone, v. Parathyroid hormone
Huët, v. Pelger-...
only effect on the proliferation of normal human bone marrow and of myeloid leukemias 130
Human granulocytes, lymphocytes and platelets; effect of hemin and protoporphyrin IX on the protein-synthesizing activity of human granulocytes, lymphocytes and platelets 138
Human hemoglobin $\text{A}^c$; comparison of hemoglobin $\text{A}^c$ in human and baboon blood 334
Human lymphocytes, v. Human granulocytes
Human peripheral blood, v. Granulocyte precursors
Human platelet aggregation curve and oral contraception 230
Human platelets, v. Human granulocytes
Hyperbeta-lipoproteinemia, v. Platelet serotonin release
Hyperparathyroidism, v. Parathyroid hormone
Hypertensive retinopathy; platelet aggregation and retinal micro-angiography in diabetes and hypertension 161
Ig capping; surface Ig capping, v. Hairy cells
Immunodiffusion, v. Thrombocyto-poiesis
Immunoelectrophoresis, v. Plasmapyto-ma
Immunoglobulins, surface immuno-globulins, v. Hairy cells
Immunological diagnosis; fourth annual 'Advanced Institute in Methods of Immunological Diagnosis', course (Bloomfield Hills, Mich., June 17-23, 1979) 236
Immunoperoxidase, v. Hairy cells
Inclusion bodies, v. Pseudo-C/\(^{-}\)diak-Higashi anomaly
Indium chloride bone marrow scintigraphy and ferrokinetic studies in a case of sickle cell anemia with transient erythroid aplasia 330
Inherited bleeding syndromes in Jordan 47
Ion-exchanger, Dowex-I\(\text{X}-4\)\(^{\circ}\), v. 59Fe-labelled transferrin
Iron deficiency; myeloperoxidase activity and bactericidal function of PMN (=polymorphonuclear leukocytes) in iron deficiency 10
Iron deficiency anaemia, v. Micro-chromatography
Iron overload, v. Thalassemia major
Isoenzymatic pattern of leukocytic acid phosphatase, v. Acid phosphatase
Isoenzymes, v. Acid phosphatase
Isotopes, radioactives, v. Leukocy-totoxic antibodies, Myeloperoxidase, Myocardial infarction, Phagocytosis, Sickle cell anemia, Thrombocyto-poiesis
Italian family; haemoglobin Norr-folk $[\alpha257(B6 > G15')Asp52]$ occurrence at the level of 33% in an Italian family from Calabria 39
Italy, v. Latium
Jordan; inherited bleeding syndromes in Jordan 47
Karyotypes, v. Chromosomes
Kenya, v. East African family
Kidney, v. Renal allografts, Uraemic patients
Laboratory animals, small, v. Ferrokinetic studies
Large platelets, v. Platelet destruction
Latium (Italy); identification of an erythrocyte pyruvate kinase variant in a family from Latium with non-spherocytic congenital haemolytic anaemia 288
Leitfaden der Hämatologie und Blutgruppenserologie 340 (B)
Leukaemia cells; syngeneic clonal acute myelogenous leukaemia cells; suppression of granulo-poiesis in diffusion chambers by syngeneic clonal acute myelogenous leukaemia cells or peritoneal exudate macrophages 317

Leukaemia, hairy cell leukaemia; structural and functional characteristics of hairy cells 184

Leukaemia, lymphoblastic, acute; bone marrow transplantation for acute leukaemia using a histocompatible paternal donor 80

Leukemia-associated antigens in the diagnosis of childhood acute lymphoblastic leukaemia 177

Leukaemia (lymphoblastic, myeloblastic), acute, in pregnancy, two cases 298

Leukaemia, lymphocytic, chronic, v. Leukaemia, hairy cell...

