Contents, Vol. 62, 1992

No. 1
Original Paper
Postnatal Development of Plasma-Lipid-Clearing Enzymes (Lipoprotein Lipase, Hepatic Lipase and Lecithin: Cholesterol Acyl Transferase) and Lipid Profiles in Suckling Rats Mao, J.; Hamosh, M.
Serum IgE Concentrations in the Neonatal Period Buonocore, G.; Zani, S.; Tomasini, B.; Tripodi, V.; Grano, S.; Bracci, R.
Gastric Secretion in Infants. Application to the 15 Study of Sudden Infant Death Syndrome and Apparently Life-Threatening Events Mouterde, O.; Dacher, J.-N.; Basuyau, J.-P.; Mallet, E.
Transverse Bone Growth and Cortical Bone Mass in the Human Prenatal Period Rodriguez, J.I.; Palacios, J.; Rodriguez, S.
Capillary (Heelstick) versus Venous Blood Sampling for the Determination of Glucose Concentration in the Neonate Cowett, R.M.; D'Amico, L.-B.
Consumption and Production of Amino Acids by 37 Insulin-Responsive Cultured Fetal Rat Hepatocytes: The Particular Case of Serine Bismut, H.; Poggi-Bach, J.; Plas, C.
Transfer of 125I-Albumin from Blood to Brain in 47 Newborn Rats and the Effect of Hyperbilirubinemia on the Transfer Ohsugi, M.; Sato, H.; Yamamura, H.

Brief Communications
An Increased Ability to Generate Hydrogen Peroxide in Certain Polymorphonuclear Leukocytes in Neonates Ueda, D.; Sakata, Y.; Sasaki, K.; Azuma, H.
Effects of Early Suckling of Cesarean-Born Babies on Lactation Sözmen, M.

IMo. 2-3
Original Paper
Hemodynamic Effects of Continuous Negative Extrathoracic Pressure and Continuous Positive Airway Pressure in Piglets with Normal Lungs Adams, J.A.; Osiovich, H.; Goldberg, R.N.; Suguihara, C.; Bancalari, E.
Urinary and Plasma Epidermal Growth Factor 76 Levels Are Decreased in Neonates with Intrauterine Growth Retardation and in Their Mothers Shigeta, K.; Hiramatsu, Y.; Eguchi, K.; Sekiba, K.
Development of Enzymes of Glycolysis and Gluconeogenesis in Human Fetal Liver
Sadava, D.; Frykman, P.; Harris, E.; Majerus, D.; Mustard, J.; Bernard, B.

Urodilatin and Atrial Natriuretic Peptide Are Present in the Urine of Healthy Neonates and Young Infants
Bauer, K.; Sole, J.; Timnik, A.; Solcova, A.; Weil, J.

Ill
Ontogeny of Intestinal Lipid and Lipoprotein
Thibault, L.; Ménard, D.; Loirdighi, N.; Levy, E.

Measurement of Total Bodywater Volume with Deuterated Water in Newborn Infants
Baarsma, R.; Hof, P.; Zijlstra, W.G.; Zock, J.P.; Okken, A.

GTP-Dependent Protein (Gs) Activity in Pre-113-term Infants
Marguet, C; Basuyau, J.P.; Brunelle, Ph.; Fessard, G; Mallet, E.

Ovine Maternal and Fetal Glomerular Atrial Natriuretic Factor Receptors: Response to Dehydration
Fujino, Y.; Ross, M.G.; Ervin, M.G.; Castro, R.; Leake, R.D.; Fisher, D.A.

Effect of Hypoxia on Renal Prostaglandin E2
Production in Human and Rat Neonates
Suzuki, T.; Togari, H.

Effect of Dexamethasone on Antioxidant Enzymes in Fetal Rat Lungs and Kidneys

Effect of Rat Atrial Natriuretic Factor on in vivo and in vitro Aldosterone and Corticosterone Secretions in the Rat during the Perinatal Period
Deloff, S.; Leprêtre, A.; Montel, V.; Châtelain, A.

Intestinal Development and Fatty Acid Binding
Reinhart, G.A.; Simmen, F.A.; Mahan, D.C.; White, M.E.; Roehrig, K.L.

Abstracts
Abstracts of the 3rd European Workshop on Neonatology
October 1-3, 1992, Olite, Spain
Author Index
No. 4

Trophic Effects of Neurotransmitters During Brain Maturation
Emerit, M.B.; Riad, M.; Hamon, M.

