Drug Dosage

The authors and the publisher have exerted every effort to ensure that drug selection and dosage set forth in this text are in accord with current recommendations and practice at the time of publication. However, in view of ongoing research, changes in government regulations, and the constant flow of information relating to drug therapy and drug reactions, the reader is urged to check the package insert for each drug for any change in indications and dosage and for added warnings and precautions. This is particularly important when the recommended agent is a new and/or infrequently employed drug.

Contents

Preface
Orimo, H 1

Age-Related Degeneracy of T Cell Repertoire: Influence of the Aged Environment on T Cell Allorecognition
Asano, Y.; Komuro, T.; Kubo, M.; Sano, K.; Tada, T 3
Synaptic Membrane Aging in the Central Nervous System
Ando, S.; Tanaka, Y  10

Characterization of Antisera to Paired Helical Filaments and Tau. Implication for the Extent of Tau Tightly Bound to Paired Helical Filaments
Ihara, Y.; Kondo, J.; Miura, R.; Nakagawa, Y.; Mori, H.; Honda, T  15

Possible Participation of Calcium-Regulating Factors in Senile Dementia in Elderly Female Subjects
Ogihara, T.; Miya, K.; Morimoto, S  25

Role of Molecular Genetics in the Understanding of the Pathogenesis of Hypertension
Nojima, H  31

Effect of Exogenous Apo E on the Cellular Binding of Lipoproteins
Mokuno, H.; Ishibashi, S.; Shimano, H.; Gothoda, T.; Takaku, F.; Yamada, N  42
