Contents, Vol. 16, 1986

No. 1 Original Paper
In vitro Aggregation of Normal Platelets: A Hypothetical First-Approximation Model for Light Extinction in Platelet-Rich Plasma
Boudreau, D.A.; Rock, W.A  1
Development of a Computer Program to Analyze the Parameters of Platelet-Vessel Wall Interaction
Escolar, G.; Bastida, E.; Castillo, R.; Ordinas, A  8
Endothelial Stimulation by DDAVP in von Willebrand's Disease and Haemophilia
Greer, L.A.; McLaren, M.; Belch, J.J.F.; Lowe, G.D.O.; Forbes, C.D 15
Platelet Function Studies during and after Infusions of ZK 36374, a Stable Prostacyclin Analogue, to Healthy Volunteers
Yardumian, D.A.; Mackie, I.J.; Brennan, E.C.; Bull, H.; Machin, S.J  20
Defective Platelet Aggregation Induced by Platelet Activating Factor in Myeloproliferative Disorders: Deficiency of an Aspirin-Independent Mechanism?
Viero, P.; Cortelazzo, S.; Barbui, T.; de Gaetano, G  27
Evidence that the Elevated Levels of Proteinase Activity in the Plasma of Melanoma-Bearing Mice May Be of Host Origin
Hart, D.A  34
Plasminogen Activator in Bronchoalveolar Fluid
Nováková, I.R. O.; van Ginneken, C.A.M.; Verbruggen, H.W.; Haanen, C  51
Platelet Function in Hypercholesterolemics before and after Hypolipidemic Drug Therapy
Zucker, M.L.; Trowbridge, C; Krehbiel, P.; Jackson, B.; Chernoff, S.B.; Dujovne, C.A. 57
Announcements  56, 64

No. 2 Low Molecular Weight Heparin and Its Clinical Use
International Enoxaparin Symposium, San Diego, July 1985
Introductory Remarks
Samama, M  69
Inhibition of Thrombin-Catalyzed Reactions in Blood Coagulation and Platelet Activation by Heparin Fractions in the Absence of Antithrombin III
In vivo Effects of Low Molecular Weight Heparins on Experimental Thrombosis and Bleeding
Hirsh, J  82
Contents
Low Molecular Weight Heparin: A Better Drug?
Thomas, D.P.; Barrowcliffe, T.W.; Curtis, A.D  87
Biochemical and Pharmacological Studies on the Interaction of PK 10169 and Its Subfrac-
tions with Human Platelets
Brace, L.D.; Fareed, J.; Tomeo, J.; Issleib, S 93

A New Low Molecular Weight Heparin Fragment (PK 10169): In vitro and in vivo Studies
Vinazer, H.; Wolter, M 106

Relationship between Biological Activity and Concentration of a Low-Molecular-Weight
Heparin (PK 10169) and Unfractionated Heparin after Intravenous and Subcutaneous
Administration
Dawes, J.; Bara, L.; Billaud, E.; Samama, M 116

Laboratory Studies on the Intravenous and Subcutaneous Administration of PK 10169 in
Man
Fareed, J.; Walenga, J.M.; Hoppensteadt, D.A.; Emanuele, R.M 123

Partial Reversal of Low Molecular Weight Heparin (PK 10169) Anti-Xa Activity by Prot-
amine Sulfate: In vitro and in vivo Study during Cardiac Surgery with Extracorporeal
Circulation
Massonnet-Castel, S.; Pelissier, E.; Bara, L.; Terrier, E.; Abry, B.; Guibourt, P.; Swan-
son, J.; Jaulmes, B.; Carpentier, A.; Samama, M 139

Pharmacokinetic Studies of Standard Heparin and Low Molecular Weight Heparin in
Patients with Chronic Renal Failure
Follea, G.; Laville, M.; Pozet, N.; Dechavanne, M 147

Enoxaparin Low Molecular Weight Heparin: Its Use in the Prevention of Deep Venous
Thrombosis Following Total Hip Replacement
Planes, A.; Vochelle, N.; Ferru, J.; Przyrowski, D.; Clerc, J.; Fagola, M.; Planes, M. 152

Prevention of Deep Vein Thrombosis in Elderly Medical In-Patients by a Low Molecular
Weight Heparin: A Randomized Double-Blind Trial
Dahan, R.; Houlbert, D.; Caulin, C; Cuzin, E.; Viltart, C; Wolter, M.; Segrestaa, J.M. 159

Low Molecular Weight Heparin Fraction PK 10169: A New Therapeutic Means for Anticoagulant
Therapy?
Huet, Y.; Gouault-Heilmann, M 165

Heparin-Induced Thrombocytopenia
Kelton, J.G 173

Concluding Remarks
Mammen, E.F 187

Vitamin K-Dependent Biological Processes

Studies of the Vitamin K-Dependent Carboxylase and Vitamin K Epoxide Reductase in
Rat Liver
Suttie, J.W.; Preusch, P.C 193

Role of Accessory Components in the Activation of Vitamin K-Dependent Coagulation
Factors
van Rijn, J.L.M.L.; Zwaal, R.F.A.; Hemker, H.C.; Rosing, J 216

