Announcement

Skin Pharmacology Society 10th Annual Meeting
October 25-27, 1993
Mandarin Oriental Hotel, Hong Kong

Scientific Programme
There will be symposia on:
- Molecular pharmacology and antisense technology
- Adhesion molecules
- Retinoid biology and retinoid receptors
- Potential applications of antisense
- Technology in dermatology
- Clinical research and cosmeceuticals
- Collagen and skin immunobiology
- Antiaging agents
- Hair growth
- Wheal and flare re-examined and novel therapeutic options
- Neuropeptides and the skin
- The mast cell
- The eosinophil
- In vivo pharmacology
- Cytokines

Progress in 10 years: prospects for the next
- Skin immunology: lessons from HIV/AIDS
- Chemoprevention
- Melanoma therapy

There will also be a full programme of free communications

Six travel grants of $1,000 each will be available to those submitting an abstract.

Social Programme
There will be a welcome reception at the Mandarin Hotel on the evening of Sunday, October 24th. A reception and dinner has been arranged at the Verandah Restaurant in Repulse Bay for the 25th of October and a Gala Chinese evening has been arranged at the Mandarin Hotel for October 26th.

Accommodation
Favourable inclusive terms for accommodation and breakfast have been negotiated at the Mandarin Hotel for registrants and their accompanying persons. It is anticipated that the registration fees for participants and for accompanying persons will include the cost of luncheon and the evening social events.

The Skin Pharmacology Society meeting immediately precedes the Second Tricontinental meeting of the JSID, ESDR and SID which will be held in Kyoto, Japan, October 28-31, 1993. Adequate time has been allowed on the 27th of October for transfer from Hong Kong to Osaka and thence by airport bus to Kyoto.

Further information about the Skin Pharmacology Society meeting in Hong Kong including abstract and registration forms can be obtained from:
Dr. Pauline Dowd, Secretary/Treasurer, SPS Department of Dermatology, The Middlesex Hospital Mortimer Street, London W1N 8AA (UK) Fax: 44 71 223 4551
