Contents, Vol. 6, 1977

No. 1
Foreword 1
Gaffney, P. J.: Fibrin(-ogen) Interactions with Plasmin 2
Ham, J. M. and Lawrence, J. C.: Heparin, Heparin-Activated Enzymes and Platelets 26
Muntz, R. H. and Castaldi, P. A.: Use of Rabbit Antisera in the Preparation of
Factor-XII-Free Platelet-Rich and Platelet-Poor Plasma 35
Connellan, J. M.; Castaldi, P. A., and Muntz, R. H.: The Role of Factor XI in
the Coagulant Activity of Platelets 41
Morgan, F. J.; Chesterman, C. N.; McGready, J. R., and Begg, G. S.: Studies on
the Chemistry of Human Platelet Factor 4 53
Huzoor-Akbar and Ardlie, N. G.: Platelet Activation in Haemostasis. Role of
Thrombin and Other Clotting Factors in Platelet-Collagen Interaction 59
Gaffney, P. J.; Brasher, M.; Lord, K., and Kirkwood, T. B. L.: Activation
of Plasminogen as a Feature in its Assay 72

No. 2
Wijngaards, G. and Hemker, H. C.: Determination of Tissue Thromboplastin
Activity 89
Musumeci, V.; Landolfi, R., and Bizzi, B.: Amidolytic Assay of Thrombin Bound
to ¾-Macroglobulin in Plasma 98
Jerushalmy, Z.; Patya, M.; Pinkhas, J., and Vries, A. de: Alteration of Rat Bone
Marrow Megakaryocytes Following Administration of Cytosine Arabinoside,
Daunomycin and Hydroxyurea 110
Ts’ao, C.: Comparable Inhibition of Aggregation of PRP of Neonates and Adults
by Aspirin 118
Gaetano, G. de; Tonolli, M. C.; Bertoni, M. P., and Roncaglioni, M. C.: Ditazole
and Platelets. I. Effect of Ditazole on Human Platelet Function in vitro.... 127
Dettori, A. G.; Ponari, Q.; Civardi, E.; Megha, A.; Pym, M., and Porri, R.: Im
paired Fibrin Formation in Advanced Cirrhosis 137

No. 3
Brosstad, F. and Godal, H. C: Qualitative Changes in Fibrinogen Following
Exposure to Agents Used for Preparation of Fibrin Monomers 149
ratory Tests Prepared from Normal Plasma and a Human Antibody 157
Marco, L. de; Fabris, F.; Molaro, G., and Girolami, A.: The Effect of Heparin
on the Interaction of Factor VIII and Human Platelets in vitro 163

Betterle, C; Fabris, F.; Marco, L. de; Del Prete, G. F., and Girolami, A.:
Clotting Factors and Platelets. Immunofluorescence Evidence that Fibrinogen
and Factor VIII are Present in Human Washed Platelets, Whereas Prothrombin
Complex Factors and Factor XIII are Lacking 171
Leprand, Y.; Pignaud, G., and Caen, J.P.: Human Blood Platelet Elastase and
Proelastase. Activation of Proelastase and Release of Elastase after Adhesion of
Platelets to Collagen 180
Gaetano, G. de; Cavenaghi, A.E., and Stella, L.: Ditazole and Platelets. II. Effect of Ditazole on
in vivo Platelet Aggregation and Bleeding Time in Rats 190
Phospholipids in
Normal Subjects and in Patients with Chronic Arterial Obliterations 197
Short Report
Blood Platelet Membranes Symposium, Barcelona, November 28-29, 1976 203
No. 4
Owen, C. A. jr. and Bowie, E. J.W.: Generation of Coagulation Factors V, XI, and
XII by the Isolated Rat Liver 205
Brosstad, F.; Godal, H.C., and Kierulf, P.: Some Characteristics of Various
Fibrin Monomer Preparations Made from Dissolved Fibrin Clots 213
Brosstad, F.; Godal, H.C., and Kierulf, P.: Preparation of Fibrin Monomers from Human
Fibrinogen in Urea, Using Soluble or Insolubilized Thrombin 225
Dyr, J.; Vorlová, Z., and VoDRázka, Z.: Dissolution of Noncovalently Bonded
Fibrin in the Presence of Bromide Ions 236
ralized Shwartzman Reaction 244
Kruse-Blinkenberg, H.; Bech-Jansen, P.; Jensen, J.; Schmidt, A., and Gorm-
sen, J.: Low Dose Heparin in Major Surgery: Clinical Relevance of Plasma
Heparin Concentrations 252
III. Effect of Ditazole on Tumor-Cell Induced Thrombocytopenia and on Bleed
ing Time in Mice 260
Special Communication
Acetylsalicylic Acid and Paracetamol on Menstrual Blood Loss 266
No. 5
Wijngaards, G.; Hemker, H.C., and Deenen, L.L.M. van: Partial Purification
of the Protein Moiety of Porcine Tissue Thromboplastin 269
Vinazzer, H.: Photometric Assay of Platelet Factor 4 with a Chromogenic Substrate 283
IV
Variations in Blood Coagulation, Fibrinolysis, Platelet Function and Various
Plasma Proteins during the Menstrual Cycle 294
Asbeck, F.; Meyer-Boernerke, D., and Loo, J. van de: Inhibition of the Fibrin-
olytic System in Behçet’s Disease? 303
Caprino, L.; Borrelli, F.; Falchetti, R.; Cafiero, C, and Gandofo, G.M.: 
Ditazole Activity and Its Interaction with Urokinase on Experimental Throm
bosis 310