Some Animal Models for the Study of Perinatal Asphyxia
Raju, T.N.K.

The Effect of Glucose on Perinatal Hypoxic-Ischemic Brain Damage
Vannucci, R.C.; Mujsce, D.J.
Effects of Anoxia and Aglycemia on the Adult and Immature Hippocampus Ben-Ari, Y.

Brain Injury in the Premature Infant – Current Concepts of Pathogenesis and Prevention Volpe, J.J.

Ischaemia of the Preterm Brain Greisen, G.

The Role of Excitatory Amino Acid Antagonists in the Management of Birth Asphyxia Levene, M.

Perinatal Pharmacology and Cerebral Blood Flow Saliba, E.; Autret, E.; Nasr, C; Sue, A.L.; Laugier, J.

Intrauterine Blood Flow and Postnatal Neurological Development in Growth Retarded Fetuses Marsál, K.; Ley, D.

Cerebral Function in the Growth Retarded Fetus and Neonate Kjellmer, I.; Thordstein, M.; Wennergren, M.

Doppler Ultrasound and the Neonatal Cerebral Circulation: Methodology and Pitfalls Evans, D.H.

Hemodynamic Foundation of Umbilical Arterial Doppler Waveform Analysis Maulik, D.; Arbelle, P.; Kadado, T.

Near Infrared Spectroscopy-Investigation and Assessment of Perinatal Brain Injury Wyatt, J.S.

IV

Contents

Abstracts

International Symposium on Fetal and Neonatal Neurology Tours, October 7-10, 1992

Developmental Neurology

Fetal Neurology

Perinatal Asphyxia

Cerebral Ischemia and Haemorrhage

Assessment of the Neonatal Brain

Follow-Up

Growth Velocity of Some Fetal Parameters

II. Body Weight, Body Length and Head Circumference Guihard-Costa, A.-M.; Larroche, J.C.

Effects of Injectable β-Carotene and Vitamin A on Lymphocyte Proliferation and Polymorpho-nuclear Neutrophil Function in Piglets Hoskinson, CD.; Chew, B.P.; Wong, T.S.

Effects of Interleukin-3 on Murine Fetal Liver Hemopoiesis in Utero Delorme, D.; Daniels, E.

Maturation of Jejunoileal Gradients in Rat Intestine: The Role of Intraluminal Nutrients Castillo, R.O.; Feng, J.J.; Stevenson, D.K.; Kwong, L.K.

Ontogeny of Gastric Function in the Pig: Acid Secretion and the Synthesis and Secretion of Gastrin
Sangild, P.T.; Cranwell, P.D.; Hilsted, L.
Original Paper
Effect of Vitamin K on Neonatal Erythrocytes 373 Shahal, Y.; Zmora, E.; Katz, M.; Mazor, D.; Meyerstein, N.
Sialic Acid Level in Maternal and Neonatal Lymphocytes and Sera Correlated to Birth Order and Sex of the Neonate
In vivo Activated Cord Blood Lymphocytes 385
Express High Affinity Interleukin-2 Receptor: Evaluation of Their Responsiveness to in vitro Stimulation with Recombinant Interleukin-2 Montagna, D.; Moretta, A.; Marconi, M.; Mingrat, G.; Gasparoni, A.; Girola, M.; Maccario, R.
Evidence of a Physiological Role for Bombesin 395 in the Postnatal Development of the Rabbit Pancreas
Karkashan, E.M.; MacNaughton, W.K.; Grant Gall, D.
Developmental Changes of Polyamine Biosynthesis in Rat Liver
Eguchi, K.; Yonezawa, M.; Ohmoto, H.; Mitsui, Y.; Hiramatsu, Y.
Stimulatory Effect of Pigeon Milk Growth Factor on Protein and Nucleic Acid Synthesis in Neonate Mice Shetty, S.; Hegde, S.N.
Transfer of Bilirubin Covalently Bound to 125I-Albumin from Blood to Brain in the Gunn Rat Newborn Ohsugi, M.; Sato, H.; Yamamura, H.
Brief Communication
Salbutamol in the Treatment of Neonatal Hyperkalemia
Dilmen, U.; Toppare, M.; Şenses, D.A.; Kaya, İ.S.
Author Index 427
Subject Index 429