Leukaemia, monoblastic, v. Leukaemias, non-lymphoid

Leukaemia, myeloblastic, acute; eosinophilic acquired Peguer-Huët anomaly in acute myeloblastic leukaemia (A cytochemical study) 198

Leukaemia, myeloblastic, v. Leukaemias, non-lymphoid

Leukaemia, myelocytic, chronic; Y chromosome duplication: a minor route evolutive pattern in chronic myelocytic leukaemia 310

Leukaemia, myelogenous, acute, v. Leukemia cells

Leukaemia, myeloid, acute; pseudo-Chediak-Higashi anomaly in acute myeloid leukaemia (An electron microscopical study) 264

Leukaemia, myeloid, acute and chronic, v. Chalone effect

Leukaemia, myelomonocytic, chronic, associated with hereditary pyruvate kinase deficiency and multiple erythrocyte abnormalities 168

Leukaemia, nonlymphocytic, acute; drug-induced kinetic perturbations of the marrow blasts in acute leukemia. Effects of the daunorubicin, cytosine arabinoside and 6-thioguanine combination 237

Leukemia-associated antigens; use of specific antisera against leukemia-associated antigens in the diagnosis of childhood acute lymphoblastic leukaemia 177

Leukemia cells; syngeneic clonal acute myelogenous leukaemia cells; suppression of granulopoiesis in diffusion chambers by syngeneic clonal acute myelogenous leukaemia cells or peritoneal exudate macrophages 317

Leukemia, hairy cell leukaemia; structural and functional characteristics of hairy cells 184

Leukemia, lymphoblastic, acute; bone marrow transplantation for acute leukaemia using a histocompatible paternal donor 80

Leukemia-associated antigens in the diagnosis of childhood acute lymphoblastic leukemia 177
Leukemia, lymphocytic, chronic, v. Hairy cells
Leukemia, myeloblastic, acute; eosinophilic acquired Pelger-Huet anomaly in acute myeloblastic leukemia (A cytochemical study) 198
Leukemia, myelogenous, acute, v. Leukemia cells
Leukemia, myeloid, acute and chronic, v. Chalone effect
Leukemia, myelomonocytic, chronic, associated with hereditary pyruvate kinase deficiency and multiple acquired erythrocyte abnormalities 168
Leukemia, nonlymphocytic, acute; drug-induced kinetic perturbations of the marrow blasts in acute leukemia. Effects of the daunorubicin, cytosine arabinoside and 6-thioguanine combination 237
Leukemias; serum folate binding capacity in leukemias, liver diseases and pregnancy 203
Leukem..., v. Leukaem...
Leukocytes, polymorphonuclear, v. Polymorphonuclear leukocytes
Leukocytic acid-phosphatase isoenzymes, diagnostic value in determining cytological types of non-lymphoid acute leukaemias 85
Leukocytotoxic antibodies; amido-pyrine pancytopenia: detection of leukocytotoxic antibodies by a 51 Cr-release test 52
Lipoproteinemia, v. Hyperbetalipo-proteinemia
Liver diseases; serum folate binding capacity in leukemias, liver diseases and pregnancy 203
Long-term follow-up study in essential cryoglobulinemia 93
Lymph nod..., primary plasmacytoma of lymph nodes (A case report) 100
Lymphoblastic leukemia, acute; bone marrow transplantation for acute leukemia using a histocompatible paternal donor 80
-; use of specific antisera against leukemia-associated antigens in the diagnosis of childhood acute lymphoblastic leukemia 177
Lymphoblastic (myeloblastic) leukaemia, acute, in pregnancy, two cases 298
Lymphocytes (B and T), v. Sézary syndrome
Lymphocytes, human, v. Protein synthesis (effect of hemin and pro-toporphyrin IX)
Lymphocytic leukemia, chronic, v. Hairy cells
Lymphocytotoxic antibodies, v. Leukocytotoxic antibodies 350
Subject Index

