Acknowledgments to Reviewers

The editor wishes to acknowledge with sincere appreciation the assistance of the many reviewers who have generously contributed their time and efforts during 1996 in the appraisal of manuscripts submitted to Audiology and Neuro-Otology. These reviewers not only have been of inestimable help in assessing the merit of original research articles but also, by their careful analysis and critique and their general and specific constructive recommendations have often greatly enhanced the value of these manuscripts. The quality of the journal can be attributed in large measure to the quality of their effort. We are sincerely grateful.
