Caries Res. 1978;12:I-V

Contents, Vol. 12, 1978

No. 1
Original Paper
Robinson, C.; Fuchs, P.; Deutsch, D., and Weatherell, J. A.: Four Chemically Distinct Stages in Developing Enamel from Bovine Incisor Teeth 1
Duke, S. and Forward, G. C.: Calcium Fluoride and Fluoridated Hydroxyapatite Formation in Relation to the Acid Dissolution Rate of Enamel Mineral 12
Szabo, E. I.; Amdur, B. H., and Socransky, S. S.: Lipid Composition of Streptococcus mutans 21
Schuster, G. S.; Morse, P. K., and Dirksen, T. R.: Interaction of Microbial Challenge and Age at Inoculation in the Production of Dental Caries in Rats 28
Grieve, A. R.: The Production of Secondary Caries-Like Lesions in vitro 35
Purdell-Lewis, D. J.; Arends, J., and Groeneveld, A.: The Effect of Differing Concentrations of SnF2 on Demineralized Enamel 43
Purdell-Lewis, D. J.; Groeneveld, A., and Arends, J.: The Effect of Demineralization on SnF2-Treated White Spot Enamel Lesions 52
Toors, F. A. and Herczog, J. I. B.: Acid Production from a Nonsugar Licorice and Different Sugar Substitutes in Streptococcus mutans Monoculture and Pooled Plaque-Saliva Mixtures 60

No. 2
Original Paper
Demonstration
Rawls, H. R. and Owen, W. D.: of Dye-Uptake as a Potential Aid in Early Diagnosis of Incipient Caries 69
Adair, S. M. and Wei, S. H. Y.: Supplemental Fluoride Recommendations for Infants Based on Dietary Fluoride Intake 76

Abstracts of Papers presented at the 24th ORCA Congress, June 29 to July 1, 1977, Megève 93

No. 3
Original Paper
Ekstrand, J.: Relationship between Fluoride in the Drinking Water and the Plasma Fluoride Concentration in Man 123
Birkhed, D.: Automatic Titration Method for Determination of Acid Production from Sugars Alcohols in Small Samples of Dental Plaque Material 128
Mellberg, J. R. and Larson, R. H.: Effect of a Cariogenic Challenge on Fluoride Uptake by Enamel of Rats Receiving Fluoridated Drinking Water 137
Contents

Hoeven, J. S. van der; Toorop, A. I., and Mikx, F. H. M.: Symbiotic Relationship of Veillonella alcalescens and Streptococcus mutans in Dental Plaque in Gnotobiotic Rats 142

Läikkö, I. and Larmas, M.: Phosphomonoesterase Activity in Dentine of Sound and Carious Human Teeth 148

Short Communications

Ashley, F. P. and Wilson, R. F.: Comparability of the Biochemical Composition of Dental Plaque Samples Collected from 12- to 13-Year-Old Males on a ‘Split-Mouth’ Basis ... 173

Lim, J. K.; Renaldo, G. J., and Chapman, P.; LD50 of SnF2, NaF, and Na2P03F in the Mouse Compared to the Rat 177

Larsen, M. J.; Poulsen, S., and Thylstrup, A.: Effect of Dietary Supplements of Fluoride on Development of Dental Caries in the Rat ... 180

No. 4

Original Paper

Mainwaring, P. J. and Naylor, M. N.: A Three-Year Clinical Study to Determine the Separate and Combined Caries-Inhibiting Effects of Sodium Monofluorophosphate Toothpaste and an Acidulated Phosphate-Fluoride Gel 202

Cate, J. M. ten and Arends, J.: Remineralization of Artificial Enamel Lesions in vitro. II. Determination of Activation Energy and Reaction Order 213

Varia 242

No. 5

Original Paper

Huis in ‘t Veld, J. H. J. and Backer Dirks, O.: In-tracellular Polysaccharide Metabolism in Streptococcus mutans 243

Birkhed, D. and Frostell, G.: Caries in Rats Fed Highly or Slightly Hydrolysed Lycasin® 250

Frostell, G. and Birkhed, D.: Acid Production from Swedish Lycasin® (Candy Quality) and French Lycasin® (80/55) in Human Dental Plaques 256

Spector, P. C.; Lang, C. C, and Parmeter, D.: Strontium in Surface Enamel of Rat Molars 264