Lymphoma, primary cutaneous, v.
Sézary syndrome Lymphoproliferative disease, v.
Cryoglobulinemia Lysosomes, v. Pseudo-C/β;-/β/β Hi-gashi anomaly
Macrocytic anemia, spurious 57
Macrophages, peritoneal exudate macrophages; suppression of granulopoiesis in diffusion chambers by syngeneic clonal acute myelogenous leukemia cells or peritoneal exudate macrophages 317
Man, v. Human
Marker chromosomes, clonal evolution in a case of myelofibrosis with myeloid metaplasia and myeloblastic transformation 301
Markers, cell membrane markers, v. Diagnosis of childhood acute lymphoblastic leukemia
Mastoid and abdominal pain, v. Pernicious anaemia
Mediastinal mass, v. Plasmacytoma
Mediterranean blood club, 3rd meeting (April 11-15, 1979; Antalya [Turkey]) 60
Meeting, v. Mediterranean...
Methionine (35Se-methionine), v. Thrombocytopenia
Method, v. Heinz body formation, Microchromatography
Mice; erythroid repopulating ability of bone marrow cells in polycythaemic mice 258
-; v. Mouse
Microchromatography, evaluation of a simplified microchromatographic technique for hemoglobin A2 determination 15
Microcystosis, neonatal, v. Haemoglobin Bart’s
Middle-aged population in Southwest Finland, screening for anaemia 106
Monoblastic leukaemia, v. Leukaemias, non-lymphoid
Monoclonal gammopathy, v. Plasmacytoma
Mononuclear cells; a modified assay for studies of cultured granulocyte precursors:
Cryopreservation of stimulating mononuclear cells 243
Mouse: increased RNA and heme synthesis in mouse erythroid precursors by parathyroid hormone 125
-; v. Mice
Mutant erythrocyte pyruvate kinase, v. Pyruvate kinase variant
Multiple myeloma, v. Plasmacytoma
Myeloblastic leukaemia, v. Leukaemias, non-lymphoid
Myeloblastic (lymphoblastic) leukaemia, acute, in pregnancy, two cases 298
Myeloblastic leukaemia, acute; eosinophilic acquired Peiger-Huët anomaly in acute myeloblastic leukaemia (A cytochemical study) 198
Myeloblastic transformation; clonal evolution of marker chromosomes in a case of myelofibrosis with myeloid metaplasia and myeloblastic transformation 301
Myelocytic leukaemia, chronic; Y chromosome duplication; a minor route evolutive pattern in chronic myelocytic leukaemia 310
Myelofibrosis; clonal evolution of marker chromosomes in a case of myelofibrosis with myeloid metaplasia and myeloblastic transformation 301
Myelogenous leukemia, acute, v. Leukemia cells
Myeloid leukaemia, acute; pseudo-Chediak-Higashi anomaly in acute myeloid leukaemia (An electron microscopical study) 264
Myeloid leukaemia, acute and chronic, v. Chalone effect
Myeloid metaplasia; clonal evolution of marker chromosomes in a case of myelofibrosis with myeloid metaplasia and myeloblastic transformation 301
Myeloma, v. Plasmacytoma
Myelomonocytic leukemia, chronic, associated with hereditary pyruvate kinase deficiency and multiple acquired erythrocyte abnormalities 168
-; v. Chalone effect
Myeloperoxidase activity and bactericidal function of polymorpho-nuclear leukocytes in iron deficiency 10
Myocardial infarction, a controlled study of the effect of sulfapyrazone on platelet survival and on platelet-bound $^{14}$C-serotonin release in patients with previous myocardial infarction 68
NBT (= nitro blue tetrazolium) test and enzymatic activities of granulocytes in untreated and dialysed uraemic patients 144
-; v. Myeloperoxidase
Negro, South African; Hb Bart’s and its significance in the South African negro 33
Neonatal microcytosis, v. Haemoglobin Bart’s
Nephritis, v. Cryoglobulinemia
Neutrophil alkaline phosphatase, v. Marker chromosomes
Newborn Tanzanians; haemoglobin Bart’s in newborn Tanzanians 114
Nitroblue tetrazolium test, v. NBT (...)test
Non-lymphocytic (non-lymphoid) acute leukaemias, v. Acid phosphatase, Daunorubicin
Non-rosetting cells; a case of Sézary syndrome with non-rosetting cells and unusual cytogenetic findings 194
Non-spherocytic congenital haemolytic anaemia, v. Haemolytic anaemia
Oral contraception, v. Contraception
Oxacillin-induced granulocytopenia 59
Subject Index 351

