Let me inform you that our Section Editor of the Experimental Section of Gerontology, Priv. Doz. Dr. Holger von Hahn, intends to give up his position at the end of 1995, because of his retirement.

S. Karger publishers and the complete Board of Editors thank Dr. Holger von Hahn for his excellent work over so many years. In him, we lose an editor who, thanks to his remarkable expertise in experimental gerontology, enjoyed a high international reputation. He contributed remarkably to the growth of our journal and we hope that he can maintain his many personal contacts with the international community of experimental gerontologists. The Editorial Board wishes Dr. Holger von Hahn all the best for his future.

We are happy that Priv. Doz. Dr. Marco Ermini is ready to take over the duties as Section Editor for the Experimental Section of Gerontology. Dr. Marco Ermini, the former managing editor of Gerontology, is well known to the Editorial Board, the readers, and authors of our journal. We are sure that the Experimental Section of Gerontology is in the best of hands with Dr. Marco Ermini, an experienced experimental gerontologist who guarantees no interruption of the work of the Editorial Board of Gerontology.
