Recent Antiviral Chemotherapy Publications

The following list of recently published chemotherapy articles is included in each issue of ‘Chemotherapy’ as a service to the scientific community. An attempt has been made to provide as complete a list as possible, but all investigators in the field of antiviral chemotherapy are invited to send reprints of their work to assure their inclusion.

Robert W. Sidwell, Ph.D.
Head, Division of Chemotherapy and Department of Virology, ICN Pharmaceuticals, Inc.
Nucleic Acid Research Institute, 2727 Campus Drive, Irvine, CA 92664 (USA)

Chemotherapy of Herpesvirus saimiri induced lymphoma-leukemia in the owl monkey.