Pancreatectomy, v. Baboon
Pancytopenia; amidopyrine pancytopenia: detection of leukocyto-toxic antibodies by a $^{51}$Cr-release test 52
Papio anubis, v. Baboon
Pappenheim, v. Arthur Pappenheim
Parathyroid hormone; increased RNA and heme synthesis in mouse erythroid precursors by parathyroid hormone 125
Paternal donor, v. Histocompatibility
Pelger-Huët anomaly; eosinophilic acquired Pelger-Huët anomaly in acute myeloblastic leukemia (A cytochemical study) 198
Peritoneal exudate macrophages, v. Macrophages, peritoneal...
Pernicious anaemia in an eleven-year-old male 175
Pernicious anaemia, v. Platelet dysfunction
Phagocytosis; reticuloendothelial phagocytic function in children with $^\beta$-thalassemia major 283
Phosphatase, alkaline, neutrophil, v. Marker chromosomes
Phosphatase, v. Acid phosphatase
Plasmacytoma, duodenal (A rare primary extramedullary localization simulating a carcinoma) 155
Plasmacytoma, primary, of lymph nodes (A case report) 100
Platelet aggregation, human platelet aggregation curve and oral contraception 230
Platelet aggregation and retinal microangiography in diabetes and hypertension 161
Platelet autoantibodies, v. Platelet destruction
Platelet destruction; thrombocyto-penic episodes in patients with well-functioning renal allografts (Inverse relationship between platelet count and platelet size pointing to intermittent platelet destruction) 2
Platelet dysfunction, in patients with Vitamin B12 deficiency 75
- v. Jordan
Platelet serotonin release; a controlled study of the effect of sulfinpyrazone on platelet survival and on platelet-bound 14C-serotonin release in patients with previous myocardial infarction 68
Platelet survival; a controlled study of the effect of sulfinpyrazone on platelet survival and on platelet-bound 14C serotonin release in patients with previous myocardial infarction 68
Platelets, human, v. Protein synthesis (effect of hemin and protoporphyrin IX)
Platelets, v. Thrombopoiesis
Polycythemia; erythroid repopulating ability of bone marrow cells in polycythaemic mice 258
Polymorphonuclear leukocytes (= PMN); myeloperoxidase activity and bactericidal function of PMN in iron deficiency 10
Porphyrin, v. Protoporphyrin IX
Postgraduate course in genetic red cell defects (San Francisco, March 9-10, 1979) 236
Pregnancy; serum folate binding capacity in leukemias, liver diseases and pregnancy 203
-; two cases of acute leukaemia in pregnancy 298
Price; Arthur Pappenheim Prize 1978 236
Proliferation kinetics, v. Chalone effect
Protein binding, v. Folate binding
Protein of platelets, v. Thrombopoiesis
Protein synthesis; effect of hemin and protoporphyrin IX on the protein-synthesizing activity of human granulocytes, lymphocytes and platelets 138
Protoporphyrin IX and hemin, effect on the protein-synthesizing activity of human granulocytes, lymphocytes and platelets 138
Pseudo-Chediak-Higashi anomaly in acute myeloid leukaemia (An electron microscopical study) 264
Pseudo-Pelger-Huët anomaly; v. Pelger-Huët anomaly (acquired)
Publisher’s note (‘To our readers’) 1
Pyruvate kinase deficiency; chronic myelomonocytic leukemia associated with hereditary pyruvate kinase deficiency and multiple acquired erythrocyte abnormalities 168
