Index rerum ad Vol. 9

(B) = Book Review – Buchbesprechung – Livre nouveau

Acetanilid, role on the production of lumbosacral neuronal inclusions, 157
Age-reaction of collagen in the skin, influence, 209
Aged, retinal rivalry, 1
Aging, clinical principles and drugs, 125 (B)
- human, biological and behavioral study, 125 (B)
- physiological and pathological, 61 (B)
Albino rats, serum creatine and creatinine, 36
Androgens, anabolising, effect on osseous scar formation, 193
Anticorps antinucléares, évolution en fonction de l'âge, 222
Antigène, développement des caractères antigéniques au cours du vieillissement cellulaire, 230
Anulus fibrosus of human intervertebral disk, histological age, 136
Aorta, paroi arterielle, 63 (B)
Atherosclerotic aorta, fluoride and calcium deposition, cholesterol-fed rabbits, 150
Auto-anticorps, évolution du taux comparée en fonction de l'âge, 222
Blood biochemistry, indices in relation to age, height, and weight, 179
Calcium and fluoride deposition in the atherosclerotic aorta, of cholesterol-fed rabbits, 150
Cancer and senile changes in the lung, 239
Capillaries and muscle fibres in the heart of old rats, 107
Cardiac muscle, 63 (B)
Cells, time, and aging, 61 (B)
Cholesterol-fed rabbits, fluoride and calcium deposition in the atherosclerotic aorta, 150
Chrome alum hematoxylin method, neurosecretory substance, 65
Collagen, comparative studies on the production, 28
- degradation by extracts of various organs, 52
- fibres, mechanism of contraction, 84
- in the skin, factors which influence the age-reaction, 209
Collagène, vieillissement, 98
Cortisone and vitamin B12, effect on the glucose tolerance, 71
Couleuvre à collier, vieillissement du collagène et évolution avec l'âge du métabolisme, 98
Creatine and creatinine, serum, in ageing albino rats, 36
Dehydration of full thickness rats’ pelt, treated with urea, 129
Disk herniation, 136
Drug addiction and narcotics, 62 (B)
Eiweißernährung, Pathologie, 126 (B)
Enzyme changes, biological role in the ageing of the organism, 113
- of rat uterus, degradation of collagen, 52
Fluoride and calcium deposition in the atherosclerotic aorta of cholesterol-fed rabbits, 150
Gerontological Society, Flemish, meeting in Veurne, 62 (B)
Gerontology, experimental, lectures, 126 (B)
252
Index rerum

-, sixth international congress, 63 (B) -, third meeting of the European Clinical Section of International Association, 62 (B) Gestalten und Gedanken, 62 (B) Glucose tolerance, effect of vitamin B12 and cortisone, 71 Glutathione, oxidized, as a test of senescence, 9
Hearing loss, 1
Heart, capillaries and muscle fibres, 107 - rate and work performance, in aged man, 91
Hormones, role on the production of lumbosacral neuronal inclusions in the pigeon, 157
Implantation of polystyrene sponges, characteristics of newly-formed connective tissue, 78
Intervertebral disk, human, histological age changes in the anulus fibrosus, 136
Lumbosacral neuronal inclusions in the pigeon, role of some hormones and acetanilid, 157
Lung, cancer and senile changes in the lung, 239
Mucopolysaccharides, mechanism of contraction of collagen fibres, 84
Muscle creatine, in exercised ageing rats, 42 -, fibres and capillaries in the heart of old rats, 107 -, research, international symposium, 63 (B)
Neurohypophysis, neurosecretory substance, 65
Ophidien, métabolisme basal et vieillissement du collagène, 98
Organs, various, extracts, degradation of collagen, 52
Osseous scar formation in rats, effect of anabolising androgens, 193
Pelts, of male rats, full thickness sections, resistance to dehydration, 129
Pflege des Betagten und chronisch Kran-ken, 125 (B)
Physiologie, klinische, 127 (B)
Pig embryo skin, collagen fractions, 28
Prednisolone-glucose test, 71
Problem-solving ability, comparison, 164
Psychology, experimental, 64 (B)
Rats, exercised ageing, serum and muscle creatine, 42
Retinal rivalry, in the aged, 1
Scar formation, osseous, in rats, 193
Senescence, oxidized glutathione as a test, 9
Senile changes in the lung, and cancer, 239
Serum and muscle creatine in exercised ageing rats, 42 -, creatine and creatinine in ageing albino rats, 36
Skeletal muscle, 63 (B)
Sponge-biopsy connective tissue in rats, aging, 78
Temperature acclimation, international symposium, 62 (B)
- regulation, symposium on comparative physiology, 63 (B)
Temperatures, ambient, influence on thyroid function of rats, 18
Tests de conditionnement, réaction du rat âgé, 200
Thymus, Biologie, 126 (B)
Thyroid function of rats, influence of ambient temperatures, 18
Tissue, sponge-biopsy connective, aging, 78
Vital capacity, 1
Vitamin B12 and cortisone, effect on glucose tolerance, 71
Work performance and heart rate, in aged man, 91