The Prothrombin Gene
MacGillivray, R.T.A.; Irwin, D.M 227

Comparison between Hepatic and Nonhepatic Vitamin K-Dependent Carboxylase
Vermeer, C 239

Vitamin K and the Urogenital Tract
Vermeer, C; Soute, B.A.M.; Ulrich, M.M.W.; van de Loo, P.G.F 246

Contents
V

Osteocalcin: The Vitamin K-Dependent Ca^{2+}-Binding Protein of Bone Matrix
Hauschka, P.V

Vitamin K-Dependent Processes in Tumor Cells
Hauschka, P.V.; Haroon, Y.; Buchthal, S.D.; Bell, R.G

Vitamin K-Dependent Procoagulant in Cancer Cells: A Potential Target for the Anti-metastatic Effect of Warfarin?
Donati, M.B.; Roncaglioni, M.C.; Falanga, A.; Casali, B.; Semeraro, N

γ-Glutamyl Carboxylase Activity in Experimental Tumor Tissues: A Biochemical Basis for Vitamin K Dependence of Cancer Procoagulant
Roncaglioni, M.C.; Bolognese Dallessandro, A.; Casali, B.; Vermeer, C; Donati, M.B.

Basis for Selection of Anticoagulant Drugs for Therapeutic Trials in Human Malignancy
Zacharski, L.R

No. 5 Original Paper
Studies in Rats on in vitro Inhibition and in vivo Activity of Vitamin-K-Dependent Carboxylation
Cocchetto, D.M.; Bjornsson, T.D

Prostacyclin Is a More Potent Stimulator of Thrombolysis than Inhibitor of Haemostasis
Görög, P.; Kovaes, I.B

Prenatal Diagnosis of Hemophilia by Fetal Blood Sampling under Ultrasound Guidance
Forester, F.; Daffos, F.; Solé, Y.; Rainaut, M

Sub-Ambient Aggregometry: A Tool for Examining Platelet Storage at any Temperature between 4-22°C
Trenchard, P.M.; Morgan, R.A

Inhibition of Platelet Thromboxane Generation by Suloctidil in Man
Bucchi, F.; Cerletti, C; de Gaetano, G

Salicylate Antagonism of Acetylsalicylic Acid Inhibition of Platelet Aggregation in Male and Female Subjects: Influence of Citrate Concentration
Philp, R.B.; Paul, M.L

No. 6 Diabetes and Hemostasis
Introduction
Factors of the Hemostatic System in Diabetic Patients. A Survey of Controlled Studies
Ostermann, H.; van de Loo, J

Effect of Insulin Therapy on Coagulation and Platelet Function in Type II (Non-Insulin-Dependent) Diabetes mellitus

Apolipoprotein B and Platelet Function in Diabetes mellitus
Kubisz, P.; Patzexk, M.; Cronberg, S

Basement Membrane Components (7S Collagen, Laminin) Are Increased in Sera of Diabetics and Activate Platelets in vitro
Högemann, B.; Balleisen, L.; Rauterberg, J.; Voss, B.; Gerlach, U.

VA Cooperative Study on Antiplatelet Agents in Diabetic Patients after Amputation for Gangrene. IV. Issues in Design, Interpretation, and Analysis
Colwell, J.A.; Bingham, S.F.; The Cooperative Study Group
VI
Contents
Nonenzymatic Glucosylation as a Contributing Factor to Defective Fibrinolysis in Diabetes mellitus
Geiger, M.; Binder, B.R 439
Reduced Serum-Stimulatory Activity on Prostacyclin Production by Cultured Aortic Endothelial Cells in Diabetes mellitus
Inoguchi, T; Umeda, F.; Watanabe, J.; Ibayashi, H 447
Neurophysiological Variables and Fibrinolysis in Insulin-Dependent Diabetes Treated with an Aldose Reductase Inhibitor or Placebo. A Double-Blind Randomized Study
Jespersen, J.; Gram, J.; Christensen, J.E.J 453
Heparin Preserves Antithrombin III Biological Activity from Hyperglycemia-Induced Alterations in Insulin-Dependent Diabetics
Ceriello, A.; Giugliano, D.; Quatraro, A.; Stante, A.; Consoli, G.; Dello Russo, P.; Donofrio, F 458
Book Review 465
Announcement 466
Author Index 467
Subject Index 469
Suppl. 1 Proceedings of the Defibrotide Symposium
8th International Congress on Thrombosis, Istanbul, June 4-7, 1984
Suppl. 2 Satellite Symposium on Fragmin to the 10th Congress of the International Society of Thrombosis and Hemostasis, San Diego, July 1985
Suppl. 3 International Conference on Thrombolysis
Paris, March 15, 1985
Suppl. 4 Colloque International sur la Thrombolyse
Paris, 15 mars 1985
Suppl. 5 Recent Advances and New Developments in Hemostaseology
Abstracts. 4th Congress of the Society on Thrombosis and Haemostasis (GTH), Düsseldorf, October 12-16, 1986