Pyruvate kinase variant; identification of an erythrocyte pyruvate kinase variant in a family from Latium with non-spherocytic congenital haemolytic anaemia 288
Rabbit bone marrow; early increase of cyclic adenosine monophosphate level induced by erythro-poietin on rabbit bone marrow cell suspensions 251
Radio-carbon, v. Myeloperoxidase, Platelet serotonin release
Radio-chrome, v. Hemoglobin Mo-abit, Leukocytotoxic antibodies
Radio-indium, v. Sickle cell anemia
Radio-iron, v. Ferrokinetic studies
Radio-selenium, v. Thrombopoiesis
Rat ascites cells; evidence for a rat granulocyte chalone effect on the proliferation of normal human bone marrow and of myeloid leukemias 130
Rat leukemia; suppression of granulopoiesis in diffusion chambers by syngeneic clonal acute myelogenous leukemia cells or peritoneal exudate macrophages 317
Red cell defects, genetic, v. Postgraduate course
--; v. Erythrocyte(s)
Refractory anemias; results of the cooperative study on aplastic and refractory anemias 325
352
Subject Index
Renal allografts; thrombocytopenic episodes in patients with well-functioning renal allografts (Inverse relationship between platelet count and platelet size pointing to intermittent platelet destruction) 2
Repopulation, v. Erythroid repopulating ability...
Reticulocytes; synthesis of alpha, delta-beta and gamma chains by reticulocytes from two brothers homozygous for haemoglobin Lepore 216
Reticuloendothelial phagocytic function in children with β-thalassemia major 283
Retinal microangiography and platelet aggregation in diabetes and hypertension 161
RNA (= ribonucleic acid) and heme synthesis, increased, in mouse-erythroid precursors by parathyroid hormone 125
Rosette-forming cells, v. Non-rosetting cells
Scintigraphy of bone marrow; In chloride bone marrow scintigraphy and ferrokinetic studies in a case of sickle cell anemia with transient erythroid aplasia 330
Screening for anaemia in a middle-aged population in Southwest Finland 106
75Se-methionine, use as a tracer of thrombopoiesis (I.: In vivo incorporation of the tracer into platelet proteins: a biochemical study) 61
Sephadex®, v. 59Fe-labelled transferrin
Serologie, v. Blutgruppenserologie 340 (B)
Serotonin(14C-serotonin), v. Platelet serotonin release
Serum ferritin, v. Thalassemia major
Serum folate binding capacity in leukemias, liver diseases and pregnancy 203
Sex chromosomes, v. Y chromosome duplication
Sézary syndrome with non-rosetting cells and unusual cytogenetic findings, a case 194
Sicily; β-thalassemia in Sicily (correspondence) 339
Sickle cell anemia; In chloride bone marrow scintigraphy and ferrokinetic studies in a case of sickle cell anemia with transient erythroid aplasia 330
Small laboratory animals, v. Ferrokinetic studies
South African negro, Hb Bart’s and its significance in the South African negro 33
Southwest Finland, v. Finland
Spanish, Basque-Spanish family, v. Delta beta thalassemia
Spanish woman; homozygous delta-beta thalassaemia in a Spanish woman 226
Spectrophotometric method applicable to in vitro studies of Heinz body formation in erythrocytes 222
Spherocytosis, v. Non-spherocytic haemolytic anaemia
Sphingolipids, v. Gaucher’s disease
Splenectomy; unstable haemoglobin Genova 28Leu→Pro) in an East African family (Family study and the effect of splenectomy) 278

