Further Section

Gerontologia 1975;21:250-251

Index rerum

Aging, evolutionary considerations 153
Aging concepts, current status 155
Aging and disease 151
Arginine phosphokinase 203
Athero-arteriosclerosis 131-175
Athero-arteriosclerosis, definition and distribution 132
Athero-arteriosclerosis, and endocrine aberrations 167
Athero-arteriosclerosis, historical perspective 140
Athero-arteriosclerosis, and mis-specification-autoimmune (aging) theory 159
Athero-arteriosclerosis, implications of vital statistics 159
Biphasic age-specific curve 150 Blaibergcase 161 Bone marrow 1 Brain slices 224
Carbohydrate metabolism 224 Cell-mediated immunity 177 Colony-forming units 1 Coronary
thrombosis-myocardial infarction relationship 136 Crosslinking 73 Cytochemistry 95
Cytochrome oxidase 95
Development 102 Dietary restriction 184 Disc electrophoresis 124 DNA 73, 231
Drosophila melanogaster 73, 203, 231 Drosophila melanogaster, vestigial mutant 203
Electroencephalogram 21 Electron microscopy 81 Emotionality 46
Endocrine system 166 Endogenous colonies 1 Energy metabolism 31 Enzyme pattern 31 Error
catastrophe 57, 64 Exogenous colonies 1 Exploratory behaviour 46
Fibroblasts 64 Flight muscle 203, 216 Formaldehyde 124 Fungi 64
Glycogen 216 Growth rate 102
Hamster 224 Homogenate 95 House fly 216
Immediate recall 10
Immune function 184
Intrinsic vascular immune responses 163
Learning 10
Life span 184
Liver 81,95
Locomotion 46
Longevity 102
Long-term retention 10
Lymphocyte transformation 177
Malate dehydrogenase 95
Methionine 124
Mice 1, 21, 46, 81, 95, 184
Mis-specification-autoimmune aging theory
159 Mis-specification-autoimmunity of the
neuroendocrine system 165 Missynthesis 57 Mitochondria 81, 95, 216, 231
Index rerum
Muscle 31 Myofibrils 216
Nucleic acids 211 Nutrition 184
Open-field behaviour 46 Organ-nonspecific antibodies 117 Organ-specific antibodies 117 Orgel hypothesis 57, 64, 240
Parental age 102 Phosphatases 211 Productivity 102 Prostate 211 Proteins 64
Rapid-eye movement 21 Rat 31, 211 Rat tail 124 Respiration 224 Risk factors 138
Slow-wave sleep 21 Spleen 1
Strain difference 46 Survival 184
Tendon collagen 124 Testosterone 211 Tribolium 102
Uptake in vitro 211
Viability 102
