Contents, Vol. 19, Supplement 1, 1989

Introduction 1
Inborn Errors of Metabolism Causing Homocysteinemia and Related Vascular Involvement
Skovby, F 4
Clinical and Laboratory Features of Homocystinuria
Cacciari, E.; Salardi, S 10
Mechanisms of Thrombogenesis and Accelerated Atherogenesis in Homocysteinaemia
Wilcken, D.E.L.; Dudman, N.P.B 14
Lowered Antithrombin III Activity and Other Clotting Changes in Homocystinuria: Effects of a Pyridoxine-Folate Regimen
Palareti, G.; Coccheri, S 24
Carriership for Homocystinuria in Juvenile Vascular Disease
Boers, G.H.J 29
Plasma Homocysteine and Methionine Tolerance in Early-Onset Vascular Disease
Brattström, L.; Israelsson, B.; Hultberg, B 35
The Italian National Research Council Project on Homocystinuria
Totani, L.; Donati, M.B 45
Author Index, Subject Index 48