-; v. Hemoglobins Istanbul...

Spurious macrocytic anemia 57
Statistical analysis, v. Chalone effect, Differential blood counts, Erythroid precursors, Erythropoietin, Folate binding, Hemoglobin A, Microchromatography, Myeloperoxidase, Phagocytosis, Platelet aggregation, Platelet dysfunction, Protein synthesis, Renal allografts, Sulfonpyrazone, Thalassemia major, Thrombopoiesis, Uraemic patients

Stem cells, v. Erythroid repopulating...

Structural and functional characteristics of hairy cells 184
Sulfonpyrazone; a controlled study of the effect of sulfonpyrazone on platelet survival and on platelet-bound 14C-serotonin release in patients with previous myocardial infarction 68
Surface immunoglobulins, v. Hairy cells
Surgery; disorders of hemostasis in surgery 120(B)
Surinamic man; heterozygous-β-thalassaemia and cold agglutinin disease in a Surinamic man 235
Syngeneic clonal acute myelogenous leukemia cells; suppression of granulopoiesis in diffusion chambers by syngeneic clonal acute myelogenous leukemia cells or peritoneal macrophages 317
Synthetic inhibitors and synthetic substrates (The use of chromogen-ic substrates in studies of haemostatic mechanism) (Haemosíasis, Vol. 7 Nr. 2-3, 1978) 340 (B)
Synthetic substrates and synthetic inhibitors (The use of chromogen-ic substrates in studies of haemostatic mechanism) (Haemosíasis, Vol. 7 Nr. 2-3, 1978) 340 (B)
Tanzanians; haemoglobin Bart’s in newborn Tanzanians 114
Technetium (99mTc), v. Phagocytosis
Terminal deoxynucleotidyl transferase, v. Bone marrow transplantation
Thalassemia (α-thalassemia); bio-synthetic studies and β-chain composition in the Greek type of hereditary persistence of fetal hemoglobin and its association with β-thalassemia 272
Thalassemia; hematological and hemoglobin synthesis studies in a family with ≤¾β-thalassemia trait 27
Thalassemia; heterozygous β-thalassemia and cold agglutinin disease in a Surinamic man 235
Subject Index
353

Thalassemia; homozygous delta-beta thalassemia in a Spanish woman 226
Thalassemia intermedia, v. Thalassemia 68(B)
Thalassemia (α-thalassaemia), v. Haemoglobin Bart’s
Thalassemia (β-thalassemia) in Sicily (correspondence) 339
Thalassemia, β-thalassemia trait, v. Hemoglobin A
Thalassemia major, auditory involvement 209
-; reticuloendothelial phagocytic function in children with β2-thalassemia major 283
Therapy; results of the cooperative study on aplastic and refractory anemias 325
-; v. Bone marrow transplantation, Treatment (B)
Thioguanine (6-thioguanine); drug-induced kinetic perturbations of the marrow blasts in acute leukemia. Effects of the daunorubicin, cytosine arabinoside and 6-thio-guanine combination 237
Thrombocytes, v. Platelet(s); Thrombocytopenic episodes
Thrombocytopenic episodes in patients with well-functioning renal allotransplants (Inverse relationship between platelet count and platelet size pointing to intermittent platelet destruction) 2
Thrombocytopoiesis; the use of 57Se-methionine as a tracer of thrombocytopoiesis (I.: In vivo incorporation of the tracer into platelet proteins: a biochemical study) 61
T lymphocytes, surface markers, v. Sézary syndrome
Tracer, v. 57Se-methionine
Transferrin; preparation of 59Fe-la-belled transferrin of high radioactivity for ferrokinetic studies on small laboratory animals 55
Transmission electron microscopy, v. Hairy cells, Pseudo-Chediak-Higashi anomaly
Transplantation of bone marrow for acute leukemia using a histocompatible paternal donor 80
Transplantation, v. Renal allografts
Treatment of haemophilia A and B and von Willebrand disorder 120(B)
Tumors, v. Plasmacytoma
Turkey, v. Mediterranean...
Ultrastructure, v. Hairy cells, Pseudo-Chediak-Higashi anomaly
Unstable abnormal new haemoglobin. Hemoglobin Moabit: alpha 86(F7)Leu-Arg 121
Unstable haemoglobin Genova (/?28 Leu- > -Pro) in an East African family (Family study and the effect of splenectomy) 278
Uraemic patients; enzymatic activities and NBT (= nitro blue tetrazolium) reduction test of granulocytes in untreated and dialysed uraemic patients 144
Varia 60, 236
Variant of pyruvate kinase; identification of an erythrocyte pyruvate kinase variant in a family from Latium with non-sphero-cytic congenital haemolytic anaemia 288
Vitamin B12 deficiency; platelet dysfunction in patients with vitamin B12 deficiency 75
Vitamin B12, v. Pernicious anaemia
von Willebrand disorder; treatment of haemophilia A and B and von Willebrand disorder 120(B)
--; v. Jordan
Y chromosome duplication: a minor route evolutive pattern in chronic myelocytic leukaemia 310
