Information: P. Burtin and J.C. Salomon, Institut de Recherches Scientifiques sur le Cancer, P.O. Box 8, F-94-Villejuif (France)

October 20-26, 1974 XIth International Cancer Congress
in Florence
The Eleventh International Cancer Congress organized under the auspices of the UICC will be centered in Florence.
Following the Opening Ceremony at the Palazzo Vecchio, the first two days will be devoted to Special Sessions organized mainly on a unidisciplinary basis, in Florence and in nearby towns (Montecatini, Lucca, Siena and Perugia).
During the following days Ordinary Sessions of the Congress will be held in Florence itself.
The programme comprises multidisciplinary Symposia in the mornings and Workshops or presentations of Proffered Papers in the afternoons.
A Memorial Lecture will be delivered at the Closing Ceremony.
Advanced Courses in Clinical Oncology are scheduled to follow the Congress.
The projection of Scientific Films and the display of Scientific and Commercial Exhibits are planned.
Forms for registration and hotel accommodation as well as information on travel, tours and special events will be provided in the 2nd Circular.
Families and guests accompanying Members must be registered as Associate Members.
English, French and Italian will be the official languages of the Congress with simultaneous interpretation at most sessions.
For further information apply to XL International Cancer Congress, Istituto Nazio-nale per lo Studio e la Cura dei Tumori, Via G. Venezian 1, 20133 Milano (Italy).

American Cancer Society, Eleanor Roosevelt, International Cancer Fellowships, 1972
The International Union Against Cancer, with the funds provided by the American Cancer Society, will award fellowships for research on cancer.
The awards will be granted to experienced investigators who have demonstrated their ability for independent research and who wish to broaden their experience by a period of study at a single institution in another country.
Fellowships will be granted only to persons on the staff of universities, teaching hospitals, research laboratories or similar institutions.
Awards will be made to investigators who are devoting themselves either to the experimental or the clinical aspects of cancer research.
Fellowships will not be granted to persons who wish primarily to perfect their training in methods of cancer detection or in therapeutic techniques, or who wish to visit briefly several institutions abroad. The duration of the fellowships ordinarily will be one year but this period may be longer or shorter in special circumstances.
The stipend will be based on the current salary of the applicant and the salary of persons of comparable qualifications in the place where the applicant expects to study. An allowance will be made for the cost of travel of the fellow and of those dependants who will accompany him from his place of residence to the institution where he will work, and return.

A. Applications must be received before September 1, 1971; fellowships being within the twelve months’ period following March 1, 1972.

Application forms and additional information may be obtained from: International Union Against Cancer, P.O. Box 400, 121] Geneva 2 (Switzerland).
